Date: 1<sup>st</sup> April 2017

Time: 09:30 AM onwards

Venue- Academic Building, RNB Global University Campus

"Wishing you much joy, happiness and success as you begin a new chapter in your life".

This was the mantra for the day and the wishes of the hour as it was the "Hasta La Vista" aka farewell party of the very first batch of MBA IV SEM at RNB Global University. The campus was a buzz for the moment and the excitement for this day grew. But such days always come with mixed feelings and this was no different. While the RNBian's were happy for their pioneering batch who are ready to fly and take up their careers but were also sad as they were leave us now.

The program started with the ceremonial ribbon cutting by the students of MBA IV semester as the MBA II semester warmly welcomed them by Tilak ceremony. After a witty and cheerful welcome, Kamakshi gave a song performance whose lyrics were to bid adieu to the seniors. Now it was time for some fun filled games. The first one was "Mittens and More" in which the participants struggled to open gifts with gloved hands. And this was an all-woman show as the winners were Deeksha and Manupriya! The next one was called, "wrapped" in which the girls had to drape their male partners in a saree. It was really enjoyable to see all the boys draped in sarees and taking a cat walk. Shubham Phugalia with his partner Twinkle won this round as he was adjudged the best draped in a saree. The last game was, "Marbles fun" where the participants had to dunk their faces in a bowl full of biscuit pieces and try and find 5 candies. Sachin Sarada did a fine job and won this game. To make the event even more upbeat, there were two dance performances one was a "FLASH MOB" dance and the other was by the very stylish and talented, "AJ STYLE" group whose scintillating performance rocked one and all present there!

Towards the end seniors were given a token of remembrance in the form of a 'Mementos' with a title for each one of them and their hand prints were taken on a large board to capture their memories , that they came as strangers and leave us as friends. The event was hosted by Nikita Soni and Divyaraj Singh Rathore.

Every student from all the schools had participated and contributed towards the success of the event for their seniors. The organizing team of MBA II Semester students led by Priyanka, Nikunj and team put up a fabulous team effort to make this a thoroughly enjoyable and memorable event in the annals of history.

On this day the entire RNBGU family wishes each one of our outgoing students a sparkling career and an equally spectacular life ahead.

Malaysia Tour

DOC201702270002

Date: 27<sup>th</sup> February 2017

Time: 09:30 AM onwards

Educational tours offer an opportunity of a rich immersion experience and a tremendous way to facilitate learning as students have chance to experience and explore much deeper than in classroom. Therefore the students of RNB Global University went on a weeklong cultural and educational tour to Malaysia beginning on February 27, 2017 in order to gain new perspectives of the world.

On reaching, their first destination was Kuala Lumpur; Malaysia's bustling capital where they proceeded on a half day city tour around. By coming into direct contact with a different environment, a new culture and language, the students were able to understand their place in the community and develop openness to differences in others. They also saw old and new architectural splendours such as national mosque, king's palace, Sultan Abdul Samad building, Merdeka square, National Monuments, Railway Station, Railway Administration Building, Cocoa House, Tien Ho temple, Blue Mosque, Putrajaya temple visit (there they climbed 252 stairs) to name a few. Then they went to KL tower entrance and captured the stunning view of whole Malaysia before proceeding to Genting Highlands via cable car at an altitude of 3000 ft and stayed at the world's largest hotel i.e., First World Deluxe, Genting Highlands. All the way they captured these memories as pictures!

On the second day they went for the industrial tours beginning with a visit to Batik factory in which they saw creative paintings on cloth and were fascinated by the maze of colors intricately designed on cloth. Next they visited Royal Selangor where they saw metallic objects and explored that industry for the various shapes, designs and colour of these objects. After this they visited Yakult where they understood the entire manufacturing process of Yakult products made from proactive bacteria. They also relished different kinds of Yakult drinks. This was followed by a visit to KLCC Aquaria which was home to myriad

beautiful fishes before checking into the splendid Pearl International Hotel. The visit continued to the Sunway lagoon in which they visited 6 different parks like amusement, wildlife, extreme, scream parks and mainly enjoying at Water Park.

This brought them to the last day of the tour and now the excitement began for shopping and photoshoot at PETRONAS twin tower. Spending a couple of hours there seemed like a couple of minutes as they were awestruck by the grandeur of the tower. Finally it was time to reach the airport and take the flight back home.

Memories of such educational trips are among the most prominent of the formative years, largely because they are like welcome break in the routine for both students and teachers. While their purpose is essentially to educate, it was also a fun bonding experience for everyone involved.

