Regarding Experiential Learning in University Laboratory

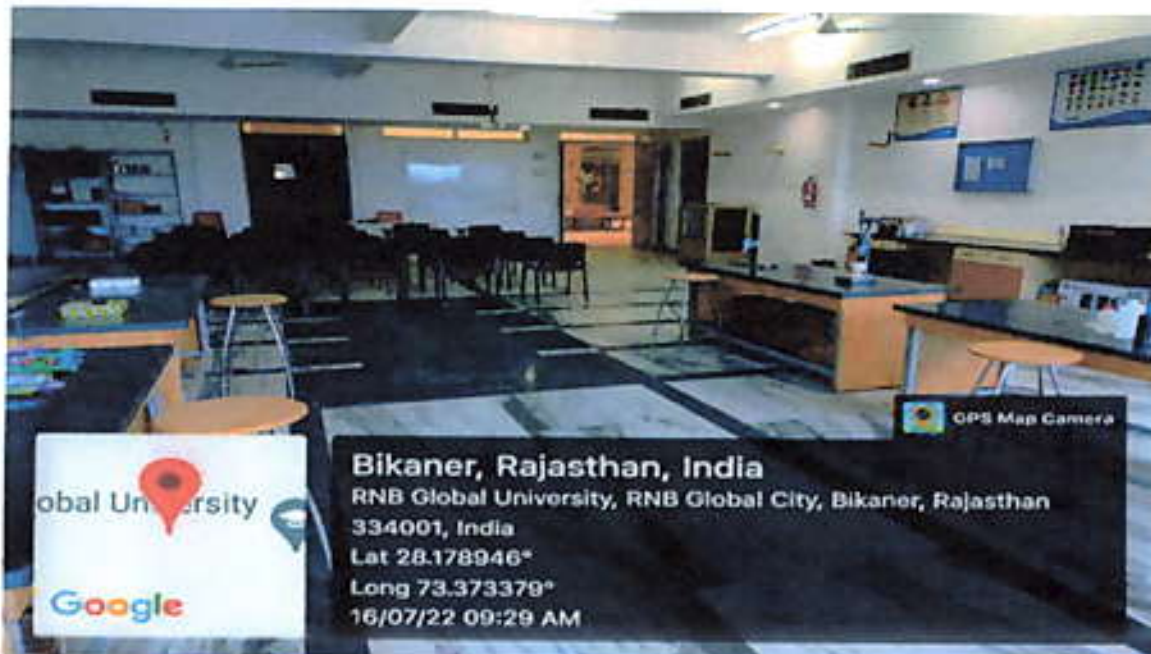

The University makes continuous and conscious efforts to enable its students to develop their personality so that they turn out to be good leaders, entrepreneur and above all good citizens who can contribute immensely through their positive thinking. For this, the University undertakes various programme so as to give a blend of conceptual and practical training to handle problems of their employers.

Practical

In all the schools across the University, practical are part of the curriculum and is mandatory for all the students to perform practical on the aspects learned in the theory class. For this, course are designed and in each subject a set of defined practical are performed by students. This helps the students to understand the basic concepts of subject by actually performing them in Laboratory or field. The University have developed good infrastructure for doing practicals in laboratories.

The students do the practicals with their own hands under the guidance of the faculty members. Detailed laboratory manuals are prepared by the faculty members and the students are required to perform the practical using those guidelines. In agriculture the students perform practicals in Laboratory, field as well as in protected structure.
