23.03.2023	DOC202303230006	Cleanliness drive & Appeal to Students to Cooperate

Dear All,

University today conducted a cleanliness drive in the campus for removing Plastic Waste from its premise.

In a time, duration of one hour, around 10 waste bags full of plastic waste were collected from our campus. (Image of the same attached in circular).

University appreciates the efforts of students & faculty members.

At the same time, it is a time to introspect also. This exercise clearly exhibit that it takes a fraction of second to throw empty plastic bottles, empty chips packets, foil papers in campus but it poses a challenge for cleaning staff to pick and dispose that waste.

Students are once again advised -

1. All waste material in any form should be put into the waste bins placed at various locations in campus.
2. Use of aluminum foil paper is harmful for health; its use should be discouraged.

On one hand, where all the members of university were engaged in cleanliness drive one very disheartening incident was noticed.

Today Mr. Ashok Karnani, when he was on a round in academic block, noticed that some students were eating their lunch inside the classrooms. The image of the same incident is shared with this circular.

University has communicated time & again that no eatables should be consumed inside the classrooms. Students are not allowed to eat their lunch/ snacks inside the class.

Permanent signage of "NO FOOD NO MOBILE" is also installed in every class rooms.

Many times, the house cleaning staff has reported us that students are eating food inside the classrooms.

It is once again communicated through this circular, that if any student is found eating their meals or snacks in classrooms, University will be compelled to take action against such students.

It is expected from all students to contribute & cooperate in maintaining cleanliness and to exhibit a good conduct at the time when University is preparing for NAAC Peer Team.

#### Why Eating Food is not allowed in Classrooms-

1. Classroom & particularly the tables are where we keep our books, this place should be kept clean. Eating food on the Study table is a sign of disrespect towards Goddess Saraswati. Do we eat food on our study tables at home??, certainly not.

2. Our university has a central cooling system installed in academic & admin blocks. For this false ceiling & ducting has been done. Eating food inside classrooms attracts rodents, particularly rats. These rats bite the AC pipes & wires and if anyone dies in the ducting, it creates a very foul smell in whole premise. Currently the maintenance team of DAIKIN from Jaipur is working in our campus and they have also detected the same reason for malfunctioning of some AC ducts & foul smell.

3. The oil from food stains the wooden polish of tables and spoils the books of other students.

## **Covid-19's second wave: an insidious Enemy**

Dear Faculty Members & Students

In March 2021, just when we thought we had got better of the virus – dropped our masks, shunned our social distancing, opened up our offices without taking any safety factor against COVID-19 at wedding venues, hotels, gyms, cinema halls & vacation tours – it struck again rudely – reminding us that it had not gone anywhere. By 1<sup>st</sup> April active cases in the country touched 6,10,100 from 1,65,000, just a month ago. Now India saw 2,00,000 approx new cases in last 24hrs – the highest figure since the onset of the pandemic. Covid-19's spread has always been exponential – starting as a trickle and turning into a torrent. April-6 India's – R-number (Reproduction number) was 1.3 having risen from 1.18 in just two weeks. Remember it will increase further in coming days. We are going from bad to worse. Covid is still very active and back again as a second wave-enemy.

### **Mutant Strains of Covid-19 & India's "Double Mutant Variant"**

GISAID – an open sharing database, listed 43 viruses that have both the E-484Q and L-452R mutations in India. No increase in mortality has been linked to it.

### **What does this Mutation do?**

The E-484Q mutation in the strain is similar to one in the South Africa and Brazilian Strains. Also known as the "Escape mutation" – it does help the virus slip past antibodies previously created. This mutation has been dominant and increased significantly in virus since November 2020 – indicating it might be favouring the evolution it to enter human cells more easily.

In one sentence, - "It is complicated." To combat second wave – the central government has devised a new strategy – Test, Trace, Treat, Public compliance and vaccinate. Remember the relevant authorities are monitoring the strain.

You all, please properly follow the health ministry guidelines, avoid moving out unless very urgent, use proper social distancing & ensure to wear a mask. RT-PCR tests and rapid tests are needed as and when required as per the advice by the doctors & health experts. Be aware & vigilant because if the Covid-19 can be traced earlier, it will help in early treatment, preventing any bad effecting on lungs. New strains cause concerns – about more exponential attack on our lungs. Patients should always check their oxygen level, temperature and pulses – during covid attack and immediately – starts the treatment – as advised by our doctors – because the second wave may be more deadlier than first covid wave.

