- All the mentioned charges are exclusive of taxes and duties.
- The Customer will make the payment within 30 days from the date of invoice. TCS prefers electronic mode of payment.
- These prices are applicable for locations in India only and for a single instance in the data center.
- The price quoted is applicable for the version contracted for. All future versions delivered during the Contract Term are included in the price.
- For invoice generation purposes, the customer authorizes TCS to query customer data for the user count or any other billing parameter applicable as per the fee schedule. Invoicing will be done for all active users of the system. In case some users are no longer needed to be active, it is the responsibility of the Customer to de-activate any such users so that such inactive users are not billed.
- The number of sites and user base served may grow during the service term. The customer will share with TCS the expected growth plans, to allow TCS sufficient lead time to plan for additional capacity and deployment. Any growth beyond the numbers stated above becomes billable from the month in which the systems capture either master or transaction data for the increased user base. TCS will also charge a Set-up fee for each such increase, as per the fee schedule.
- Customer is responsible for any 3rd party costs for integration items in scope. For example, if SMS integration is in scope, customer is responsible for the cost of subscribing to an SMS package from an authorized telecom provider.
- Implementation will only be on as-is capability basis. No change request will be accepted as TCS obligation as part of Contract. Non implementation of a change request cannot be the basis for non-payment of subscription invoice. Any change requested by Customer, will be analyzed for feasibility. If found feasible, the change will be done as part of product roadmap development and additional charges and timelines will be mutually agreed upon. If Customer has asked for some changes to the system and these changes were either not done or completed after some time, and this has resulted in delayed implementation of some of the capabilities, Customer cannot ask for waiver of complete or portion of the invoices citing the lack of usage of certain modules or capabilities.
- Existing reports are listed on [www.tcsion.com](http://www.tcsion.com).
- TCS can make available a trained iON data management executive to support customer's data migration, data entry, operating basic functions in iON at a cost of INR 50,000 per month. The management and monitoring of this executive will be done by the customer.
- TCS can also make available a trained iON configuration support consultant at onsite, to support ongoing configuration needs and provide first level of support, at a cost of INR 75,000 per month.
- On Customer request, if non-local Specialist Consultants have to travel to any of the Customer locations, Customer will provide to and for airfare from TCS location to that location, boarding and lodging expenses for the duration of deployment as well as local transportation facility (one or all of the expenses, as applicable). These expenses will be claimed on the basis of reports submitted by TCS accounts department to the Customer.
- Set-Up Fee will be due at the time of signing the contract and is non-refundable. Customer Set-Up includes a) datacenter and solution provisioning and b) training. If additional users are added during the contract Term, Set-Up Fees for the new users will be charged. This will be calculated on the basis of 4 months Subscription Fees.
- TCS will raise a Monthly invoice for 100% of the Monthly Recurring Charges for all the users (PUMP \* number of users) based on the actual number of users in the system above the minimum number of users. User count cannot be reduced during the term of the contract. Partial usage of the modules in scope will not affect subscription invoices and these will be always at 100% of the charges. Full invoicing will commence from the first month of subscription. Solution implementation is a transformation initiative. TCS recommends that customer identify a Change Champion to work closely with TCS and drive

the initiative. Customer may also incur additional effort through support for providing data, undergoing training, doing transactions etc. These efforts cannot be claimed as costs from customer side and claimed as damages in the unlikely event of any termination or contract dispute.

- The total contract value shall not exceed 55,00,000 (Rupees Fifty Five Lakhs Only) during the contract term. For any increase in the contract value Customer and TCS shall mutually agree to sign an amendment or change request.
- During the Contract Term (3 years) Monthly Recurring Fees shall be increased by 5% of the existing price on every anniversary of the Agreement.
- The Customer will make the payment within 30 days from the date of invoice (other than Set-Up Fee). TCS prefers electronic mode of payment. Payment of the monthly subscription invoices are a pre-condition for the continuation of usage of TCS Application Systems and services. If the invoices are not paid within the due dates, TCS reserves the right to suspend customer user access to the TCS Application Systems after giving an e-mail notice of 5 business days. The access to the software will be restored by TCS upon the payment of all the outstanding invoices, as per the contract terms. TCS may take at least 1 business day from the date of credit of the amounts in TCS bank accounts to restore the access back. Continued non-payment of KIN invoices will lead to termination of KIN services. Upon termination of services due to non-payment of invoices, customer data will be retained for 90 days, within which customer is expected to clear all the outstanding invoices and request for the data and TCS will provide the same in CSV or XLS format. TCS may start contract renewal discussions 30 days in advance of contract expiry. It is expected that TCS and Customer will agree on renewal contract terms and sign the renewal contract, before expiry of the current contract term. Non-renewal of contract may lead to suspension of KIN services on expiry of current contract.
- Subscription to KIN services are on a continuous basis. Customer cannot suspend usage for few months in between and ask for waiver of invoices for these months, as the data and configuration still continue to be supported by TCS even during the period of non-usage.
- Standard Rate card for technical change requests. Customer can raise a Service Request ticket for these enhancements and issue a purchase order, based on which invoicing will be done.
- Rate Card for Tech Support Tickets.
