Faculty can use the assessment feature to create set of questions of various types like MCQ, MSQ, Linked Answer Question, Short Answer Question, Subjective Questions, Completion, Typing Test and Programming to assist the participants. Faculty can create the assessments using the assignment, spaced or question bank approach (2b or QbT).

Faculty can also restrict the attempts required to complete the assessment. Choice can be made to display the scores and correct answers to the participant at the end of assessment.