*Be healthy – be fit – do regular exercises, yoga & ensure regular deep breathing.*

Thanks

*Ram Bajaj*

### About the Webinar- "Cyber Hygiene for HEIs"-

**The webinar was organized for the students to make them aware about some common terminologies used in Cyber Hygiene in Higher Education.**

### Objective:

The webinar aims to educate Higher Education Institutions regarding the essential practices for maintaining cyber hygiene and ensuring online safety. Fostering awareness and understanding of cyber threats and preventive measures is crucial in today's digital age.

1. **Protection of Sensitive Data**: Universities handle vast amounts of sensitive information, including student records, financial data, and research findings. Proper cyber hygiene practices help safeguard this data from unauthorized access or theft.
2. **Prevention of Cyber Attacks**: Higher education institutions are prime targets for cyber attacks due to the wealth of valuable information they possess. Implementing cyber hygiene measures such as regular software updates, strong password policies, and employee training can help prevent these attacks.
3. **Maintaining Reputation**: A data breach can severely damage a university's reputation and erode trust among students, Faculty, and stakeholders. By prioritizing cyber hygiene, institutions demonstrate their commitment to protecting sensitive information and maintaining a secure environment for all stakeholders.
4. **Compliance Requirements**: Many higher education institutions are subject to various regulations and compliance standards, such as the Family Educational Rights and Privacy Act (FERPA) and the Health Insurance Portability and Accountability Act (HIPAA).
5. **Supporting Remote Learning**: With the increasing prevalence of remote learning, universities must ensure that their digital infrastructure is secure.
6. **Fostering Innovation**: Higher education institutions are hubs of innovation and research. Maintaining robust cyber hygiene practices protects intellectual property and encourages collaboration and knowledge sharing among students, Faculty, and researchers.
7. **Cost Savings**: Investing in cyber hygiene measures can ultimately save universities money by reducing the risk of costly data breaches, legal fees, and damage to infrastructure.

Overall, integrating cyber hygiene practices into higher education institutions is essential for protecting sensitive data, preventing cyber attacks, maintaining reputation, complying with regulations, supporting remote learning, fostering innovation, and saving costs.

**About the Event: - "Ragging does not break the ice, it breaks lives, career & Families"**

Ragging is a disturbing reality in the higher education system of our country. Despite the fact that over the years ragging has claimed hundreds of innocent lives and has ruined careers of thousands of bright students, the practice is still perceived by many as a way of 'familiarization' and an 'initiation into the real world' for young college-going students. Other organisations/bodies working in this field have also attempted to define ragging, the variety of definitions being reflective of differences in perspective.

This campaign is spearheaded by the University Grants Commission (UGC). The commission recently wrote a letter to all the vice-chancellors of all the universities regarding its anti-ragging regulation.

In an endeavour to curb the persistent issue of ragging within the higher education landscape, the RNB GLOBAL University has taken a resolute stance by introducing a comprehensive campaign against ragging. This campaign is spearheaded by the University Grants Commission (UGC).

To amplify the message against ragging, the university a two days event organized by the organizer students Ms. Tisha Sharma & Mr. Yuvraj Tak, under the guidance of Mr. Sandeep Saxena, to celebrate the Anti Ragging Day(s) a part of Anti Ragging Campaign which started on 16<sup>th</sup> Aug 2023 the event was started & ended on 17<sup>th</sup> Aug 2023,

- The Event was started on time in which students of the University participated, at the starting the student of BBA LLB-IX Ms. Tisha Sharma shared a detailed Presentation about the Anti ragging Campaign, which is being organized all over the India. During the presentation she told about the effect, impact & consequences of ragging. The helpline numbers of the university, & state level too.
- In the next part of the Event students from different programmes actively participated in the slot which promoted a ragging free campus also by showing the different scene of the campus life. Event was Ended with a wonderful speech by Ms. Ranee Pandey with the focus of the Ragging free campus, friendly supportive environment to all the new students of the university.

