It has modular design and is following Choice Based Credit System in the semester based teaching, evaluation and grading/assessment pattern advocated by CBCS. The Curriculum has a flexible structure with lot of flexibility available to the students to decide their own pace of learning.</p> <p>RNBGU aims to create a learning atmosphere fostering an environment of entrepreneurship, innovation, multi- and inter-disciplinary professional oriented research at every level of the curriculum. A student has the choice of opting for many interdisciplinary courses outside the chosen programme and catering for extracurricular dimensions promoting many other facets of campus life like student clubs etc.</p> <p>A. Management</p> <p>Courses have interventions from industrial experts also and components of fundamental, design & application are covered appropriately.</p> <p>The curriculum provides the opportunity for students to pursue industrial training, internship, projects, seminars and dissertation during their courses of study. It gives them the freedom to go beyond the syllabus and explore a topic of their interest in depth. This allows the students to demonstrate their ability to be self-directed. Provisions for self-study courses through swayam and audit/certificate courses are also available. Final year students are allowed to execute new ideas pertaining to entrepreneurship start up as part of their project.</p> <p>The RNBGU Curriculum, Content and Pedagogy are designed with the aim of ensuring that the students evolve into a futuristic leader who can think beyond the obvious and create new blue oceans of opportunities for the organizations that they eventually choose to work with. It consists of Courses that develop individual quality by fine tuning the innate behavioral and leadership skills required for managers of tomorrow which include creativity,</p>
-------------------	--	--

innovation, communication, image management, ethics etc. This will be supplemented by functional skills in various areas of organizational management which would enable the graduate from the Program to creatively steer enterprises through exponential growth trajectories.

The Program has also a set of highly effective Courses designed to address the societal challenges that affect such development. The aim of these Courses is to provide adequate skill sets to RNBGU MBA graduate to identify opportunities in society for creating and leading sustainable enterprises.

Accepting the philosophy of multidisciplinary nature of management and to keep abreast with current trends in management, the curriculum caters for freedom to earn some credits by attending Courses offered through recognized international MOOC platforms like edX. Other highlights of the curricula include Non-Credit Compulsory Courses and Workshops, Summer Internship, Specializations in one or more areas of management depending upon the electives taken.

The Summer Internship is an important Building Block of the Program. It provides an opportunity to put learning into practice and gives an opportunity to learn the nuances of managing large organizations through hand-on practice.

B. Law

The Courses of the Law Degree Programs integrate the concepts, legal provisions, case laws and comparative analysis to get a holistic picture of the Profession. In the Integrated Five Year Program offered by the RNBGU, students will gain an in depth knowledge of Civil, Criminal, Mercantile and International Law. The programme shall prepare the students with the skills, knowledge and strategic perspectives essential to the needs of the profession.

The Curriculum of RNBGU Law Courses aims to transcend legal education to shape the future thought leaders as crusaders of a fair and just society. The Curricula have been designed imbining and integrating the Curriculum of National and International Law schools. It also fulfills the requirements of the Bar Council of India. The aim has been to build a theory-practice integration, which will enable the much needed capacity building of the legal

profession. The School of Law aims to graduate students who will excel at bar and will eventually enable them find a place in the judiciary.

In designing the courses for law courses, the local needs of this part of the State are considered. The students have the choice for various additional subjects to compete for judicial and administrative service while fulfilling all the requirements of BCI. Internship with Bar and Bench is a continuous process for law courses. X semester of Five Years Law Course is wholly devoted for Internship and dissertation on procedural matters before the courts. This would help the students feel familiar in the court systems of their choice.

To achieve the avowed goals, the curriculum has been designed to impart critical thinking which will serve the model of Outcome Based Education. The graduate lawyers who are practice hungry and ready to achieve results from the day one of their career choices shall have the required competencies. There is a great emphasis on extensive and in-depth Moot Court Training. There are contemporary seminars, group discussions and conferences touching Technology interface, social interface and public policy discussions.

The emphasis on Intensive internships, National and International Moot Courts, participation in debates, essay competition, policy drafting and clerkship with judiciary has been given the maximum exposure and hand-on training to the students. The Curriculum has a combination of Socratic Method, Case law analysis, Moot Courts, Seminars, Simulation exercises and multi-media teaching modules to develop critical thinking.

C. Engineering

The curriculum design for Engineering Programmes is based on the philosophy that aims to empower the students with critical thinking led approach, scientific temperament and knowledge in science and engineering, besides also in the fields of management, to solve problems that challenge humanity.

RNBGU has aimed at the creation of curriculum and teaching practices where the traditional teacher-centric approach has been

		<p>changed to largely student-centric approach; combining the strength of face-to-face teaching with the power of technology enhanced learning, laying emphasis on blended learning, attempting to introduce concepts such as problem based learning and collaborative group learning. The curriculum is expected to combine the best practices in pedagogy with appropriate e-learning tools to take care of the individual differences amongst learners of various classes and intellectual calibers.</p> <p>8th semester of B.
