## A Report on Tree Plantation Drive at RNBGU

### Introduction

The RNB Global University has successfully organized a Tree Plantation Campaign on Aug 29, 2019 in association with Rotary Club Aadhya, Bikaner. All the students and teachers participated in this program. Also, some local municipality department officers have participated in our program.

### Objective:

Trees play an important role in reducing the air pollution and to maintain the good quality air level in an environment. Trees are also useful to reduce the erosion of soil which may lead to high flood situation. So, every individual shall try to plant as many trees as possible. Because day by day pollution level in an environment is becoming worse. Hence to overcome this situation tree plantation is the only solution we have.

### Outcome of Activity:

1. Students understood importance of tree plantation and types of trees which are beneficial to maintain clean environment.
2. Students realized impact of air pollution on society.

### Outline of Activity:

The objective of this activity to plant as many trees in available area which are beneficial to environment.

No. of trees planted: 300

Students also made some posters and banners on the importance of tree plantations. We pasted banners and posters in the area around our school. So that people read these and know the importance of tree plantation. After our goal of planting 300 trees is achieved, we come to our school. The Dean of our University gave a passionate speech on the topic of Tree Plantation and its use for all. Finally, the program ended with the singing of the national anthem.

### Introduction:

This visit at Bajrang Nursery was related to the fruit plant study. The students arrived at the nursery at 9:30 am., where they visited all the components of the nursery like the compost unit, nursery beds, portrays, pots polythene bags, instruments, and tools used in the nursery the material that is to be filled in the polybags and portrays. The main focus was on learning about the plant raising because of suitable weather conditions. Main Fruit plants were mango, ber, aonla, and pomegranate used for plant seedling raising is the primary goal. Students learned the media preparation that is suitable for the fruit plant seedling growth. After the media preparation, they filled the media into polybags, portray and later the seed or the grafts was sown in the media. By doing this activity, students develop a clear understanding about the fruit seedling raising of the mango and came to know the benefits of seedling raising in the nursery some of them were like it prevents the saplings from the pest and diseases in the Early-Stage growth, it provides that only healthy saplings were transplanted so that the maximum production can be taken. This practice develops the understanding among the students regarding the fruit sapling and grafting and its beneficial effects in pomology to meet the nations demand of Fruit such practices must be followed. Later vote of thanks were given by Mr. Ram Pandey.

**Outcomes:**1. To develop the understanding and distinguish between different fruit plants.

2. To understand the sapling raising of the various fruit.
3. To know the benefits of fruit nurseries.
4. To learn grafting in the fruits.
5. To protect the fruit from various pests and diseases.

By the Nursery visit students are able to understand and perform all the above activities and they were enthusiast to perform such activities.

## Introduction

### Working Session 1: Decoding the Moot Proposition

At the Morning of 23.01.2020, the session was conducted by Mr. Anant having worked at Sharda Amarchand Mangaldas and Mr. Rachnendra practising litigation, for enhancing the mooting capability of the students. Soon after the Inaugural session, the first Working session on "**Decoding the moot proposition**" began. First, they discussed about the extracting the material facts where we were told to read the moot problem, mark new words along with name of statutes and new concepts. Then we were told to analyse the applicable statutes in moot proposition which helped us to identify the law applicable in moot proposition.

### Working Session 2: Examining sections of memorials

The session started primarily with examining the sections of memorials i.e. which sections are applicable to the moot proposition. Then we discussed about framing the issues and sub issues where we were guided to identify the material and immaterial facts. Lastly, they guided us as how to prepare the statement of jurisdiction where they gave us the MANTRA (Formula) i.e. ILAC (Issues Law Argument Conclusion)

### Working Session 3: Preparing the Memorial Structure

This session started by them giving an overview of preparing the memorial structure where we were told that "Research is the most important part of any moot preparation. Research never ends, not even on the day of the moot. However, the formatting of your memorial is also very important, and many people tend to forget that which is why their memorial score is the reason for low team ranks".

**Working Session 4: Discussion on 3rd Seth Jagan Nath Bajaj National Moot Competition**-We discussed about the moot proposition which our university is organizing, we got to know about the basics of drafting, specific word usage, hierarchy of authorities etc. It was very helpful to us as it made our work easier and which could save a lot of time while preparing a proposition as they've told us various shortcuts along with couple of strategies which would make our moot proposition presentable.

### Day 2: 24th January 2020

**Working session 1: Preparing the Memorial Structure** 1st session of day 2 started with understanding the basic formatting tools for memorial making for e.g. Appropriate heading, fonts, header/ footer, alignment, line and paragraph spacing, border, margins etc. Further we were guided as how to prepare complete memorial outline as earlier, we were unaware of these things, therefore, it helped us a lot in preparing memorials. We were guided as how to use MS word shortcuts for e.g. (Enter+ Ctrl+ Enter) for adding new page etc.

**Working session 2: Drafting and finalizing the memorials** The session started with learning the basics of memorial drafting where they guided us about the drafting styles and strategies, specific word usage, consistent drafting, capitalization, using of ILAC, etc. Then they discussed the IRAC method of drafting. They told us that

IRAC is used after your facts section, in the discussion section or your memo, or the argument section of your brief.

**Working session 3: Checks and touch ups** This session started with discussing about drafting prayer and arguments synopsis, where they guided us about how the prayer must be short and precise which shall consist of all the relaxations which the party wants from the Hon'ble Court. Then they guided us through the final formatting checks and touch ups i.e. How to correct the citations, how to highlight your headings. Further, he guided us about how to generate the index and table of authorities with the use of MS word.

**Working session 4: Bonus Tips** In this session they've discussed about how to set the timeline for a moot i.e. within the prescribed time period within the guidelines. Then they guided us about how to manage the memorials within the page limits, they told us that how not to exaggerate things and how to write point-to-point. Further, they taught us how to make one's memorial appealing i.e. using of proper lines and spacings and how to decorate your memorial if needed. At last they solved our queries regarding the training program.
