Section B:

- 1 Your input & Suggestion for improvement in the content of the syllabus
- 2 which aspect of the learning in this semester has been most valuable to you
- 3 Your input & suggestion for improving the overall learning experience

→ The Ability and Skill Enhancement-III has been the most valuable learning experience for me. In the subject 'Documentary Making' was one of the task for final exams been assigned to us by Ms. Lata Vyas Mas'm. Documentary making was new for me neither I know any basics of editing but because of this task I tried to learn some basics of editing ^{for YouTube} and I made my Documentary and it turned out to be the best among all.

And Today, I proudly say that I am the Content Creator and I run my own 'You Tube Channel' as this was made possible only because of the skills that I had learned earlier in my ASE Documentary tasks.

Suggestions -

① In Production Technology and spices syllabus please add Topics of Spices also because in the syllabus only the focus is on Vegetables.

Name and Signature of Student - Pratiksha Shrivastava, Pratiksha
 Class and Semester - B.Sc. (Hons.) Agriculture, IIIrd semester.
 Date of Feedback -

→ Because it happened with me in the practicals the external had asked me about different package practices of spices such as cardamom, fenugreek, black pepper etc and it was embarrassing that I was not able to answer it because none of the above was taught to us in the class as it was not mentioned in the syllabus.

② Livestock and Poultry Management was assigned to the guest faculty but this is the important and subject with vast syllabus so proper permanent Professor should be assigned.

- maybe be distributed within semester, instead of putting all of them in the same semester.
- ② NCC/NSS activities should be conducted more of a regular basis.
- ③ Administrative law - this subject should be taught in further semester, as it is a complex subject, for such freshmen.