In order to address such concerns a one-day event was organized by Internal Complaints Committee, RNB Global University on 14<sup>th</sup> April 2023. The objective of the session was to sensitize the participants on gender issues, to help them be aware of gender biases, to help them resolve interpersonal conflicts arising from gender issues and to enable them to act assertively and respond to challenges in workplace. The session was held with the intention that departments will also conduct such gender sensitization workshops to create awareness about gender issues and Sexual Harassment at Workplace Act, 2013.

## Introduction

The Faculty Development Programme was organized by the SOL, RNBGU on the topic "Emerging trends of qualitative improvement in Higher Education in the context of New Education Policy, 2020". This Faculty Development Programme was one such attempt of creating a simulated atmosphere for the teachers and other faculties. The objective, in fact, was to allow the Faculty members to delve into cutting edge research, presenting groundbreaking arguments and contributing to the development of teachers in concerned discipline. It is a chance for good contributions on the subject to be published in a book form. Teacher plays varied role in society such as a mentor, a well wisher - overall the important key or a safeguard of an institution/society. Teachers are one of the pillars of the society and it would be very difficult to imagine a society without the presence of a teacher.

In this Faculty Development Programme, there were two working sessions and both were inclusive of National Education Policy, 2020.

The Programme was honored by Dr. Anil Kaushik, Dean, SOL, RNB Global University.

### Working Session -1

There were four eminent speakers in the session.

Command specialization with the study of colonialism and nationalism in South Asia, partition of India, Gandhi and Indian nationalism, Muslim politics and partition of Punjab and Sikh Studies. Authored and edited seven books in the areas of my specialization and these books have global circulation. The world renowned academic website-OCLC WORLDCAT IDENTITIES- has provided me an identification regarding the circulation of my books with the title, "Most widely held works by "Amarjit Singh". Attended a large number of national and international seminars and conferences, delivered more than 35 key-note and valedictory addresses at the different academic platforms. 20 Ph.D. Research Scholars and 65 M.Phil. ### **Working Session 2**

In this session, there were three eminent speakers and they have enlightened the audience with their knowledge.

Dr. Shashi Singhal, Dean, School of Commerce & Management, RNB Global University, Bikaner. She has focused on all the provisions of NEP, 2020. She has focused on why there is the need for a new education policy was felt in the country for a long time. Three National Education Policies have been introduced in India till now. These Three Policies are National Education Policy 1968, National Education Policy 1986, and National Education Policy 2020. The National Education Policy 1986 was revised in the year 1992. The emphasis of previous policies on education was mainly on issues of access to education. She has mentioned that the New Education Policy has been brought in keeping with the shortcomings of the previous education policy and the current and future needs, which can lead to large-scale transformative reforms in both the school and higher education sectors. She has also discussed that in June 2017, a committee was formed under the chairmanship of former ISRO chief Dr. K. Kasturi Rangan to formulate a new education policy. The draft of the National Education Policy was presented by this committee in May 2019.

Dr. S.S. Shekhawat, Dean, School of Agriculture, RNB Global University, Bikaner. He has also shared his view on NEP, 2020. He said that to achieve full human potential, education is a fundamental requirement for the development of a just and equitable society and to promote national development. The whole world is undergoing rapid changes in the knowledge landscape. In this context, the National Education Policy, 2020 was approved by the Government of India on July 29, 2020, and the Ministry of Human Resource Development was also renamed as Ministry of Education. This new education policy will replace the 34-year-old National Education Policy 1986.

Dr. Deepali Maludiya, Associate professor, RNB Global University, Bikaner. She has discussed the basic provisions of NEP, 2020. The New National Education Policy 2020 aims at the universalization of education from pre-school to secondary level with a 100% Gross Enrollment Ratio (GER) in schooling by 2030. The New Education Policy 2020 proposes some changes, including the opening of Indian higher education in foreign universities, the introduction of a four-year multidisciplinary undergraduate

program with several exit options. The objective of the New Education Policy 2020 is to make India a global knowledge superpower. The NEP 2020 policy also proposes that all universities and colleges aim to be multi-disciplinary by 2040. This policy will boost employment in the country and fundamentally change our educational system

At the end of all the sessions of this Faculty Development Programme, a vote of thanks was offered by Mr. Ashok Karnani.
