BY RNB GLOBAL UNIVERSITY

International placement

Getting placed abroad, before you're done with your post-graduation, is what most of us dream of!

RNB Global University-Bikaner- has delivered its International placement for the post-graduation batch of 2020 - 22 during the challenging COVID-19 pandemic, with the package of AED 50400 per annum. Turning this dream into a reality, we have Puneet Vyas- A management student turned professional, who chose to study at the RNB Global University-Bikaner specializing in Marketing & HRM.

This is his story of belief, of having faith in himself and to the RNB Global University-Bikaner that helped him bag an overseas placement. Puneet Vyas has been offered a job opportunity "Assistant Sales Manager" at Dubai/Qatar/Abu Dhabi Office of Property Pistol.com- India's leading real estate broking and advisory firm offering technology driven and cutting-edge solutions to homebuyers, developers and channel partners across major real estate segments in India & GCC. We believe this a reflection of the quality of our students and of the education and orientation they have received at the University.

Having participated in numerous competitions in the two years, Puneet Vyas grew as an orator and learnt how to present himself in front of the interview panel. Adding to this, he says that- "Competitions provide challenges of different kinds, which rarely are found in the confines of an MBA classroom."

RNB NOW INCLUDED IN LIST OF B-SCHOOLS

Management Aptitude Test (MAT) is a standardised test being administered since 1988 to facilitate Business Schools (B-Schools) to screen candidates for admission to MBA and allied programmes. Govt. of India, Ministry of HRD approved MAT as a national level test in 2003. B-School - national or international - consider MAT Score as an admission input to enrol students in their institutes.

RNB Global University has now been included in the prestigious list of B-School for MAT Exams. Starting from December 2021 MAT exam RNBGU will take admissions to its BBA and MBA programs via MAT Score also.

You can find the listing of RNB Global University in the West Zone. MI Code allotted to university is 3309.

The Book

Woke up crying in my dream
Surrounded by shelf of book
Smells rotten
As it has rain acid
Laptop on the table
Drinking, left orange juice
I could hear, tearing, biting, chewing
From back of my mind
The horror, echoing
There lies My favourite books, my hand written notes
That used to smell sweet
Now cover in dust, the ink has melted
The words are blur,
I tried to read, touch, feel
My memories!
Could hear laptop haugh & mock
Tears in my eyes,
I felt the pain, as they are
Decaying & dying!
My book turned into ash
Disappeared in front of eyes.
It went into my lungs
I suffocated, felt the pain of dying,
Without life, without breath!
It was 5, the alarm rang
I woke up by the book,
I kissed it!
I smell it!
Look it in my breath,
Felt alive!

LEGAL @ RNB

WHY CHOOSE LAW?

You have many options to choose from once you have successfully passed 12th grade. You can be anything that you wish. A doctor, an engineer, a dancer, a pilot, there are just endless possibilities. But why would you choose law? You see, law is a fundamental concept of any society. Everyone has a different perception of what law means, and perhaps that is the reason why law has too many definitions. I wouldn't say that any of them is wrong, however, not all of them can fully and truly describe what law is.

For a lawyer, law is a subject which helps one understand his rights and also creates sensitiveness to those of others. But from a layman's perspective, we could understand law as "a body of rules and principles that regulate the conduct of human beings, through the authority of the state". Coming back to the point, i.e., why choose law as a career?

Thomas Jefferson has rightly quoted "*The study of the law is useful in a variety of points of view. It qualifies a man to be useful to himself, to his neighbors, and to the public*"

We've all heard the saying that "power corrupt, and absolute power corrupts absolutely." But is it only applicable on the bureaucrats? Now just imagine that the society has been given total liberty, what would happen? Bloodshed, loot, harassment, and helpless victims; that is what the society will be like.

Law is a mandate which makes society more humane and livable. It governs what we can and cannot do. It is used to settle disputes, to punish, conduct business and protect rights of people and render justice. Similarly, a state uses law to meet the ever-changing needs of the society. In short, law helps maintain peace, protect rights and establish standards of conduct.

Law as a profession is in great demand these days due to the changing social and economic circumstances and the ever-increasing regulatory role being undertaken by the government there is a rising demand for the lawyers. Moreover, law is not only financially lucrative, but also is an exciting field.

A lawyer is held in high esteem in our society and there remains faith that when everything fails, one can still take the path of legal system. In our daily lives too, we come across situation where we might need the advice of a legal professionals who analyze and interpret law properly. The most important work you'll do as a lawyer is advice your clients about their legal rights and recommend course of action in a conscientious manner. Oh, and don't forget that law is not limited to choosing between a judge or an advocate. As a law graduate you've endless career opportunities to choose from!

Coming to the pros and cons of being a lawyer.

PROS

- Diverse practice areas to choose from.
- Rewarding both in terms of perks you get and respect among clients.
- Boredom will never be an issue as you'll be fighting a new case each time.

CONS

- Long working hours and tight deadlines.
- You have a lot of responsibility as a lawyer, therefore it can be quite stressful at times.
- Very tough competition.

So if you are someone who is looking forward to working with and working for people you should consider choosing law.
