International Yoga Day

21st June 2023

Time: 11:00 AM Onwards

Every year on June 21st, International Yoga Day 2023 is observed to promote the tremendous benefits of doing yoga. The chosen date is the summer solstice, which is the longest day of the year in the Northern Hemisphere. This day is used to increase awareness about the holistic approach to well-being that yoga provides. It emphasizes the significance of establishing balance in our fast-paced, modern life and promotes physical, mental, and spiritual harmony. Mindfulness, stress reduction, and overall health and vitality are all promoted by yoga.

This year marks the ninth anniversary of the International Day of Yoga, was celebrated at RNB Global University with full interest in the Yoga Room (Student Zone). All faculty members and another staff participated in the programme. One of our faculty members Dr. Afroz Ahmed, started yoga exercises and guided the other faculty members and staff members. It started with prayer followed by some warm up exercises and stretching. These were followed by some breathing exercises like, Kapabhati, Anulome-Vilome etc. Regular yoga practice has been shown to improve heart health, reduce blood pressure, enhance flexibility, and increase muscular strength. It can also improve respiratory function, reduce inflammation, and improve overall mental wellbeing. The whole session was full of positive vibes and happiness. Everyone felt quite relaxed and energized at the end of session by meditation.

INTRODUCTION

The jamun (*Syzygium cuminii*, Skeels) is an important indigenous minor fruit of commercial value. It is also known as black plum, Indian black cherry, Ram jamun etc. in different parts of India. The tree is tall and handsome, evergreen, generally grown for shade and windbreak on roads and avenues.

The original home of jamun is India or the East Indies. It is also found in Thailand, Philippines, Madagascar and some other countries. The jamun has successfully been introduced into many other subtropical regions including Florida, California, Algeria, Israel, etc. In India, the maximum number of jamun trees are found scattered throughout the tropical and subtropical regions. It also occurs in the lower range of the Himalayas up to an elevation of 1,300 meters and in the Kumaon hills up to 1,600 meters. It is widely grown in the larger parts of India from the Indo-Gangetic plains in the North to Tamil Nadu in the South. The data about its total acreage in India are not available.

The Jamun is a nutritious fruit with a variety of uses. It is a hardy fruit crop and can easily be grown in neglected and marshy areas. The fruit is good source of iron, sugars, minerals, protein and carbohydrate etc. Fully ripened fruits are eaten as fresh fruit. Jamun can be processed into beverages like jelly, jam, squash, wine, vinegar and pickles.

OBJECTIVES OF EVENT

- To collect the sapling from root trainers and safely transfer to polyethene bags in the shed net house.
- To provide the basic knowledge about the fruit crop Jamun
- To give the information about nutritive value of Jamun crop and its processed products.
- To provide the basic knowledge about cultivation of Jamun crop.

DESCRIPTION OF EVENT

In order to establish an experimental orchard at RNB Global University, students from the 6th semester of B.Sc. Agriculture transferred 35 Jamun plants into polyethene bags. These plants were carefully transferred into a shed net house to ensure their proper growth and development. Dr Ravi Kumar, Assistant Professor, School of Agriculture, RNB Global University told the students about the importance and cultivation of Jamun plant.

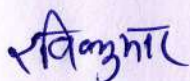

CONCLUSION

3. Brief description of the Event:

In the lecture on Maharana Pratap: As inspiration of Indian National Movement. Dr. Sangeeta Vijay, Head of Department of Political Science, Banasthali Vidyapith addressed the students highlighting how for the freedom of his motherland, Maharana Pratap renounced the glory of the royal palace and accepted to live in the valleys of Aravalli and inaccessible forests.

He never bowed his head on the conditions of the independence of the nation. It was the struggle of such a Rana in which he lived with tribals and forest dwellers Bhils, not only fought wars on every front with the Mughals but also defeated them repeatedly. In the days of freedom struggle, Lala Lajpat Rai had once said that if the youth are to be prepared for the independence of India, then they have to take inspiration from the history maker like Veer Shiromani Maharana Pratap. Maharana Pratap was an excellent example of intense nationalism.

She highlighted that the great thing about Maharana Pratap's freedom struggle was his moral and character strength. He gave more importance to the moral values of freedom among his people and troops. His struggle was not with the Mughals but with the thinking of imperialism in which Akbar wanted to subjugate the entire nation. Therefore, she concluded her lecture emphasizing that Maharana Pratap, with his valor and courage, created strong nationalism throughout the country. His fight for love of motherland is a unique example of ideals in Indian history even today.

