## Notice

Date	26.11.2015	No.	DOC201511260001
Subject	Plastic Ban Notice		

RNBGU, Bikaner, is in a move to make ecofriendly campus and to convert the campus into a Plastic Free Zone. The plastic waste has emerged as one of the biggest environmental concerns adversely impacting the soil, water, health, and well-being of citizens at large. The limited waste disposal systems have become a challenge to dispose of plastic waste materials, especially the single use plastic.

To reduce the usage of plastic, the UGC has issued special guidelines to all the higher education institutions to impose ban on single-use plastics in the campus.

Accordingly, it is hereby circulated for information of all concerned that the competent authority of RNBGU, Jaipur has decided to take following steps to put ban on single use plastic materials in the campus.

Hence all Stake holders; Students, Faculty members, Staff members are notified to following guidelines related for the same:

- To ban use of single- use plastics in canteens, campus premises, hostels etc.
- To strive to make the campus plastic-free by systematically banning use of plastics and replacing the same with suitable environment friendly substitutes.
- To carry out awareness drives and sensitization workshops on the harmful impacts of single use plastics by the "Green Volunteers" committee of each institute.
- To mandate to all students/ staff members to avoid bringing non-bio-degradable plastic items on the campus.
- To avoid the use of plastic water bottles, bags and encourage use of alternative solutions like cloth bags, paper bags etc.
- To keep signboards at various places to give wide publicity to ban on use of plastic polythene in the campus.

## **INTRODUCTION:**

Cleanliness drive at RNB Global University, Cleaning drives, also known as clean-up campaigns are organized initiatives aimed at improving the cleanliness and hygiene of a specific area. Initiated by a dedicated students of B.Sc. Agriculture (Hons.) IV Sem. the University's cleaning drive aimed to revolutionize campus cleanliness standards through focused efforts. Despite the modest size of the team, the objectives remained ambitious: to significantly improve the cleanliness and aesthetics of the campus environment.

A cleanliness drive transcends the simple act of tidying up; it embodies a collective commitment to foster a culture of cleanliness and hygiene. Whether it's sweeping streets, clearing litter, or promoting waste segregation, these initiatives serve as tangible manifestations of community pride and responsibility. They remind us that the upkeep of our surroundings is not solely the responsibility of a few but a shared duty that binds us together as citizens.

At its core, a cleanliness drive is a call to action-a rallying cry for individuals to roll up their sleeves and actively participate in the betterment of their communities. It is a testament to the power of grassroots efforts, demonstrating that even small acts of cleanliness can have a profound ripple effect, inspiring others to join the cause.

## **OBJECTIVE OF EVENT:**

1. To minimize the spread of germs, bacteria and viruses, there by promoting a healthier and hygienic environment for students, Faculty and staff.
2. To enhance the university's aesthetic appeal.
3. To encourage sustainable practices such as reduction, recycling and energy conservation.
4. To promote responsible stewardship of campus resources.
5. To preserve infrastructure.

## **DESCRIPTION OF EVENT:**

In order to achieve a clean university campus at RNB Global University, Students of B.Sc. Agriculture (Hons.) on the day of the cleaning drive, formed a team of 5 and sprang into action, dividing tasks among themselves and maximizing their

impact. With a focus on high-traffic zones and neglected corners, they meticulously cleaned gardens, pathways near canteen and other outdoor spaces.

#### **CONCLUSION:**

In conclusion, the University's cleaning drive, spearheaded by the dedicated students of B.Sc. Agriculture (Hons.), IV Sem., exemplified the trans-formative power of grassroots action. Through their passion, determination, and collaborative spirit, they demonstrated that even a small group can make a big difference in promoting cleanliness and fostering community pride.

Keeping in view the Event forum of RNB Global University, Bikaner organized a cleanliness drive in RNB Global University, to create the awareness among the young students regarding the cleanliness measures to be taken in the campus.

A cleanliness drive in our campus is underway, symbolizing our collective commitment to a healthier and more vibrant learning environment. Organized by enthusiastic students and supported by faculty, this initiative aims to instill a sense of responsibility and pride in keeping our campus clean.

The drive encompasses various activities, including plastic collection and awareness campaigns. Students are actively participating in picking up waste, ensuring that our campus remains free from waste material. Waste bags were strategically used with proper segregation, promoting eco-friendly practices and responsible waste management.

- The Event was started on time in which students from RNB Global university participated, at the starting the Mr. Sandeep Saxena (Faculty Incharge) given a brief overview about the event.
- Good enthusiasm was shown by the students through-out the event. They collected even many of the plastic material during the drive.
- All the Students who have participated presented in well manner.

## **INTRODUCTION:**

"World Soil Day" is an international observance that aims to raise awareness about the importance of soil health and its role in sustainable agriculture and food security. The Food and Agriculture Organization (FAO) of the United Nations designated December 5th as World Soil Day, and it has been celebrated annually since 2014. The day provides an opportunity for governments, organizations, and individuals worldwide to focus on the significance of soil and to advocate for sustainable soil management practices.

Soil is a vital part of the earth's ecosystem, playing a crucial role in food production, water filtration, climate regulation, and biodiversity conservation. The theme varies each year, focusing on soil degradation, erosion, pollution, and biodiversity loss. Sustainable agricultural practices, such as organic farming, crop rotation, and agro forestry, are essential to preserve soil health. Urbanization and industrialization also pose threats to soil quality, necessitating prioritization of soil protection and restoration. Soil also plays a crucial role in mitigating climate change, acting as a carbon sink and reducing greenhouse gas emissions.

### **Objectives of World Soil Day:**

#### **1. Raise Awareness:**

- Increase awareness among the general public, policymakers, and stakeholders about the crucial role soil plays in food security, climate change mitigation, and biodiversity conservation.

#### **2. Promote Sustainable Soil Management:**

- Encourage the adoption of sustainable soil management practices to ensure the long-term fertility and health of soils.

#### **3. Advocate for Soil Conservation:**

- Advocate for policies and practices that prevent soil degradation, erosion, and pollution, contributing to the preservation of this vital natural resource.

#### **4. Highlight the Importance of Soil for Sustainable Development:**

- Emphasize the link between soil health and broader sustainable development goals, such as ending hunger, promoting responsible consumption and production, and combating climate change.

### **Activities and Initiatives:**

#### **1. Educational Programs:**

- Schools, universities, and organizations conduct educational programs to teach students and the public about soil science, conservation, and sustainable farming practices.

## 2. Workshops and Seminars:

- Soil experts and scientists often organize workshops and seminars to discuss the latest research findings, innovations, and best practices in soil management.

## 3. Field Demonstrations:

- Demonstrations of sustainable soil management techniques may be organized in agricultural areas to showcase practical methods to farmers.

## Themes and Conclusion:

Each year, World Soil Day is associated with a specific theme to focus attention on particular aspects of soil health and management. Themes often reflect current global challenges and opportunities related to soil. For example, themes in the past have included "Caring for the Planet starts from the Ground," "Stop Soil Erosion, Save our Future," and "Keep Soil Alive, Protect Soil Biodiversity." World Soil Day serves as a platform to unite individuals and organizations in a common effort to protect and sustainably manage one of the Earth's most precious resources: soil.

## **Citrus plantation in orchard at RNB Global University**

### **Orchard Layout**

The layout of the orchard is a very important operation. Under this, the arrangement of fruit plants in the plot is carefully done to put the plants at a suitable distance for proper development and for accommodating the requisite number of plants per unit area in addition to improving the aesthetic look of the orchard.

Hence, the factors which are considered important for proper layout of the orchard are

- (i) System of planting and
- (ii) Planting distance of individual fruit species

which again would provide the following advantages:

- Allow equidistance for each tree for uniform growth.
- Allow easy orchard operations like cultivation, intercropping, irrigation, spraying of plant protection chemicals and growth regulators, harvesting *etc.*
- Proper utilization of orchard space avoiding wastage of land.
- Help in proper supervision and management of the orchard.
- Allow further extension of area from time to time so that subsequent planting would match with the existing orchard planting.

### **SYSTEM OF PLANTING**

The system of planting to be adopted is selected after considering the slope of land, purpose of utilizing the orchard space, convenience *etc.*

Generally, six systems of planting are recommended for fruit trees. Among six system of planting, we adopt square system of planting.

#### **Square system**

This system is considered to be the simplest of all the system and is adopted widely. In this system, the plot is divided into squares and trees are planted at the four corners of

the square, in straight rows running at right angles. While laying out the plot a base line is first drawn parallel to the road, fence or adjacent orchard, at a distance equal to half the spacing to be given between the trees. Pegs are fixed on this line at the desired distances. At both ends of the base line right angles are drawn by following the simple carpenter's 3, 4, 5 meters system. After the formation of three lines, it is easy to fix all the other pegs to mark the tree locations in between the lines at the required spacing by using ropes connecting the pegs of the lines in opposite directions.

Under this system, intercultural operations, spraying, harvesting *etc.*, can be done conveniently and easily. Planting of quick growing fruit trees like papaya, banana, guava during the early life of the orchard is possible. Raising of inter-crops like vegetables, ginger, turmeric, cumin, coriander and such other spices can be done conveniently cultivation and irrigation can be done in two directions.

### **Spacing of Fruit Trees**

Provision of optimum spacing to fruit trees is one of the most important aspects of successful fruit culture. If the spacing is inadequate, the fruit trees will grow poorly, produce small quantity of fruits of inferior quality, and suffer from various diseases and insect pests. The cultural practices of the orchards are also greatly hindered. Weeds and grasses grow in abundance and rob off the vitality of the trees, resulting in their early decline and premature death. On the other hand, if the spacing is too wide, there will be wastage of valuable orchard land without having any direct benefit on the ultimate yield of the orchard. The optimum spacing is therefore, desired so that the fruit trees may grow and bear crops properly. The optimum spacing is one in which the tree on attaining its full size will not touch the branches of the neighbouring ones and the root-system of one tree must not encroach that of the adjoining tree.

