

Name of Activity - Session on Water Pollution 2016-17

Name of School - Seth Tolaram Bafna Academy Bikaner

Date of Activity - 08/10/2016

Place of Activity - RNB Global University Bikaner

Young Achiever Award Recipients - 05 of the above mentioned School +Participants.

Water pollution is a broad term that describes any kind of contamination of bodies of water such as rivers, lakes or wetlands with substances that can pose threats to human health or the natural environment. Such pollution is a major source of death and disease worldwide, especially in developing nations.

Name of Activity – Session on Trees prevent Pollution 2015-16

Name of School -Sanskar International Academy Hanumangarh

Date of Activity - 26/11/2015

Place of Activity - RNB Global University Bikaner

Young Achiever Award Recipients – 05 of the above mentioned School

Session gave the importance that the world's forests absorb a third of global emissions every year. Particles, odors and pollutant gases such as nitrogen oxides, ammonia and sulfur dioxide settle on the leaves of a tree. Trees absorb these toxic chemicals through their stomata, or 'pores', effectively filtering these chemicals from the air.

Name of Activity - How to prevent Soil 2015-16

Name of School - G S Jangid Memorial School jodhpur

Date of Activity - 21/09/2015

Place of Activity - RNB Global University Bikaner

Young Achiever Award Recipients – 05 of the above mentioned School

The speaker emphasized that the simplest and most natural way of prevention of soil erosion is through planting vegetation. Erosion of soil from barren land is more; hence the soil must be kept covered by growing grass and planting trees on it. The grass reduces the speed of flow of water and minimizes direct contact of water with soil.

Name of Activity - Tree plantation work life balance for students 2015-16

Name of School - Sh. L.B.S. Sr. Sec.school Nagaur

Date of Activity - 25/09/2015

Place of Activity - RNB Global University Bikaner

Young Achiever Award Recipients - 06 of the above mentioned School

Tree plantation work life balance for school students helps recharge ground water supply, prevents transport of chemicals into streams as well as prevents flooding. Its fruits provide food while its fallen leaves also make good compost and improve the quality of soil. Being with nature improves cognitive function, enhances memory and discipline.

Name of Activity – Session on how to make Environment Green

Name of School – Nosegay Public School Sri Ganganagar

Date of Activity - 29/08/2016

Place of Activity - RNB Global University Bikaner

Young Achiever Award Recipients – 04 of the above mentioned School

Session was about Green Environment where the students were guided that these could include setting up a recycling system in the school cafeteria, planting a small organic garden that will provide fresh vegetables for the cafeteria. Children can also support local wildlife and reduce CO₂ in the atmosphere by planting trees, shrubs and flowers in the school playground.

Name of Activity – Plantation Activity 2016-17

Name of School - Cambridge Convent School Sardar Shahar

Date of Activity - 14/09/2016

Place of Activity - RNB Global University Bikaner