## Visit to Malaysia

### MALAYSIA TRIP

**KUALALUMPUR, MARCH 7, 2017** The Malaysian Government goes with the tag line, "Malaysia Truly Asia" this could not be truer. As I was to soon find out that Malaysia is a potpourri of people, food, music & architecture.

**DAY ONE, 1st MARCH:** On a full belly we started our Capital tour, which included architecture splendors merging the old and new seamlessly. To name a few, we saw the National Mosque, Sultan Abdul Samad's Palace, Merdeka Square, the National Monument, Tien Ho Temple, Blue Mosque and the Putrajaya Temple that had 252 step to the top. Our next stop was KL towers, which is 3000 ft higher than the rest of the city giving a bird's eye of its urban beauty. Our cameras were working overtime.

**DAY TWO** had us visiting a Batik factory. The walls were lined with paintings and never could have imagined an industrial compound with such creativity. The second industry on our list was Royal Selangor followed by Yakult where we saw the making of their products. After all the technical touring it was time for fun and we landed at KLCC Aquaria where we saw exotic fishes and sea life. Finally tired we checked onto the luxurious Pearl hotel.

**DAY THREE** was all about speed thrill and fun. This was my favorite part of the visit. We went to Sunway lagoon, which boasts of 6 different parks. Our focus was the Water Park followed by the Amusement Park, the Scream Park and then the Wildlife Park. Tired and content we hit the bed with a happy sad feeling. Happy because we were having so much fun and sad because the next day was our last day in Malaysia.

**DAY FOUR** was dedicated to improving Malaysia's economy. I mean, we decided to spend the day mostly shopping. The shopping list was eclectic to say the least. It had everything from a fridge magnet to a laptop on it. Finally it was time for the "Pièces De Résistance" The Petronas Twin towers. Our cameras were working overtime and so were our shooting skills. After all the pictures had to make an impression on Facebook, Wassapp and whatever else's out there.

The airport was our last bastion to load up on Chocolates and last minute Malaysian souvenirs before we settled down to get back home

Clothes Distribution Drive

DOC201701260002

Date: 26<sup>th</sup> January 2017

Time: 11:30 AM

Venue- Main Gate, RNB Global University Campus

RNB Global University strongly believes knowledge, competence & resources should be utilized for the welfare and upliftment of society. True to their core values RNBians set out to make this Republic day meaningfully patriotic by organizing a Clothes Donation Drive scheduled for the 26th of Jan 2017.

The seeds of which were sown a month earlier when Times of India on its web page reported cold wave conditions intensifying across the state of Rajasthan, where majority of the places recorded minimum temperatures below the normal notch. Bikaner reported a temperature of 6.5 degrees and a further dip in temperature was predicted.

In the New Year extreme cold gripped the region, it was tough enough for people snuggling under heavy coats and jackets to fight the cold leave alone the ones who had only, but a ripped blanket to protect them.

Therefore as planned moving past symbolic gestures on the 68th Republic Day the students and staff of RNB under its social initiative arm "Maanavta Ki Unchi Udaan" carried out the "Clothes Donation Drive" in an effort to help the needy.

Experiencing the act of giving firsthand, the students recognized that there exists an invisible gap in our society. They also realized their role as future responsible citizens and leaders to bridge this gap in their relevant field. Not only did students pledge to be a part and organize such events in future but many of them also decided to associate voluntarily and work on building various Social Development projects at the University level.

This drive that was meant to mark our Republic day in a meaningful way by giving back to the community became much more than that, it became a life-changing event for many and has kindled the Samaritan spirit amongst the RNBGU campus members.

Makar Sankranti marks the end of Malmaas, an inauspicious month in the Hindu (Panchang) calendar, and the transition of the Sun to the zodiacal sign of Makar (Capricorn) to herald a change in season. It is celebrated in the north as Lohri, in Assam as Bhogali Bihu and in the south as Pongal.

On 14th Jan 2017, RNB Global University celebrated Makar Sankranti in university campus. The custom of flying kites is associated with Makar Sankranti. People fly kites on this day because by doing it unknowingly they receive the benefits of sun exposure. During winter, our body gets infected and suffers with cough and cold and the skin also gets dry during this season. When Sun moves in Uttarayana, its rays act as medicine for the body. During kite flying the human body is continuously exposed to sun rays, which eradicates most of the infections and insanitation. Thus a Kite flying competition was also organised at the university.

All the students from the different schools took part in the competition, these were different group for boys and girls and different prizes also given for 1st and 2nd winner. Mr Umesh Jain BBA II semester was the winner and Mr Saurabh Quadri B.Tech II semester was the winner. This was an opportunity for all the students and staff to reminisce this old tradition and enjoy it will full vigour in the open welcoming the sun with hues of kites!