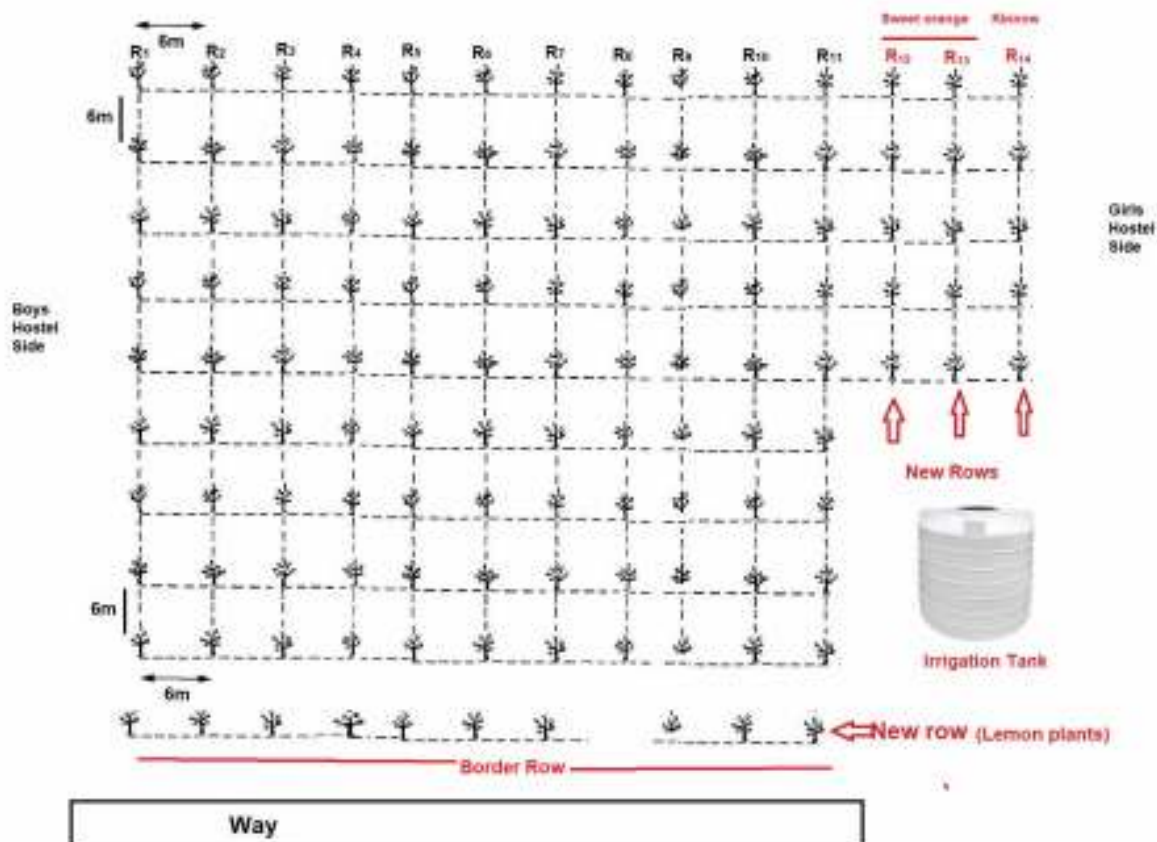

The spacing given to fruit trees is generally governed by the following factors:

- Climate and soil
- Varieties
- Growth habit
- Rootstocks
- Nature of irrigation
- Pruning

It is very difficult to suggest the exact spacing for fruit trees which will suit every locality or soil. However, the spacing given below for some of the important fruits may be considered as a safe guide for planting fruit orchards both in the hills and plains.

## Perennial Horticulture Plants

Orchard at RNB Global University (Layout Updated)

Rows No.	Types of fruit plant	Planted fruit plants
Row 1-3	Ber (Umran)	24 (8 in each row)

<b>Subject</b>	Webinar on : Ozone Day is "Montreal Protocol: fixing the ozone layer and reducing climate change"		

Dear Students,

We are pleased to inform you that RNBGU's- Training and Placement Cell shares the details for a webinar:

**Topic: Ozone Day is "Montreal Protocol: fixing the ozone layer and reducing climate change"**

**Date: 16th September 2023**

**Time: 3:30 pm - Onwards**

**About webinar:**

On the occasion of the World Ozone Day, Centre for Environment Education (CEE) is organizing a webinar in collaboration with Gujarat Pollution Control Board (GPCB) and Natural Resources Defense Council (NRDC) with Indian Society of Heating, Refrigerating and Air Conditioning Engineers (ISHRAE) and GEM green building council as the support partners.

This year's theme for Ozone Day is "Montreal Protocol: fixing the ozone layer and reducing climate change" and all the talks have been planned by keeping their relevance in line with this theme. The list of our distinguished guests and the schedule for the event is appended below along with the joining code.

Flyer : [World Ozon Day - 2023.png](#)

## INTRODUCTION

The ozone layer, a fragile shield of gas, protects the Earth from the harmful portion of the rays of the sun, thus helping preserve life on the planet. The phaseout of controlled uses of ozone depleting substances and the related reductions have not only helped protect the ozone layer for this and future generations, but have also contributed significantly to global efforts to address climate change; furthermore, it has protected human health and ecosystems by limiting the harmful ultraviolet radiation from reaching the Earth. On the occasion of the World Ozone Day, **RNBGU -Training and Placement Cell** shared the details of Centre for Environment Education (CEE) organizing a webinar in collaboration with Gujarat Pollution Control Board (GPCB) and Natural Resources Defense Council (NRDC) with Indian Society of Heating, Refrigerating and Air Conditioning Engineers (ISHRAE) and GEM green building council as the support partners on 16<sup>th</sup> Sep 2023.

### **Montreal Protocol: fixing the ozone layer and reducing climate change**

The Eminent speakers shared that this year Ozone Day is held under the theme Montreal Protocol: fixing the ozone layer and reducing climate change. Today, we celebrate the achievements of the Montreal Protocol on Substances that Deplete the Ozone Layer. This year's theme highlights and reiterates the positive impact of the Montreal Protocol on ozone layer recovery and reducing climate change. Especially emphasizing the Kigali Amendment, which through the phase-down of hydrofluorocarbons (HFCs) and improved efficiency in the cooling sector, will provide additional climate mitigation benefits.

The principal aim of the Montreal Protocol is to protect the ozone layer by taking measures to control total global production and consumption of substances that deplete it, with the ultimate objective of their elimination on the basis of developments in scientific knowledge and technological information. It is structured around several groups of ozone-depleting substances. The groups of chemicals are classified according to the chemical family and are listed in annexes to the Montreal Protocol text. The Protocol requires the control of nearly 100 chemicals, in several categories. For each group or annex of chemicals, the Treaty sets out a timetable for the phase-out of production and consumption of those substances, with the aim of eventually eliminating them completely.

### **Implementation of the Montreal Protocol**

The Eminent speakers discussed about Implementation of the Montreal Protocol progressed well in developed and developing countries. All phase-out schedules were adhered to in most cases, some even ahead of schedule. Attention focused initially on chemicals with higher ozone-depletion potentials including CFCs and halons. The phase-out schedule for HCFCs was more relaxed due to their lower ozone-depletion potentials and because they have also been used as transitional substitutes for CFCs.

The HCFC phase-out schedule was introduced in 1992 for developed and developing countries, the latter with a freeze in 2015, and final phase-out by 2030 in developed countries and 2040 in developing countries. In 2007, Parties to the Montreal Protocol decided to accelerate the HCFC phase-out schedule for both developed and developing countries.

## Decarbonisation

Decarbonisation is the process of reducing carbon dioxide (CO<sub>2</sub>) emissions resulting from human activity in the atmosphere.

"Decarbonisation" means switching from the use of fossil fuels such as coal, natural gas or oil to carbon-free and renewable energy sources as quickly as possible

Dr. Sukumar Devotta- ANNA University and Former Director, National Environmental Engineering Research Institute (NEERI)- delivering his address on Decarbonisation

## Decarbonisation and HVAC

The researchers calculated air conditioning is responsible for the equivalent of 1,950 million tons of carbon dioxide released annually, or 3.94% of global greenhouse gas emissions. Of that figure, 531 million tons comes from energy expended to control the temperature and 599 million tons from removing humidity.

HVAC solutions for Decarbonisation include :

- Using low-GWP refrigerants and minimizing leakage through proper maintenance and replacement are very important aspects of **refrigerant management**.
- HVAC equipment with **higher efficiency** can help in energy cost savings and also carbon

Dr. Sukumar Devotta- ANNA University and Former Director, National Environmental Engineering Research Institute (NEERI)- delivering his address on Decarbonisation

## Decarbonisation and HVAC

**Radiant cooling systems** delivers sensible cooling using radiation heat transfer to directly cool the occupants

### Low Mass Radiant Cooling systems

Chilled water is circulated in specialized panels or beams and typically operate during the occupied hours.

#### Advantages of Low Mass Radiant Cooling Systems

- Touchless & hygienic cooling and ventilation
- Floor & ceiling radiation is upper part of the heat gain
- Better and simpler controls
- Less maintenance time and work
- Provides higher thermal comfort
- Reduces noise levels
- Reduces material capacity and better efficiency

### High Mass Radiant Cooling systems

Building structure (slab, walls, ceilings) is cooled during unoccupied time and provides off-peak cooling and hence reduction in energy costs.

#### Disadvantages of High Mass Radiant Cooling Systems

- Removes heat from the floor by having ground or concrete pipes embedded between the slab and outside walls
- Water circulated in the pipes is cooled by a central chiller through a heat exchanger
- Reduces a load on the chiller
- Cools the floor

Dr. Sukumar Devotta- ANNA University and Former Director, National Environmental Engineering Research Institute (NEERI)- delivering his address on Decarbonisation and HVAC

## INTRODUCTION

Kaner is a popular summer flowering, perennial and colourful ornamental plants botanically known as *Nerium* species belonging to the family Apocyanaceae. *Neriums* are mostly found distributed in the dry tropical regions of India. The three commercially important species of *Nerium* are *Nerium indicum*, *Nerium oleander* and *Nerium oleander* var *variegata*. They are commonly known as Kaner or Oleander. The *Nerium* cultivars are named after their form and colours of the flowers. Some of the varieties of *Nerium* include Single Rose, Single White, Single Red, Double Rose, Double White, Double Red, Double Rose, Pink, White, Yellow etc. and Dwarf types like Petite Salmon, Petite Pink etc. Propagation and planting *Neriums* (Kaner) are propagated by semi hardwood stem cuttings of 30 cm length. The cut ends are buried inside the soil forming an arch. Raising Kaner (*Nerium spp.*) plants through semi hardwood stem cuttings is a common method for propagating these beautiful colourful and vibrant flowering shrubs.

### Materials and Tools:

- Selected healthy Kaner (*Nerium spp.*) plant (to serve as the source of semi hardwood stem cuttings)
- Pruning shears or sharp scissors
- Clean, sterile cutting tools
- Rooting hormone (IBA, powder or gel)
- Polythene bags
- Soil
- Watering can or spray bottle
- Bright, indirect sunlight

### OBJECTIVES OF EVENT

- Students can gain hands-on experience in the propagation of Kaner (*Nerium spp.*) through semi hardwood stem cuttings, which is a common method used in ornamental plants.
- Through this event, students can familiarize themselves with the botanical characteristics of *Nerium spp.* (Kaner), including its growth habits, leaves and flowers.
- To provide knowledge about selection of mother plant for semi hardwood stem cuttings *Nerium spp.*
- To study about the effect of root hormones on semi hardwood stem cuttings

Kaner.

