Vol. III Issue XI

by RNB Global University

Bikaner City

Bikaner is a city in the northwest of the state of Rajasthan, India. It is located 330 kilometers (205 mi) northwest of the state capital, Jaipur. Bikaner city is the administrative headquarters of Bikaner District and Bikaner division.

Formerly the capital of the princely state of Bikaner, the city was founded by Rao Bika in 1486 and from its small origins it has developed into the fourth largest city in Rajasthan. The Ganges Canal, completed in 1928, and the Indira Gandhi Canal, completed in 1987, facilitated its development.

The city celebrates its foundation day on Akshaya Tritiya by flying kites and eating special Rajasthani food that includes Bajre Ka Khichda and Imli ka Paani (Tamarind Water) among other snacks. The celebration lasts for two days, known as Chhoti Akha Teej and Badi Akha Teej. People can be seen flying kites during these two days right from the early morning at 5-6am till late sunset.

The city is most famous for its savoury snack Bhujia which is sold all over the world. It is also known for a large variety of namkeens that are offered and the spicy papad which is another speciality. The Samosa and the Kachori which you get at every nook and corner are highly recommended by the locals.

Triple Talaq Verdict by Supreme Court

The Supreme Court's decision to declare the practice of triple talaq as unconstitutional is a milestone in the Muslim women's rights movement in India. Triple talaq — or the practice whereby a Muslim husband pronounces talaq (divorce) three times to end a marriage — has two variations. One variation is to pronounce talaq three times in one sitting, either verbally or through various written media such as phone call, letter, WhatsApp, Skype, SMS and the likes. The other is to pronounce a talaq each over three months.

At the time of writing this article, it is unclear if both the variations of triple talaq were struck down by the Supreme Court. However, it seems the practice of triple talaq was declared as unconstitutional by a 3:2 majority of the court. It was the instant triple talaq which was at the centre of countrywide debate due to its arbitrary use by Muslim husbands. The decision is a milestone in the life of the poorer sections of Muslim women who are the worst sufferers and don't have the economic means to go to court.

No Tobacco Day

The World Health Organization (WHO) designated 31st May of each year as the annual World No Tobacco Day (WNTD). The theme of WNTD 2018 is “Tobacco and heart disease”.

The focus of the WNTD 2018 will be the cardiovascular health. Tobacco use is a known and important risk factor for cardiovascular diseases (CVD), including coronary heart disease, stroke and peripheral vascular disease, etc. According to WHO, CVD is the leading cause of death worldwide and 12% of all heart disease deaths are contributed by active and passive smoking. However, the knowledge on their association of the public is low. By adopting “Tobacco and heart disease” as the theme of WNTD 2018, WHO encourages parties to organize campaigns to increase the awareness on the link between tobacco and heart diseases, and on the feasible measures that can be adopted by the government and the public to reduce heart health risks imposed by tobacco.

In summary, WNTD 2018 aims to:

- Highlight the links between the use of tobacco products and heart and other cardiovascular diseases.
- Increase awareness within the broader public of the impact tobacco use and exposure to secondhand smoke have on cardiovascular health.
- Provide opportunities for the public, governments and others to make commitments to promote heart health by protecting people from use of tobacco products.
- Encourage countries to strengthen implementation of the proven MPOWER tobacco control measures contained in the WHO Framework Convention on Tobacco Control (WHO FCTC)

National Technology Day

National Technology Day is observed every year on 11th of May in India, acting as a reminder of the anniversary of Shakti. Shakti is the Pokhran nuclear test which was held on 11th of May, 1998. The day highlights the important role of Science in our daily lives and encourages students to embrace Science as a career option. Various events are organized in different technical institutes and engineering colleges to mark the day. Competitions, quizzes, lectures, interactive sessions and presentations of various aspects of Science are managed globally. The day is crucial for engineers, planners, scientists and others who are engaged in nation building and governance.

WHY NATIONAL TECHNOLOGY DAY IS CELEBRATED

On 11th of May, 1998, India victoriously test fired the nuclear missile – Shakti-I at the Pokhran Test Range of Indian Army in Rajasthan in an operation administered by late president and aerospace engineer Dr. APJ Abdul Kalam. After two days, the country victoriously tested two additional nuclear weapons. Following this, Prime Minister Atal Bihari Vajpayee announced India as a nuclear state, making it sixth country in the world that has joined the nations “nuclear club” and the first country that was not party to the Non-Proliferation of Nuclear Weapons Treaty (NPT). NPT is a global treaty signed by the UK, Russia, China, France and the US which has the objectives to prevent the increase of nuclear weapons and attain nuclear disarmament.

