<b>Subject</b>	Installation of Solar Power Generating System (Phase I)		

Dear Students & Alumni

We are happy to inform that your University has installed Solar Power Generating System. The electricity generated from this system will be utilized for our Universities' power requirements.

This solar power system will generate "**Green Energy**", which is very much needed in present times. University has always been concerned towards protecting and preserving the environment.

The dependency on fossil fuel based energy can only be reduced by using renewable sources of energy; solar energy is one of such sources.

For Circulation to-

- All Students
- All Alumni
- IQAC Cell
- Registrar Office
- All Faculty Members