- To explain about nursery raising and its importance.

#### DESCRIPTION OF EVENT

##### Steps:

**Selection of the mother plant:** Choose a healthy plant in the campus and taken semi hardwood stem cuttings. Select a plant with the characteristics you desire, whether it's a specific colour or growth habit.

**Taking Cuttings:** Taken semi hardwood stem cuttings of Kaner during the growing season, typically in spring or early summer. Each cutting should be 5-6 inches long and have at least two leaf nodes in each semi hardwood stem cuttings. Use clean, sharp scissors or pruning shears to make a clean cut just below a leaf node. Remove any leaves from the lower part of the cuttings.

**Applying Rooting Hormone:** Dip the cut end of each semi hardwood stem cutting into rooting hormone (IBA) Solution. This helps quick stimulate root development in semi hardwood stem cuttings. Indole-3-butyric acid (IBA) is a plant hormone in the auxin family and is an ingredient in many commercial ornamental plant rootings, Aside from accelerating root formation.

**Planting of semi hardwood stem Cuttings:** Fill small polythene bags with soil. Insert the treated semi hardwood stem cuttings into the polythene bags, burying them about an inch deep

**Watering:** Watering the cuttings thoroughly after planting to settle the soil around them.

Dr. Bankey Lal and Dr. Mahendra Kumar Yadav, Assistant Professor, School of Agriculture, RNB Global University told them about the importance of vegetative method of propagation (by mother plants) of Kaner (*Nerium spp.*).

#### CONCLUSION

In this event report, activity by students of B. Sc. (Hons) Agriculture III Sem. selected some Kaner (*Nerium species*) plants in the campus and take semi hardwood stem cuttings. After treating this semi hardwood stem cutting from Indole-3-butyric acid (IBA) liquid solution and shifted into the polythene bags, which are already shifted to the area near Shed Net House. Watering is also done for proper setting of semi hardwood stem cuttings in polythene bags.

## About the Event

RNB Global University, organized Tree Plantation Activity in collaboration Rotary Club Aadhya. The objective of the tree plantation activity was to contribute towards environmental conservation, promote greenery, and combat climate change by planting trees as a whole. The activity aimed to raise awareness about the importance of trees and their role in maintaining a healthy ecosystem. The tree plantation activity took place on 21<sup>st</sup> July 2023 at RNB Global University campus. The planted trees were native species known for their ability to withstand local weather conditions and support the native fauna.

The activity saw enthusiastic participation of students, including President and Members of Rotary Club Aadhya, & staff members of university. Their dedication and passion made the event a great success. Students gathered at the plantation site. The activity began with a brief orientation about the significance of tree planting and its impact on the environment. The importance of maintaining the trees and nurturing them to ensure their survival was emphasized.

The members of Rotary Club also stressed the significance of post-plantation care, including regular watering and protection. Students pledged to visit the site periodically to monitor the growth of the trees and provide necessary care.

served as an educational opportunity for the students to learn about different tree species, their ecological significance, and the importance of biodiversity.

#### **Impact of the Plantation Drive:**

The plantation drive at the School of Agriculture, RNB Global University, was a resounding success. The newly planted saplings will significantly contribute to the greening of the campus and positively impact the local ecosystem.

Additionally, the event successfully raised awareness among the university community about their role in environmental conservation and encouraged them to adopt more sustainable practices in their daily lives.

#### **Conclusion:**

The School of Agriculture's plantation drive at outside RNB Global University campus was a commendable initiative that showcased the institution's commitment to environmental stewardship. Through the planting of 100 saplings of Mehndi, Kaner, Ashok, and Karanj, the campus has taken a significant step towards becoming a greener and more sustainable space. The event's success was made possible by the collective efforts of students, faculty, and staff, highlighting the importance of teamwork and collaboration in achieving environmental goals.

By organizing such meaningful events, RNB Global University sets an inspiring example for other educational institutions, urging them to actively participate in preserving our planet for future generations.

#### About the Event: -

**"World Environment Day" - In the universe are billions of galaxies, In our galaxy are billions of planets, But there is Only One Earth.**

Keeping in view the World Environment Day is celebrated at RNB Global University, Bikaner. World Environment Day (WED) is celebrated annually on 5 June and is the United Nations' principal vehicle for encouraging awareness and action for the protection of the environment. First held in 1973, it has been a platform for raising awareness on environmental issues such as marine pollution, overpopulation, global warming, sustainable development and wildlife crime. World Environment Day is a global platform for public outreach, with participation from over 143 countries annually. Each year, the program has provided a theme and forum for businesses, non government organizations, communities, governments and celebrities to advocate environmental causes.

In the event the Poster Making & Debate Competition were scheduled where some of the students from RNB Global University presented their views & Poster based on the given themes like- Ecosystem restoration, beat plastic, Time for Nature, Green Economy, etc.

- The Event was started on time in which students from RNB Global university participated at the starting the student of MBA-II Isika Bhura, & Unnati Mall shared a brief introduction about the World Environment & also shared its importance.
- It was a very impressive representation by the students where through the posters & speeches in the extempore students conveyed the message among the audience that how the citizens of India should emphasis in saving the environment by different ways like save earth, save tree, save water etc. Dr. M.R. Khatri & Dr. B. D. Sharma evaluated the poster & extempore.
- In the poster presentation:-  
1st - Aishya Mehata from BBA II  
& in the Speech-  
1st Vaidhali Bhunia from MBA II,  
2nd Rainees Pandey From BA LLB I & 3rd Unnati Mall from MBA II  
Dr. M.R. Khatri Also enlightened the students by sharing the importance of the World Environment Day among the students.
- Event was organized by Mr. Sandeep Saxena- Asstt. Prof. -FOCM & Unnati Mall & Isika Bhura Students of MBA-II.
- All the Students who have participated presented in well manner.

## INTRODUCTION

The jamun (*Syzygium cumini*, Skeels) is an important indigenous minor fruit of commercial value. It is also known as black plum, Indian black cherry, Ram jamun etc. in different parts of India. The tree is tall and handsome, evergreen, generally grown for shade and windbreak on roads and avenues.

The original home of jamun is India or the East Indies. It is also found in Thailand, Philippines, Madagascar and some other countries. The jamun has successfully been introduced into many other subtropical regions including Florida, California, Algeria, Israel, etc. In India, the maximum number of jamun trees are found scattered throughout the tropical and subtropical regions. It also occurs in the lower range of the Himalayas up to an elevation of 1,300 meters and in the Kumaon hills up to 1,600 meters. It is widely grown in the larger parts of India from the Indo-Gangetic plains in the North to Tamil Nadu in the South. The data about its total acreage in India are not available.

The jamun is a nutritious fruit with a variety of uses. It is a hardy fruit crop and can easily be grown in neglected and marshy areas. The fruit is good source of iron, sugars, minerals, protein and carbohydrate etc. Fully ripened fruits are eaten as fresh fruit. Jamun can be processed into beverages like jelly, jam, squash, wine, vinegar and pickles.

## OBJECTIVES OF EVENT

- To collect the sapling from root trainers and safely transfer to polyethene bags in the shed net house.
- To provide the basic knowledge about the fruit crop jamun
- To give the information about nutritive value of jamun crop and its processed products.
- To provide the basic knowledge about cultivation of jamun crop.

## DESCRIPTION OF EVENT

In order to establish an experimental orchard at RNB Global University, students from the 6<sup>th</sup> semester of B.Sc. Agriculture transferred 35 Jamun plants into polyethene bags. These plants were carefully transferred into a shed net house to ensure their proper growth and development. Dr Ravi Kumar, Assistant Professor, School of Agriculture, RNB Global University told the students about the importance and cultivation of jamun plant.

## CONCLUSION

Jamun is an important fruit crop in Bikaner region of Rajasthan. Transplanting of Jamun sapling is done in the monsoon season after their budding processes. After successful budding processes these Jamun saplings will be transferred to suggested field with proper spacing for orchard establishment.

## INTRODUCTION

RNB Global University has recently launched a cleanliness drive initiative to remove plastic waste from its campus with the help of its students. This report aims to provide an overview of the initiative, its objectives, and its impact on the university community and the environment.

### Objectives:

The primary objective of the initiative is to promote cleanliness and sustainability on the university campus by removing plastic waste. Plastic waste is a major environmental concern, and the university seeks to address this issue by creating awareness among its students and encouraging them to take an active part in the initiative. The university aims to create a cleaner and safer environment for its students, staff, and visitors while contributing to a greener and healthier planet.

The University provided gloves, masks, and garbage bags to the students and allocated specific areas of the campus for them to clean. The students were instructed to collect all plastic waste and dispose of it in designated bins.

The initiative had a significant impact on the university community and the environment. It helped to create awareness among the students about the harmful effects of plastic waste on the environment and the need to reduce its use. The students also learned about the importance of cleanliness and the role they can play in maintaining a clean and sustainable environment.

The initiative also had a tangible impact on the campus environment. The removal of plastic waste from the campus has made it cleaner and safer, reducing the risk of accidents and creating a more pleasant atmosphere for everyone. The initiative has also helped to reduce the amount of plastic waste that would have otherwise ended up in landfills or oceans, contributing to a greener and healthier planet.

The cleanliness drive initiative launched by RNB Global University is a commendable effort to promote sustainability and cleanliness on its campus. The initiative has demonstrated

the university's commitment to creating a cleaner and safer environment for its students and staff while contributing to a greener and healthier planet. The initiative is a step in the right direction and can serve as a model for other universities and institutions to follow.

## INTRODUCTION

Plantation of flora is significant because it is linked to our basic need for good food to eat and clean air to breathe. Aside from these necessities, they preserve biodiversity, conserve water, preserve soil, and control climate, among other things. Plants provide clean air for living beings to breathe and generate energy. Plants are an important component of every community and it takes a lot of effort to keep them that way. Planting may also help people become better versions of themselves since it gives them a sense of accomplishment while also helping to safeguard the environment. Trees have spiritual and religious significance in certain nations since they are regarded as equal to gods and are worshipped on special occasions. As a result, Plants play an important role in forming our environment. The importance of plantations for a healthy life free of suffocation and pollution cannot be overstated, particularly in urban areas. Besides food and nutritional security, the aesthetic value is also equally important for our daily lively hood as well as for environmental purity. The wealth of any nation is linked with the health of its people. Unless we can ensure the healthy development of our citizens, especially for the younger generation, by providing them for open breathing places through bio-aesthetic planning. Ornamental plants utilized in psychiatric hospitals, general hospitals and physical rehabilitation centres, homes for elderly, prisons and schools for better and healthy environment. Now a days ornamental plants are used for treatments.

## OBJECTIVES OF EVENT

1. To upgrade and promote, protection, preservation and monitoring of environment in the university campus.
2. To beautify the campus.
3. To maintain to conduct atmosphere inside the campus.
4. To overcome the issue of global warming and other environmental-related problems.

