TEACHING PEDAGOGY

The modern case-based pedagogy pursued at RNBGU helps build a real business scenario within the campus premises. This help students absorb facts and theories, at the same apply leadership skills, amidst real life business situations. This stimulating environment and approach gives a strong grounding to the students and prepares them to take up challenging situations, going forward. The faculty largely plays the role of a facilitator, a guiding light that directs the flow of discussions and helps develop a problem-solving approach among the participants. Steady exposures to different case studies make our participants adapt at managing challenging business situations with confidence.

In the networking world of today, communication skills are becoming very important. A manager's main role is to communicate his/her vision and strategy to others and get them to work with him/her towards that vision. RNBGU places special importance on the communication and interpersonal skills of students by imparting subjects like 'Ability & Skill Enhancement'.

Teaching Pedagogy includes:

- Classroom interactions by qualified and experienced faculty members using modern teaching aids such as power-point presentations and high quality video film aided sessions.
- Guest lectures by industry executives.
- Intensive objective-oriented skill and knowledge based demonstrations and practical sessions in the state-of-the-art in-house practical facilities.
- High level of integration of academics and industry through live training at affiliated companies.

CONTINUOUS ASSESSMENT

A continuous assessment system in semester system (also known as internal assessment/comprehensive assessment) is spread throughout the duration of the course and is done by the teacher teaching the course/subject. The student gets an opportunity to learn more using the continuous learning method. The students do not keep the things for last one month and would learn throughout the semester. The continuous assessment provides a feedback on teaching learning process. The feedback after being analyzed is passed on to the concerned student for implementation and subsequent improvement. As a part of concurrent evaluation, the learners shall be evaluated on a continuous basis by the University to ensure that student learning takes place in a graded manner.

Students can refer to the semester/year wise “Program Assignment chart” to get a better idea on the format/style & number of assignments they need to take in a particular semester/year. The assignments are designed in such a way that helps in the holistic growth of the students along with creating confidence & bettering the communication skills.