Becoming the sixth nuclear state of the world was not the sole thing India attained on that day. Hansa-3, India’s foremost indigenous aircraft was flown in Bengaluru when the nuclear tests were being organized in Rajasthan. Hansa-3 was developed by the National Aerospace Laboratories. It was a two-seater, light general aviation plane which is utilized in the flying institutes for sports, pilot training, aerial photography, surveillance and projects related to the environment.

Hollywood- Bollywood Fame Actor Mr. Kabir Bedi Visited RNBGU Campus

An International Actor, Bollywood Hollywood Rome, Knighted by Italian Republic, Oscar Voter, Presenter, Producer, Writer, Creative soul Mr. Kabir Bedi with his partner Parveen Dusanj, visited RNB Global University on October 3rd 2017.

The famous actor motivated the students by sharing his view on success and his experience about life and strife of his career. He quoted, "First, you have to be vigilant enough to recognise the opportunity. It doesn't come saying, 'Hey, I am here'. Secondly, use your adversity as your advantage and make it your motivation and most importantly, do not rest on your laurels." This sense of availing the opportunity of course comes with knowing your job and working hard. He explained kids that there is no substitute to hard work. He was overwhelmed by the warm welcome given by university. Mr. Bedi appreciated the infrastructure and work in education RNBGU doing at the remote area. He expressed the gesture of accolade for the efforts university putting in to raise the standard of higher education in Rajasthan.

Post this, students interacted with stars and asked many questions to him. Students could not hide their enthusiasm and turned into shutterbugs as they seized the opportunity of clicking the Selfie with Stars. The students showed their gratitude for making a life time experience for them and left them enriched.

These kinds of events are worth experiencing for the students who get to learn from the lives of the people who have lived their life enterprising. So, the University students experienced refreshing and rejuvenating after interacting with Mr. Bedi.

workshop was organized by School of Law, RNB Global University, Bikaner on "Moot court Technique" on 7th October 2017. Dr. Tarun Arora, Associate Professor & Associate Dean, School of Legal Studies and Governance, Central University of Punjab was the speaker of this workshop.

The special focus of the workshop was on Preparation for Moot Court. The program began with introduction and welcome address by Mr. Ashok prem, Assistant Professor, School of Law, RNBGU. The entire programme was divided into three different sessions. In first session, Dr. Arora, enlightened the students regarding basic of moot court whereas in the second session main emphasis was on application aspect.

Which type of mannerism needs to be followed in front of judges; how to apply the existing laws in reality, why there is a need for developing thought process in the mind of law students; how the ability to think differently and that to make distinction by indifference works as an indispensable part of the art of mooting—these points have been specifically emphasized.

It is a special point to note that students' participation was highly appreciable. The third session which was basically reserved for open interaction, students have raised number of unique questions which the School of Law is taking as a sign of encouragement. All students of School of Law were present in this moot court workshop.

Vote of Thanks was given by Dr Hansraj Arora, Convenor of school of law.

Navy women group

Defence Minister Nirmala Sitharaman and Navy chief Admiral Sunil Lanba on Monday welcomed the Navy's six-member all-woman crew who arrived here after circumnavigating the globe in over eight months on board the naval vessel INSV Tarini.

The expedition, christened 'Navika Sagar Parikrama', was flagged off from the INS Mandovi boat pool here on September 10 last year.

Led by Lieutenant Commander Vartika Joshi, the crew had Lt Commanders Pratibha Jamwal and Swati P, and Lieutenants Aishwarya Boddapati, S Vijaya Devi and Payal Gupta as other members. They completed the feat in the 55-foot sailing vessel, INSV Tarini, which was inducted into the Navy on February 18 last year.

It was the first-ever Indian circumnavigation of the globe by an all-woman crew, the Navy said.

The six women officers trained for the project under Captain Dilip Donde, the first Indian to solo-circumnavigate the globe from August 19, 2009 to May 19, 2010 on board the Indian-built vessel INSV Mhadei, a Navy official said.

CREATIVE PALETTE

सच ओट झूट के फरेबो से परे .. पाक साफ जो झलक दिखाली ..
वो आखे तेरी ॥
बिन कहे मेरा हर रात पद लेली .. वो आखे तेरी ॥
ओढ़ कर लिहाफ साधमाँका .. पँचली मुझ तक ।
कोरे कागज का हृदयकास कराली ...
आगोश मे भर के मुझे , फिर सुखुरली .. वो आखे तेरी ॥
साथ होकर भी तड़पली .. दूर होकर हो जाली बँचोन ।
आटे भरे दिन कटवे .. आखो मे कटली रात ...
स्क फल मुझे अकेला ना करली .. वो आखे तेरी ॥
हर मोसम झूमली सग मेरे .. तन्हाई में साथ धूमली मेरे ।
रेखना नहीं लोड़ली .. साथ नहीं छोड़ली .. वो आखे तेरी ॥