## DESCRIPTION OF EVENT

School of Agriculture RNB Global University organised a event for plantation of ornamental plants for beautification, green campus and overcome the effect of pollution. Event was held in university campus on 17.03.2023. Faculty incharge Dr. Ravi Kishan Soni, Lab Assistant Mr. Vikas Nai and students of school of agriculture participated in this event. Plantation was done at University circle and main gate. 150 plants of Periwinkle and Bougainvillea were planted. Each student planted 5-7 plants and also irrigate them. Students done promise for protect plants and also will continues this plantation activity. The idea behind the tree plantation activity was to

propagate the message that planting the trees helps to maintain clear eco-friendly environment reduces pollution and improves the green ambience.

### **Conclusion**

We recognise that one of the most serious issues in the current state is the devaluation of Plants. To make our campus greener and better, we must pay more attention to tree planting in the future. Individual contributions should be made first. We should also put a stop to tree cutting and remember that without trees, there will be no life. Everyone should be aware of the importance of planting and should motivate and encourage others to do the same.

### **Significance of Conference**

The objective of a conference is to gather like-minded individuals from across the country or across the globe, to learn, discuss thoughts, network, share ideas, create new ideas, and to ignite motivation. The benefits of attending a conference are different for everyone. By attending a conference, individuals are expanding their professional and personal development, and are provided with insightful information that couldn't be discussed internally from within the organization or online.

### **Insight on Program**

Conferences are a great way for employees to be inspired by fresh ideas, to start rethinking the status quo, and to hopefully leave ready to tackle business challenges in creative and innovative ways. Conferences also allow individuals to share their progress, hurdles they've come across, and techniques devised for solving them. After hearing from leading experts and visionaries on how they found success, attendees are inspired and encouraged to think outside the box, which leads to successful outcomes for the organization.

### **Introduction**

Ms. Sakshi Sharma, student of BBA LL.B VIII Sem, initiated the session by welcoming the eminent Guests, Session chairs, Faculty Members, paper presenters and Research Scholars and invited Prof. G.S. Karkara, President for welcome address.

Prof. G.S. Karkara, President, started by addressing the audience and by giving the man insight about RNB Global University and talked about the significance of conference and also talked about after effect of pandemic that how environment has changed.

This was followed by a Welcome Address given to all the Dignitaries by Dean – Faculty of Law and Arts, Prof. Dr. Anil Kaushik he spoke about the need for having strong scenes of working towards mitigating Global Warming and developing human Environment embracing need of laws to enhance the Life with Reference to Right enshrined in Article 21 of the Constitution of India.

Further, Mr. Shubham Singh invited Dr. Ashok Prem to brief the audience about the Conference.

This was followed by Technical Sessions which were conducted by Prof. Dr. Anil Kaushik and Dr. Ashok Prem along with Mr. Bharath Sharma BA LL.B VII Sem, Ms. Tisha Sharma BA LL.B VII Sem, Ms. Surya BA LL.B VII Sem, Ms. Monika Berar BA LL.B V Sem, Ms. Palak Jain of BBA LL.B V Sem.

### **Introduction of Chairpersons**

#### **1. Prof. Dr. Anil Kaushik**

Dr. Anil Kaushik is an eminent professor of law. He has obtained his Ph.D. from Rajasthan University in 1992 on the topic: "Rights of minorities to establish and administer educational institution in India – An Evaluative study in constitutional perspective & Judicial Trends. He has a wide experience of teaching of more than 39 years in various Colleges and Universities. He has also served as a Judicial officer for 3 years. He has published around 18 Research papers in prestigious international and national journals covering diverse areas of significance in law and pertinent social issues. He has also attended various Conferences and seminars. He has been an illustrious writer of various books including Rajasthan Land Laws from Central Laws Publications Allahabad and many other books for various competitive exams. He is also actively involved with the various selection committees.

#### **2. Dr. Ashok Prem**

Dr. Ashok prem is an experienced, enthusiastic and committed academician with proven skills over 13 years of experience of teaching of various laws in renowned institutes, colleges and universities. He obtained his bachelor degree (LL.B.) and Master of Laws (Constitutional law branch & Mercantile Law Branch) from one of the prestigious Govt. College, Bikaner. He has cleared UGC-NET and RPSC-SET in 2012. In addition, Dr. Prem has also worked as Corporate Lawyer for some of the Multinational Companies. He has presented his various research papers in national and international seminars on various legal topics.

Total 36 participants from all over India registered for conference and out of which 27 papers were presented the paper dealt various important aspects related to Global Warming and Human Environment, 23 Presenter were Associate professors and Assistant professor of esteemed Universities, and 5 Presenters were Ph.D Scholars in Various Universities and 8 presenters were Students of RNB Global University.

Vote of Thanks was presented by Ms. Shelu Sharma.

4<sup>th</sup> One Day National Conference  
On  
"Global Warming and Human Environment"

November 02, 2022

Invitation

The Faculty of Law and Arts of the RNB Global University, Bikaner (Rajasthan) proudly announces 4<sup>th</sup> One Day National Conference on "Global Warming and Human Environment" to be held on November 02, 2022.

RNB Global University, Bikaner is established vide Act No. 20 of 2015 in the State of Rajasthan. The University is spread on a vast well-developed campus and offers courses in various disciplines having all modern facilities. The Faculty of Law and Arts of RNB Global University started in 2016 and has Five Years Law Degree Courses of B.A. LL.B., B.B.A., LL.B., One Year of LL.M. Course and Ph.D. program. The teacher-student ratio at present is 1:10. The curriculum for the courses fulfills the requirements of BCI and the UGC and is in consonance with other competitions, like- RJS and Civil services etc.

We strive to provide a platform to the Law Students, on-roll in any Law Institute/ College/University/Faculty/Department situated within the State of Rajasthan & all over India for imbibing in them the pragmatic skills of law.

This National Conference is one such attempt of creating a simulated atmosphere for the future lawyers and judicial officers. The objective, in fact, is to allow the Law Scholars to delve into cutting edge research, presenting groundbreaking arguments and contributing to the development of jurisprudence in concerned areas of law. It is a chance for good contributions on the subject to be published in a book form.

The Faculty of Law and Arts invites you to the 4th National Conference to be organised on Hybrid mode. Research Papers / Articles are invited from Academician, Research Scholars and Professional for presentation in the conference on the Theme / Sub Theme.

Venue: Seminar Hall, Admin Block, RNB Global University, RNB Global city, Ganganagar Road, Bikaner, Rajasthan- 334601.

The sub-themes of the Conference are –

In first session – Global Warming

1. Climate Change and Sustainable Development.
2. Laws related to Polluter Pays Principal.
3. Laws related to Biodiversity and conservation.
4. Laws related to Pollution Water, Soli, and Air.

In second session – Human Environment

1. Environmental Laws and sustainability.
2. Right to access of good environment.
3. CSR to maintain good environment.
4. Laws related to CSR regarding Environment.
5. Educational, Social and Cultural aspects of environmental issues.

We would be glad to receive a positive response about your participation till 30<sup>th</sup> October, 2022.

Kindly communicate to:

Mr. Aman Sharma: email: aman.sharma@rnbglobal.edu.in

Ms. Shelu Sharma: email: shelu.sharma@rnbglobal.edu.in

Fee for registration is INR 200/- and is to be deposited through PhonePe, Google Pay, and Paytm on Account no. 37700457344 and screenshot of payment must be attached in mail while sending full Research Paper.

Details of Account are:

Bank Name- SBI

Account Name- RNB Global University, Bikaner

Account No. - 37700457344

IFSC Code- SBIN0031725

The last date to send the Abstract of the paper is 25<sup>th</sup> October and full Paper submission by e-mail is 30<sup>th</sup> October, 2022. Last Date of fee submission for registration is 30<sup>th</sup> October, 2022.

## INTRODUCTION

RNB Global University's School of Agriculture conducted essay and on the spot poster making competitions for all the university students on 16<sup>th</sup> and 17<sup>th</sup> October, 2022, as per Circular DOCID DOC202210040002 and DOCID DOC202210130003, dated the 4<sup>th</sup> and 13<sup>th</sup> October 2022 on the occasion of World Food Day. As a part of the academic activity of the Department, Program was organized for all university students of RNB Global University. For this purpose essay competition was conducted by online mode and poster completion was conducted as on the spot competition in room no. 316 at the academic block.

The main purpose of this event was to create awareness among the students regarding the importance and reason to celebrate world food day as well as to engross the hidden talent of students.

### Event Objectives:

- To make aware the students of world food day's importance and objective to celebrate.
- The purpose of the competition was to encourage the students to enhance their thinking and writing skills related to food security.
- For students to display their artistic skills on the occasion of world food day.
- To create awareness about food quality and security on the occasion of world food day.

### Event Description

School of Agriculture, RNB Global University organized an essay competition and on the spot poster-making competition on the occasion of world food day, 16<sup>th</sup> October. The theme of alleviation of global hunger and malnutrition by science agriculture for essay competition and safe food today for a healthy tomorrow for poster completion was decided. Students from various semesters participated in the competition unleashing their creative minds for the awareness activity. For the essay writing competition, six students participated in the competition and wrote on the theme. The programme was conducted through online mode. The programme was coordinated by the Dean, School of agriculture Dr. S.S. Shekhawat. The prizes decided for essay competition were 500 rupees for the first winner, 200/- for the second winner and 100/- for the third winner. Certificates were decided to be given to the winners of essay and poster competitions.

The winners of the essay completion were Ms. Anshika Aggarwal from BA LLB securing 1<sup>st</sup> position, the second position was shared by Ms. Khushboo Saraswat from BA and 3<sup>rd</sup> position secured by Mr. Vishnu Pratap Singh Panwar B.Sc. Agriculture.

For poster completion, on the spot activity was decided but no student participated.

**Registered students:** 6 for essay competition

1. Ms. Anshika Agarwal, BA LLB
2. Ms. Khusboo Saraswat, BA Sem. I
3. Mr. Vishnu Pratap Singh Panwar, B.Sc. Ag. Sem. I
4. Ms. Harshita Sharma, BBA LLB, VII Sem.
5. Ms. Nandini Vyas, BA LLB Sem. I

Date	15.07.2022	DOCID	DOC202207190002
Subject	Plantation Event		

Dear students,

We are pleased to inform you that School of Agriculture is organizing an event of plantation at University Garden in RNBGU campus on Wednesday 27.07.2022 from 10.00 AM to 11.30 AM.

### For Circulation to:

1. Registrar
2. Deans
3. Mail to all Faculty and Staff
4. Mail to all students

**A Report  
On  
Plantation**

**DOC202207210007**

**(Submitted by: Gaytri Soni, Asst. Professor, SOA)**

**Date: 20<sup>th</sup> July 2022**

**Time: 10:00 AM to 11:30 AM**

**Venue: University Garden-Admin Block, Academic Block**

**Organised By: School of Agriculture**

**Target Audience: All the faculty members and students**

**Signature of Faculty**

**Gaytri Soni**

**Signature of Dean**

**Dr. S. S. Shekhwat**

### **Objectives of the plantation**

1. To create awareness among young generation about importance of plants
2. To give our contribution towards combating climate change effect
3. To maintain conduct atmosphere inside campus
4. To create green belt and avenues for meeting aesthetic recreational needs to the people

### **Insight of the Plantation Event**

On 20<sup>th</sup> February, 2022, School of Agriculture, RNBGU had successfully completed the event of plantation under the National Service Scheme at university campus. The event was organized with aim to create awareness about combating climate change and global warming, which we have all seen in last few years.

All the students and teachers participated in this program with enthusiasm. The first plantation was done by our respected President Dr. Gurhax Singh Karkara, which was further preceded by Registrar mam Dr. Dipali Gupta, Dean of SOA Dr. Surendra Shekhawat, Dean of SOL Dr. Anil Kaushik and Respected Sir Dr. Meghraj Khatri. Further all faculty members and students started planting. The plants shisham and neem were planted. Dr. Surendra Shekhawat sir (Dean of SOA) also briefed about the importance of plants. He later added the uses of neem plants to the students. Ms. Gaytri Soni proposed vote of thanks.

To conclude, the time has been come for use to realize the importance of plants in our lives. The season of Monsoon (June- Aug.) is most suitable for plantation. It is high time for us to plant trees to save our environment. So, we should plant more and more trees in order to maintain a balance in nature. By our contribution the pace of the tree plantation can be increased.

## About the Event: -

**"World Environment Day" - In the universe are billions of galaxies, In our galaxy are billions of planets, But there is Only One Earth.**

Keeping in view the World Environment Day is celebrated. World Environment Day (WED) is celebrated annually on 5 June and is the United Nations' principal vehicle for encouraging awareness and action for the protection of the environment. First held in 1973, it has been a platform for raising awareness on environmental issues such as marine pollution, overpopulation, global warming, sustainable development and wildlife crime. World Environment Day is a global platform for public outreach, with participation from over 143 countries annually. Each year, the program has provided a theme and forum for businesses, non government organizations, communities, governments and celebrities to advocate environmental causes.

In the event the Poster Making & Debate Competition were scheduled where some of the students from RNB Global University presented their views & Poster based on the given themes like- Ecosystem restoration, Time for Nature, Green Economy etc.

- The Event was started on time in which students from RNB Global university participated at the starting the student of BBALLB-VI Harshita Sharma shared a brief introduction about the World Environment & also shared its importance.
- It was a very impressive representation by the students where through the posters & Speeches in the extempore students conveyed the message among the audience that how the citizens of India should emphasis in saving the environment by different ways like save earth, save tree, save water etc. Dr. Gajanand Modi evaluated the poster & extempore.
- In the poster presentations Shilpa Choudhary from BA LLB, Vanshita Sharma B.Sc. AG presented a very logical & impressive poster whereas Govind Singh given a very good views about save earth.
- Event was organized by Event forum with the team of faculties & Students of the forum.
- All the Students who have participated presented in well manner.

Subject	"The Save Soil" Campaign		

This is to inform that School of Agriculture, RNBGU is organizing an "The Save Soil" Campaign (The Save Soil movement is being initiated by Sadhguru) with the collaboration of Mr. Rahul Kataria (who is also an ex-student of our university) and his team on 04<sup>th</sup> April, 2022

**Timing: 2:00 PM-3:30 PM**

**Venue: Seminar Hall/Academic Foyer**

**Brief about Campaign -**

Save Soil is a global movement launched by Sadhguru, to address the soil crisis by bringing together people from around the world to stand up for Soil Health, and supporting leaders of all nations to institute national policies and actions toward increasing the organic content in cultivable Soil.

**For Circulation to:**

1. Registrar
2. Deans
3. Mail to all Faculty and Staff
4. Mail to all Students

**A Report  
On  
"The Save Soil" Campaign**

**DOC20221**

(Submitted by: Gaytri Soni, Asst. Professor, SOA)

**Date:** 4<sup>th</sup> April 2022

**Time:** 02:00 PM to 03:30 PM

**Venue:** Seminar Hall

**Organised By:** School of Agriculture

**Target Audience:** All the faculty members and students

**Signature of Faculty**

**Gaytri Soni**

**Signature of Dean**

**Dr. S. S. Shekhawat**

### Objectives of the campaign

1. To conserve the soil from different erosion
2. To spread awareness about over fertilization induce the reduction of microorganism in soil
3. With continuous cultivation soil quality is getting degrade day by day
4. To create awareness about degradation of soil health and possible remedies

### Insight of the Plantation Event

The campaign was organized in RNB Global University on 4<sup>th</sup> April, 2022 at Seminar Hall with the collaboration of Mr. Rahul Kataria (who is also an ex-student of our university) and his team. Save Soil is a global movement launched by Sadhguru, to address the soil crisis by bringing together people from around the world to stand up for Soil Health, and supporting leaders of all nations to institute national policies and actions toward increasing the organic content in cultivable Soil.

The event started with some enlightened songs, sung by Mr. Rahul Kataria and his team. After that he briefed about the topic "The Save Soil". Soil is continuously degrading due to different reasons like over fertilization, continuous cultivation, lesser use of organic products and reduction in microbial population.

After that, he shown us a video shared by respected Sadhguru Globally. This was explaining about the soil condition worldwide. If we will do same activity for years, there will be no food for human being in future. The remedy to overcome it is using more organic matter on soil to improve soil physical, chemical and biological condition. It will promote biodiversity indirectly also.

We learned so many important things from this session about soil, biodiversity, effect of pollution on it. Session was ended with again some beautiful and motivational songs. Vote of thanks was given by Miss. Pooja Gill (Student of B. Sc. Agriculture III Sem.)

### About the Event:- "World Water Day"-

Groundwater is invisible, but its impact is visible everywhere.  
Out of sight, under our feet, groundwater is a hidden treasure that enriches our lives.  
Almost all of the liquid freshwater in the world is groundwater.  
As climate change gets worse, groundwater will become more and more critical.  
We need to work together to sustainably manage this precious resource.  
Groundwater may be out of sight, but it must not be out of mind.

World Water Day is an annual United Nations observance day held on 22 March that highlights the importance of fresh water. The day is used to advocate for the sustainable management of freshwater resources.

In 2020, the theme was "Water and Climate Change" Previous themes for the years 2016 to 2019 were "Water and Jobs", "Why waste water? "Nature for Water", and "Leaving no one behind". World Water Day is celebrated around the world with a variety of events. These can be theatrical, musical or lobbying in nature. The day can also include campaigns to raise money for water projects. The first World Water Day, designated by the United Nations, was in 1993.

World Water Day is an International observance day. The intention is to inspire people around the world to learn more about water-related issues and to take action to make a difference. In 2020, due to the COVID-19 pandemic, there was an additional focus on hand washing and hygiene.

Relevant issues include water scarcity, water pollution, inadequate water supply, lack of sanitation, and the impacts of climate change (which is the theme of World Water Day 2020. The day brings to light the inequality of access to WASH services and the need to assure the human right to water and sanitation.

The World Water Day website announces events, activities and volunteer opportunities. In 2020, featured stories are about adapting to the water effects climate change and using water more efficiently

- The Event was started on time in which students of RNB Global university participated, at the starting the student of MBA-II Bhawna Daga shared some information about World Water day celebration & the importance of Water conservation.
- During the event the students share their views about water consumption & conservation It was a very effective & interactive session.
- Event was organized by Event forum with the team of faculties & Students of the forum.
- All the Students who have participated presented in well manner.
- Based on the Judgement of the Judging team Mr. Deshraj Choudhary & Ms. Swati Agarwal the winner of the competition were Radheshyam Rathí -MBA-II & Nikhil Kumar BBA-II

<b>Date</b>	10-03-2022	<b>DOCID</b>	DOC202203100020
<b>Subject</b>	Circular: compost preparation event		

Dear Students,

We are excited to announce an upcoming event aimed at promoting sustainability and environmental consciousness within our community. We cordially invite you to participate in our Compost Preparation Event scheduled for 12<sup>th</sup> March, 2022 at 9:00 AM to 10:00 AM in RNBGU Field-Compost unit.

Composting is an effective way to reduce waste and create nutrient-rich soil that fosters healthy plant growth. By composting, we not only divert organic waste from landfills but also contribute to a more sustainable ecosystem. During this event hands-on demonstrations and practical tips on composting techniques suitable for both beginners and experienced composters will be given by the concerned faculty members. Additionally, participants will have the opportunity to engage in discussions, ask questions, and exchange ideas with fellow enthusiasts.

Whether you have a backyard garden, a balcony, or simply an interest in environmental conservation, this event is for you! Join us as we learn, share, and take a step towards a greener future together.

Regards

**A Report  
On  
Compost preparation Event**

(Submitted by: Mr. Balvinder Singh, Assistant Professor, SOA)

**Date:** 12<sup>th</sup> March 2022

**Time – 9:00 – 10:00 AM**

**Venue:** RNBGU Field (Compost Unit)

**Organised By:** Mr. Balvinder Singh

**Target Audience:** All the students of B.Sc. (Hons) Ag. Sem III and VI

**Signature of Faculty**

  
Balvinder Singh

### **Objectives of Compost Preparation Event**

1. Creating a change in perception and raising a global awareness for the long term.
2. Implementing the process in house works, farms and among the tourist sector around the globe, by efficiency and improvement of recycling services.
3. Making the young generation a change agent of the environmental change.

### **In general, the event brings -**

- Contribution to the overall sustainability of the area
- Improvement of overall waste management in the area
- Increased recycling levels and reduction of organic waste in landfills
- Obtaining a quality compost to be used as an organic amendment that contributes to improve soil fertility
- To stop the desertification process and to capture carbon in soil.
- These factors add up to the climate change mitigation (reduction of biogas generated in landfills), to the use of resources (closing the cycle of organic fraction) or reducing the overall impact of landfills (including the reduced capacity of needs).

### **Insight of the Compost preparation Event**

On 14<sup>th</sup> February, 2022, School of Agriculture, RNBGU had successfully started the event of compost preparation at university campus. The event was organized with aim to develop an integrated and environmentally sound waste management system, which the target groups and the final beneficiaries of the project will benefit of its results and specific objectives.

All the students of B.Sc. (Hons) Ag. Sem III and VI participated in this event. Material added to make compost is -

- Fruits and vegetables
- Coffee grounds and filters
- Tea bags
- Nut shells
- Shredded newspaper
- Cardboard
- Paper
- Yard trimmings
- Grass clippings
- Houseplants
- Hay and straw
- Leaves
- Sawdust
- Wood chips
- Hair and fur
- Fireplace ashes

### Activities performed as under

- 14.02.2022 – Maintenance of compost unit.
- 15.02.2022 – cleaning of the compost pit.
- 16-22.02.2022 – Collection of waste material from the field, garden, kitchen etc.
- 24.02.2022 – 1<sup>st</sup> Filling of compost pit
- 25.02.2022 – Sprinkling of water for moisture development
- 28.02.2022 – 2<sup>nd</sup> filling of compost pit and Sprinkling of water for moisture development
- 01.03.2022 – 3<sup>rd</sup> filling of compost pit
- 02.03.2022 – Sprinkling of water for moisture development
- 07.03.2022 – Preparation of Waste Decomposer Solution
- 07.03.2022 – 4<sup>th</sup> filling of compost pit and Sprinkling of water for moisture development
- 09.03.2022 – Sprinkling of water for moisture development
- 11.03.2022 – Sprinkling of water for moisture development and moisturize through Waste Decomposer Solution.

**NOTE – Pit filling is under process.....**

Dr. Surendra Singh Shekhawat (Dean of SOA) was also the part of this event and encouraged the students. He later added the benefits of compost for soil and crops to the students.

All were happy and experienced proud during the preparation of compost, because it feels great to do positive things.

Such little steps taken together by the faculty and students will surely help in fostering strong mental and social health amongst today's children and elders, so that they connect with their peers, their community and their environment.

**Signature of Dean**

**Dr. Surendra Singh Sekhawat**

### Objectives of Plantation Event

1. To conserve the biodiversity, which is reducing day by day.
2. More vegetation in an area reduces the soil erosion
3. To create awareness about the importance of the plant in our life and climate change
4. To increase green space in the area.
5. To create awareness about the herbal uses of the plants

### Insight of the Plantation Event

On 21<sup>st</sup> February, 2022, School of Agriculture, RNBGU had successfully completed the event of plantation under the National Service Scheme at university campus. The event was organized with aim to create awareness about combating climate change and global warming, which are the world wide problem

All the students and teachers participated in this program. The first plantation was done by registrar mam (Dr. Dipali Gupta). The plants: aloe vera, meetha neem, lemon grass, tulsi, ashwagandha, satavari, mentha and ber, were planted. One by one students and teachers started planting saplings. Dr. Surendra Shekhawat sir (Dean of SOA) was also the part of this event and encouraged the students. He later added the uses of the herbal plants to the students.

All were happy and experienced proud after the plantation was finished, because it feels great to do positive things. Ms. Gaytri Soni proposed vote of thanks.

Such little steps taken together by the faculty and students will surely help in fostering strong mental and social health amongst today's children and elders, so that they connect with their peers, their community and their environment.

Report  
On  
Tree Plantation 2021**

**DOC202107080001**

**Date: 8<sup>th</sup> July, 2021**

**Time: 09:30 AM onwards**

"The best time to plant a tree was 20 years ago. The second-best time is now." The symbolism - and the substantive significance - of planting a tree has universal power in every culture and every society on Earth, and it is a way for individual men, women and youngsters to participate in creating solutions for the environmental crisis.

RNB Global University in association with Rotary Club Aradhya, Bikaner organizing a Tree Plantation Activity on 08th July 2021 to offer their contribution to make the earth a beautiful place.

RNB Global University organizes Tree Plantation activity every year & this time the university is planning to plant 10,000 trees during monsoon season in and around campus.

Subject	World Environment Day		

Students are hereby informed that University is going to organize Event on World Environment Day celebration on 05<sup>th</sup> June, 2021. Interested student can participate in different type of activities.

Date of the Event	: 05.06.2021
Time Slot	: 09:00AM to 02:00 PM
Activities	: Extempore Competition Poster Making Essay Writing Quiz Competition Tongue Twisters Game Number Game Word Chain Game
Topics for Event	: Ecosystem Restoration Time for Nature Beat Pollution Connecting People to Nature Green Economy Environment Conservation Give Earth a Chance Climate Change-Need for Global Partnership Global Warming
Participants	: All RNB Students
Venue	: Virtual Meeting at Online Portal
Registration Link	: <a href="https://forms.gle/siR6bPVCtdVEBXRk9">https://forms.gle/siR6bPVCtdVEBXRk9</a>
Event Convener	: DrGajananModi
Event Co-Convener	: MrKailashPareek

**Note:**

- Interested candidates submit their entry on or before 04<sup>th</sup> June 2021, 12:00PM by google form.
- From each event top two students will be selected for certificate
- Certificate will be distributed after reopens the University.
- Student can apply for more than one event.

A REPORT ON  
WORLD ENVIRONMENT DAY:

DOC202106020002

(Submitted by: Dr. Dipali Malodiya-Associate Professor-SOCM)

Date : 05<sup>th</sup> June 2021  
Time : 09:00 AM to 01:00PM  
Venue : Online mode  
Participants : All University Faculty and students

  
Faculty Co-ordinator

## Introduction:

### **About the Event**

World Environment Day, which is celebrated annually on June 5 across the globe, is one of the biggest events organized by the United Nations (UN) to generate awareness about the significance of nature. The day is celebrated to tell people that nature should be respected for its value

<b>Activities</b>	:	Extempore Competition
		Poster Making
<b>Topics for Event</b>	:	Essay Writing
		Quiz Competition
		Tongue Twisters Game
		Number Game
		Word Chain Game
		Ecosystem Restoration
		Time for Nature
		Beat Pollution
		Connecting People to Nature
		Green Economy
		Environment Conservation
		Give Earth a Chance
		Climate Change. Need for Global Partnership
		Global Warming

**Total Enrolled Students:** 65

### **Session Details**

The Event had started on 5<sup>th</sup> June, 2021 at 09:00 AM at Online Platform of Zoom. Sixty five students of RNB Global University enrolled in the Event.

In the beginning of program, welcome speech given by Prof G S Karkara President, RNB Global University and Dr Shashi Singhal Dean, SOCM. After welcome speech Extempore Competition was start, total fifteen student enrolled in this event and winner of this event was Vanshita Sharma (B Sc Agri- V semester).

As per program schedule second event was Number Game, in which total sixteen students was enrolled and winner was Anjali Sharma. In this order next event was Poster Making and total Twenty-Three students were enrolled and winner was Amisha Sangwa (B Sc Agri- V semester).

Fourth event was Tongue Twisters Game, in which total twelve students was enrolled and winner was Pratibha Shaurya (B Sc Agri- VII semester). In this order next event was Word chain Game and total fourteen students was enrolled and winner was Nancy Tak (BBA- III semester).

Sixth event was Quiz Competition, in which total Thirty Three students was enrolled and winner was Kanika Gupta (B Sc Biotech- V semester). In this order next event was Essay Writing and total thirty students were enrolled and winner was Harishta Sarma (BBA LLB- V semester).

After Result Announcements, at the end of this program Dr Dipali Gupta-Registrar RNB Golbal University given vote of the thanks.

## Glimpse of the Webinar

**DOC202104240001**

**Report**

**On**

**Webinar**

**Entitled**

## **Biodegradation of Plastic Waste**

**(Submitted by: Dr. Dipali Gupta)**

**Date:** 24<sup>th</sup> April 2021

**Time:** 2:00 PM to 4:00 PM

**Venue:** Virtual Platform: Google Meet

**Resource Persons:** Dr.M.G.H.Zaidi, Professor, Department of Chemistry, College of Basic Sciences & Humanities, G.B.Pant University of Agriculture & Technology Pantnagar ,Uttarakhand-263145

**Organized by:** Dr. Dipali Gupta (Associate Professor cum Registrar, RNB Global University)

*Dipali*

### **Objectives of Seminar:**

To develop an insight of the Chemical nature of Plastic products and plastic waste.

To create awareness among students about the importance of microbial and biotechnological approaches for management of plastic waste in a sustainable way.

To create research interest among students to solve real world problems through microbiology and biotechnology.

### **Inaugural Session:**

The event started on time that is; at 2 PM. The Guest and audience were welcomed by Ms. Neha Chaudhary, B Sc VI Sem Biotechnology. She briefed the audience about the vision of RNB Global University and about the objective of the Webinar. Then Ms Ayushi Rajvanshi from BSc IV Sem Biotech introduced our Resource person very nicely.

### **Lecture by Resource Person:**

Prof. MGH Zaidi delivered the lecture entitled **"Green Material Science: Perspectives of Processing, Fabrication & Waste Management"**.

### **Lecture Summary:**

Materials have been the need of society since inception of civilizations. Since cave, human has availed expertise in isolation of materials from natural resources and their fabrications into articles for desired applications. Societies has been divided into a series of ages ranging from stone to metals, alloys, ceramics, plastics and advanced materials. Origin of alloys, synthetic materials, plastics has although intensified the social skill of fabrication of materials for domestic and industrial applications, has imposed the accelerated hazards over ecosystem. This has bound the scientists and technocrats to develop the greener processes that may deliver the materials with stringent control over environmental hazards. In coherence, pollutions through disposal of waste materials by society and industries have imposed the need of their strategic waste management. The present webinar demonstrates the historical development of material science & its impact on environment. Emphasis will be made on greener methods in fabrication & characterization of materials for potential applications in structural engineering, defense, aerospace, dying, fouming, particle sizing, nanobiotechnology, antimicrobial coatings,

sustained delivery, bio-sensing, energy storage, impact on agricultural crops, viral persistence, strategic waste management into value added products and their biodegradation. Collaborative approach and joint ventures among the experts of physical, biological, agricultural sciences, engineering and biotechnology will be emphasized to harness the potential of material science in development of healthy and prosperous society of nation.

#### **Valedictory Session:**

Students asked their queries to the speaker, which he answered well and satisfied the students. After the interactive session, Ms. Kanika Gupta from BSc Biotech IV Sem gave a valedictory speech, in which she expressed extreme satisfaction and joy of attending this Seminar. The ended with the vote of thanks from Dr. Dipali Gupta.

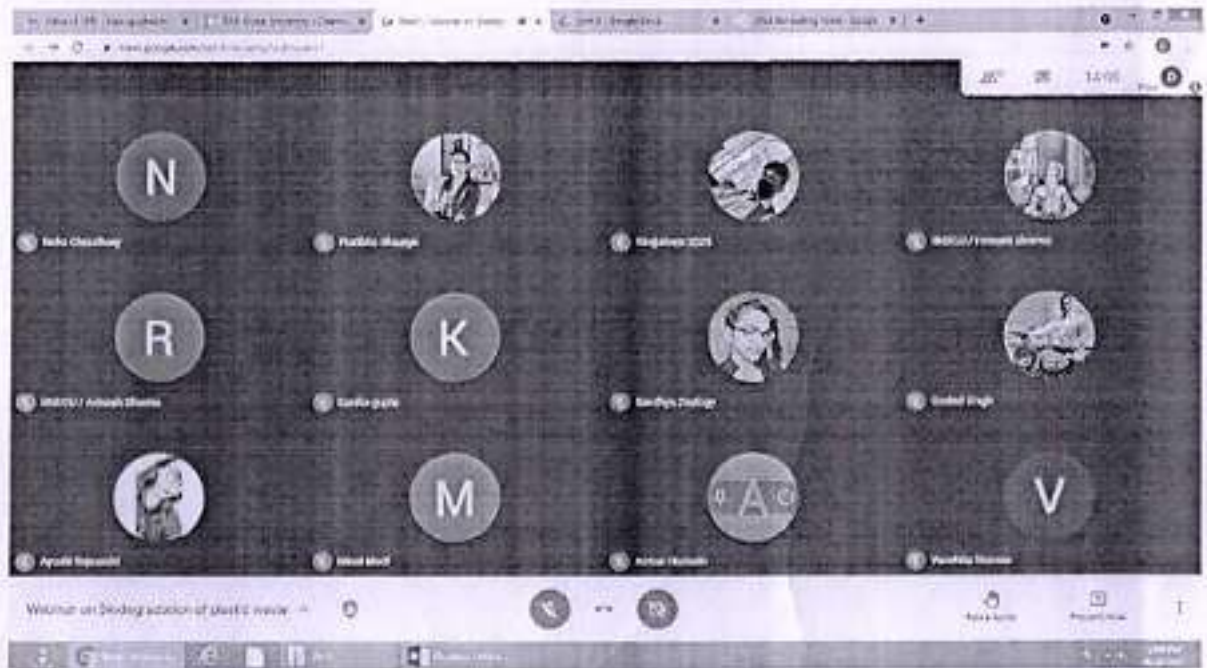

#### **Resource Person:**

**Dr.M.G.H.Zaidi** hails from Lucknow, U.P., India. He is the physical chemist, educator, inventor and academic administrator. He has conferred his B.Sc. (1985), M.Sc. (1987) and Ph.D. (1992) in Chemistry from Lucknow University, U.P., India. His title of doctorate thesis was *Synthesis of Some Newer High Temperature Resistant Polymers*. He has been involved in academics since 1987 at various Indian Universities in different capacities. He has been serving Govind Ballabh Pant University of Agriculture & Technology, Uttarakhand, India since 1998, with great distinctions & dedications. Dr.Zaidi has availed funding from Defense Research Development Organization (DRDO), Air Force Research Development Board, Department of Biotechnology, Department of Science & Technology, Council of Scientific & Industrial Research, Uttarakhand Council of Science & Technology, University Grants Commission and private organizations for execution and dissemination of R & D in polymer science & technology. His areas of interest involve synthesis and processing of polymer materials in traditional media and supercritical fluids for structural, biomedical, biotechnological, electrical, electro analytical applications and in electrochemical energy storage. His area of interest is onward extended to disposal of polymeric, industrial and agricultural waste through microbial degradation, their utilization into value added products, and their impact on ecosystem. His academic contributions are cited in reputed scientific journals across the world. He is reviewer & member of editorial board of various international journals and has associations with professional scientific societies. He has been actively involved in member of organizing committee, session chair, technical program committees, plenary speaker at national

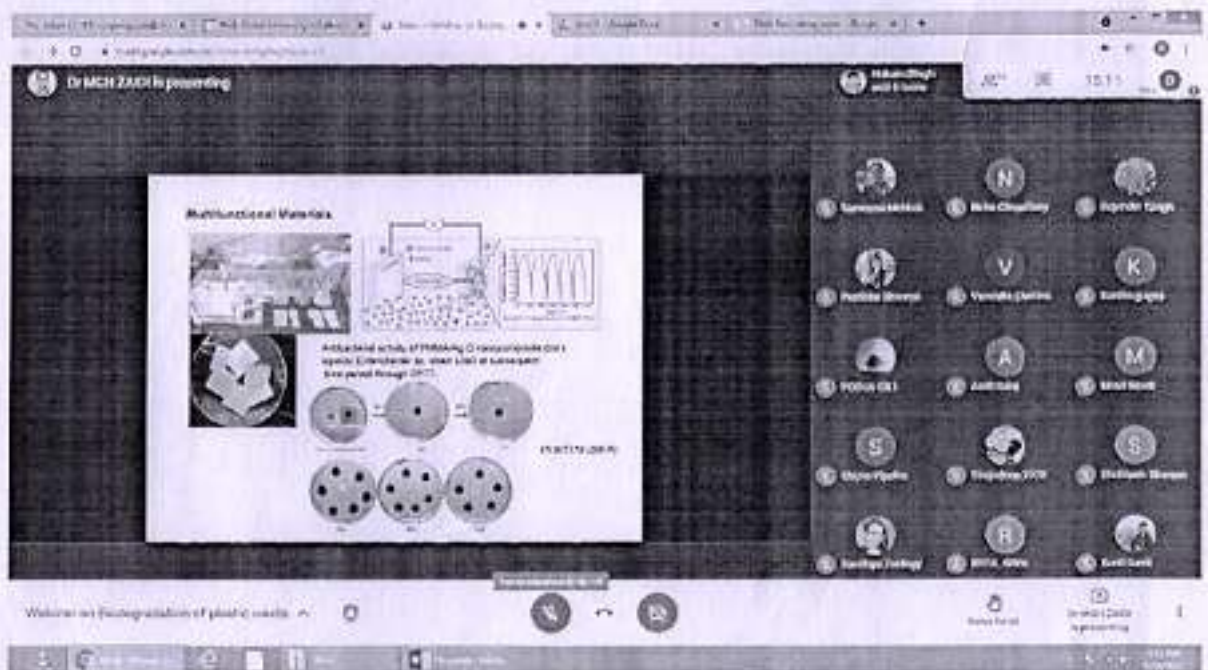

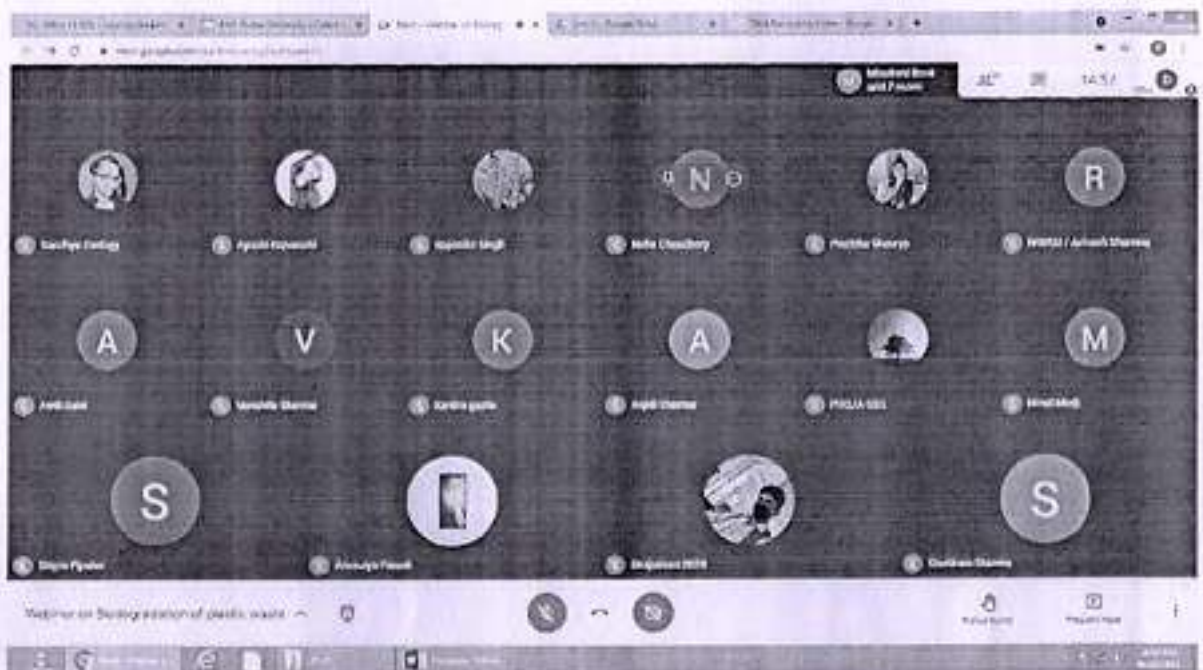

## Photo Gallery

and Int'l conferences, symposia and training programs. His contributions to R & D are collaborative with reputed national Universities & laboratories. He holds six patents, advised around thirty students for post graduate research, authored more than hundred research publications, reviews, monographs and book chapters in refereed international journals and scientific magazines.

**Report on**  
**WORLD WATER DAY-2021**

**DOC202120030001**

**Date: 19<sup>th</sup> March, 2021**

**Time: 10:00AM to 03:50PM**

In-Charge: Dr. Pradeep Kumar Pilonia  
(Organizers-SOBAS AND SOA RNB Global University)

**About the World Water Day**

RNB Global University School of Basic & Applied Sciences, Agriculture and Engineering organized World Water Day on 19<sup>th</sup> March 2021 at RNBGU Campus, Bikaner. The Objective of World Water Day was to make students aware about the importance of Water in everyday life and to ask student to use water in sustainable way.

More than 85 students (Essay-18, Speech-11, Documentary-8, Poster-24, Model-4 and Quiz-24 students) participated in different events. From each event two best were selected for the certificates. The programme was started at 10:00 AM at seminar hall and welcome speech was given by Partibha Shaurya of B.Sc. Agri VI Sem. After welcome of the students and faculties students were dispersed to their allotted venues for the activities. In today's programme many valuable posters, speech, models, documentary and essay were shown, written and made by the students. The overall aim of the event was to make clarification among students to save water and utilize water in a sustainable manner.

The winners for different events were as follows-

Speech: Mr. Rubal (B.Tech 6<sup>th</sup> Sem) and Miss Divya Solanki (B.Sc. Agri. 4<sup>th</sup> Sem.) Poster: Miss Rani Puja (MBA 2<sup>nd</sup> Sem.) and Miss Ayushi (B.Sc. BT 4<sup>th</sup> Sem.) Documentary: Pratibha (B.Sc. Agri. 6<sup>th</sup> Sem.) and Miss. Minal with Miss Ayushi (B.Sc. BT 4<sup>th</sup> Sem.)

Essay: Miss Kanika (B.Sc. BT 4<sup>th</sup> Sem.) and Miss Rachna (BBA 6<sup>th</sup> Sem.)

Model Making: Miss Pratibha (B.Sc. Agri. 6<sup>th</sup> Sem.) and Miss Minal with Miss Ayushi (B.Sc. BT 4<sup>th</sup> Sem.)

Quiz: Miss Rubali with Miss Lovepreet (B.Tech CSE 6<sup>th</sup> Sem.) and Miss Rachana with Miss Isha (BBA 6<sup>th</sup> Sem.)

**Different types of activities were organised which are as follows:**

1. Speech Competition
2. Essay Writing

3. Quiz Competition
4. Poster Making
5. Model Making
6. Documentary or Video

**For World Water Day different topics selected were as follows:**

- A. Water in Everyday Life
- B. Water in Agriculture and Desertification
- C. Law for Water Conservation
- D. Water and Environment
- E. Different Techniques
- F. Advancement in Science
- G. Water Reservoir as a backbone of Nation

**These events were organised at different spots or venues which are as follows:**

1. Speech Competition: Seminar hall, Admin Block
2. Essay Writing: Room No. 107, Academic Block
3. Quiz Competition: Room No. 001, Academic Block
4. Poster Making: Room No. 003, Academic Block
5. Model Making: Students can bring prepared models from their home. The presentation of models will be at Room No. 114, Academic Block
6. Documentary or Video: Seminar hall, Admin Block

**Objectives**

The main aim of World Water Day was to make students aware about the importance of Water in everyday life and to ask student to use water in sustainable way.

**Signature of Dean academic**

### Role and Importance

University organized World Water Day to make students aware about the importance of Water in everyday life and to ask student to use water in sustainable way. The World Water Day celebrates water and raises awareness of the global water crisis, and a core focus of the observance is to support the achievement of Sustainable Development Goal (SDG) 6: water and sanitation for all by 2030. The theme of World Water Day 2021 is valuing water. The value of water is about much more than its price – water has enormous and complex value for our households, food, culture, health, education, economics and the integrity of our natural environment. If we overlook any of these values, we risk mismanaging this finite, irreplaceable resource. SDG 6 is to ensure water and sanitation for all. Without a comprehensive understanding of water's true, multidimensional value, we will be unable to safeguard this critical resource for the benefit of everyone.

We at RNB Global University believe that such activities are very important for the holistic development of students.

### Schedule of the day

<u>Timing</u>	<u>Agenda</u>	<u>Faculty In charge</u>	<u>Student Coordinators</u>
10:00 AM – 10:05AM	Anchoring & Welcome by Student Coordinators	Dr. Pradeep Pilania	B.Sc. Bt IV Sem
10:05 AM– 10:15 AM	Welcome speech	Dr. Pradeep Pilania	B.Sc. Agri VI Sem
<u>Timing</u>	<u>Agenda</u>	<u>Faculty In charge</u>	<u>Judges</u>
10:15 AM– 12:15 PM	Speech Competition (Seminar Hall)	Dr. Gajanand Modi	Dr. Gajanand Modi and Mr. Avinash Sharma
10:15 AM– 12:15 PM	Essay Writing (Students will write essay at university in front of Faculty In charge) Room No. 107	Dr. Karan Verma	Dr. Karan Verma and Miss Zaiba Khan
10:15 AM– 12:15 PM	Poster Making (Students will prepare poster at university in front of Faculty In charge) Room No. 003	Dr. Pradeep Pilania	Dr. Pradeep Pilania and Dr. Pallav Goswami
12:15PM– 01:00PM	<b>Break</b>		
01:00 PM– 02:00 PM	Model Presentation (Room No. 114)	Dr. Gajanand Modi	Dr. Vikas Sharma, Dr. Gajanand Modi and Mr. Avinash Sharma
01:00 PM– 02:00 PM	Quiz Competition (Room No. 001)	Mr. Hemant Sharma	Dr. Pallav Goswami and Mr. Hemant Sharma

			Hemant Sharma
02:00 PM– 03:00 PM	Documentary and Video (3 to 5 min. video) Seminar Hall	Mr. Akhand	Dr. Gajanand Modi, Dr. Karan Verma and Dr. Vikas Sharma
03:15 PM– 03:30 PM	Result Announcement (Seminar Hall)	Mr. Kailash Pareek and Mr. Hemant Sharma	
3:30PM – 3:40 PM	Concluding Remarks (Seminar Hall)	Dr. Noble Kurian	
3:30PM– 3:50 PM	Vote of Thanks (Seminar Hall)	Dr. Karan Verma	
	Attendance (Seminar Hall)	Mr. Akhand	
	Certificates	Mr. Kailash Pareek	
	Social Media Update	Dr. Noble Kurian

## Circular

Date	26 <sup>th</sup> August 2019	No.	DOC201908260002
Subject	Tree Plantation Activity		

All the students and faculty members of **School of Law** are hereby informed that there will be a **Tree Plantation Activity** in University Campus today from 2:00 PM onwards in association with **Rotary Club Aadhya, Bikaner**. Faculty Incharge and Student Coordinators, mentioned below, will have to ensure presence of all on time in front of Admin Block.

**Faculty Incharge:**

Ms. Swati Agrawal

Mr. Ashok Karnani

**Student Coordinators:**

Ms. Shivani Vyas

Ms. Sakshi Bisnoi

Mr. Aarif

Mr. Aakash Deep

(Submitted by: Mr. Ashok Prem)

Date : 29.08.2019  
Time : 10:AM - 03:00 PM  
Venue : Shed Net  
Participants : RNB Global University

  
Faculty Co-ordinator

  
Dean

## A Report on Tree Plantation Drive at RNBGU

### **Introduction**

The RNB Global University has successfully organized a Tree Plantation Campaign on Aug 29, 2019 in association with Rotary Club Aadhya, Bikaner. All the students and teachers participated in this program. Also, some local municipality department officers have participated in our program.

### **Objective:**

Trees play an important role in reducing the air pollution and to maintain the good quality air level in an environment. Trees are also useful to reduce the erosion of soil which may lead to high flood situation. So, every individual shall try to plant as many trees as possible. Because day by day pollution level in an environment is becoming worse. Hence to overcome this situation tree plantation is the only solution we have.

### **Outcome of Activity:**

1. Students understood importance of tree plantation and types of trees which are beneficial to maintain clean environment.
2. Students realized impact of air pollution on society.

### **Outline of Activity:**

The objective of this activity to plant as many trees in available area which are beneficial to environment.

No. of trees planted: 300

Students also made some posters and banners on the importance of tree plantations. We pasted banners and posters in the area around our school. So that people read these and know the importance of tree plantation. After our goal of planting 300 trees is achieved, we come to our school. The Dean of our University gave a passionate speech on the topic of Tree Plantation and its use for all. Finally, the program ended with the singing of the national anthem.

## Introduction

A plantation drive was organized at RNB Global University, Bikaner, by Rotary Club Aadhya in collaboration with the university itself. This event was part of an ongoing initiative to promote environmental conservation and sustainability within educational institutions. The drive aimed to enhance the green cover on the university campus, raise environmental awareness among students and staff, and involve the local community in efforts to combat climate change.

## Objectives of the Plantation Drive

1. **Environmental Sustainability:** To increase the number of trees on the university campus, contributing to the reduction of carbon dioxide and improving air quality.
2. **Education and Awareness:** To educate students and staff about the importance of tree planting and environmental conservation, creating a culture of sustainability on campus.
3. **Community Engagement:** To involve students, faculty, and community members in environmental conservation efforts, fostering a sense of responsibility toward nature.
4. **Campus Beautification:** To enhance the aesthetics of the university campus by creating more green spaces, contributing to a more pleasant and conducive learning environment.

## Activities Conducted During the Plantation Drive

1. **Tree Planting:** A variety of saplings, including native species and fruit-bearing trees, were planted across the RNB Global University campus. The selection of these trees was based on their adaptability to the local climate and their ability to support the ecosystem. Popular species included neem, banyan, peepal, and gulmohar.
2. **Student and Faculty Participation:** The drive saw active participation from students, faculty, and staff members, as well as volunteers from Rotary Club Aadhya. Participants were divided into groups, each responsible for planting and nurturing a set of saplings. This hands-on experience aimed to deepen their connection with the environment.
3. **Educational Workshops:** To complement the plantation activities, environmental experts conducted workshops on topics such as the importance of trees, the role of afforestation in climate change mitigation, and practical tips on tree care. These sessions were designed to raise awareness about the broader environmental impact of tree planting.
4. **Adopt-a-Tree Program:** An "Adopt-a-Tree" program was launched to ensure the long-term success of the plantation drive. Students, faculty, and staff members were encouraged to adopt a sapling and take responsibility for its care, including watering, weeding, and monitoring its growth. This initiative fostered a sense of ownership and commitment to the environment.
5. **Plant Care Kits Distribution:** Participants were provided with plant care kits that included basic tools, fertilizers, and instructions on tree maintenance. These kits were designed to empower participants to actively take part in nurturing the saplings they planted.

## Impact of the Plantation Drive

1. **Increased Green Cover:** The plantation drive significantly contributed to increasing the green cover on the RNB Global University campus. The newly planted trees will help reduce the carbon footprint of the university, improve air quality, and create a more sustainable environment.
2. **Enhanced Environmental Awareness:** The drive successfully raised awareness among students and staff about the importance of environmental conservation. By participating in the tree planting activities and workshops, participants gained a deeper understanding of their role in protecting the environment.
3. **Campus Beautification:** The addition of trees and green spaces enhanced the aesthetic appeal of the university campus, creating a more pleasant and inviting atmosphere for learning and relaxation.
4. **Long-term Commitment to Sustainability:** The "Adopt-a-Tree" program ensured that the plantation drive would have a lasting impact. By taking responsibility for the care of individual saplings, participants were encouraged to remain engaged in environmental conservation efforts over the long term.
5. **Strengthened Community Collaboration:** The collaboration between Rotary Club Aadhya and RNB Global University highlighted the importance of partnerships in driving meaningful environmental initiatives. The success of the plantation drive demonstrated the power of collective action in promoting sustainability.

## Challenges Faced

1. **Climatic Conditions:** Bikaner's harsh climatic conditions, characterized by extreme temperatures and low rainfall, posed challenges for the survival of the saplings. Ensuring proper watering and care during the initial growth phase was crucial to overcoming this challenge.
2. **Logistics and Organization:** Coordinating a large-scale plantation drive on a university campus required careful planning and resource management. Ensuring that all participants had the necessary tools, saplings, and guidance was essential for the smooth execution of the event.
3. **Ensuring Long-term Care:** While the "Adopt-a-Tree" program helped ensure the long-term care of the saplings, maintaining consistent involvement from participants over time remained a challenge. Ongoing follow-up and support were necessary to ensure the trees' survival and growth.

## Conclusion

The Plantation Drive at RNB Global University, Bikaner, organized by Rotary Club Aadhya in collaboration with the university, was a successful and impactful initiative. By increasing the green cover on campus, raising environmental awareness, and involving students and staff in hands-on conservation efforts, the drive made a positive contribution to both the environment and the university community.