About the Session:

The University strongly encourages gender parity and is constantly working towards providing a conducive environment for efficient and effective communications between the employees and students. Men and women need to be sensitized towards gender issues, the boundaries that exist between colleagues and how such boundaries are crossed. The students and faculty of the University also need to be constantly informed about the Sexual Harassment of Women at Workplace Act, 2013 and the manner in which the Internal Complaints Committee is constituted and how it works towards providing protection against sexual harassment of women at workplace and for the redressal of complaints of sexual harassment. In order to address such concerns a one-day event was organized by Internal Complaints Committee, RNB Global University on 14th April 2023. The objective of the session was to sensitize the participants on gender issues, to help them be aware of gender biases, to help them resolve interpersonal conflicts arising from gender issues and to enable them to act assertively and respond to challenges in workplace. The session was held with the intention that departments will also conduct such gender sensitization workshops to create awareness about gender issues and Sexual Harassment at Workplace Act, 2013.

THE FORMAT OF THE SESSION

- Understanding Gender as a social construct
- The Many Forms of Gender Inequalities and Male centric Societies
- The Sexual Harassment of Women in Workplace Act, 2013.

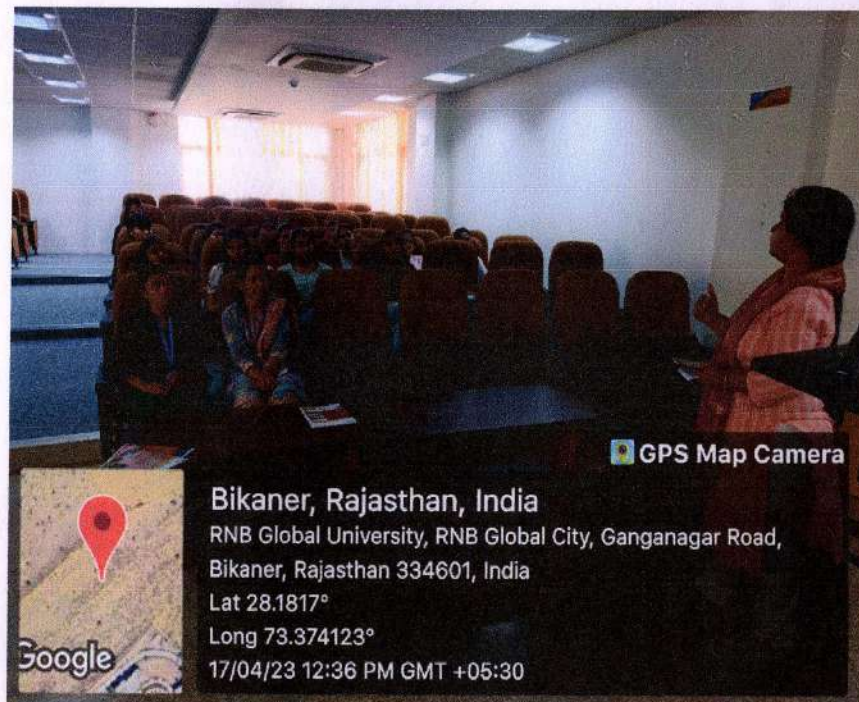

The session in the afternoon. In the afternoon session a lecture demonstration was conducted by Ms Zaiba Kham, Assistant Professor, FOBAS, RNB Global University. It was a multidisciplinary event with such a broad scope in facilitating and providing a professional, multidimensional, and holistic platform as well as serving as a knowledge hub for the researchers, instructors, and students in the various fields. During the event highlighted the basics of IPR, Patenting Procedure, Copyright and Trademarks and Patent search. Various free databases and Paid database for Patent search was demonstrated as live session. The Speakers of the event also highlighted about the Technology Transfer and Commercialization aspects and procedures followed by the University

Event Speakers:

Dr. G. S. Karkara, Hon'ble President, RNB Global University
Dr. Dipali Gupta, Registrar, RNBGU
Dr. Rakesh Bhargava, Dean, Research, RNBGU
Dr. G. S. Rathore, Dean, Academic Affairs, RNBGU
Dr. S.S. Shekhawat Dean, Faculty of Basic and Applied Science, RNBGU

Dr. G. S. Karkara, President, RNB Global University discussed in details about the Governing Regulations Intellectual properties rights in India is governed under the following Acts:

- Trade Marks Act, 1999
- The Patents Act, 1970 (amended in 2005)
- The Copyright Act, 1957
- The Designs Act, 2000
- The Geographical Indication of Goods (Registration and Protection) Act, 1999
- The Protection of Plant Varieties and Farmers Rights Act, 2001
- The Information Technology Act, 2000

Dr. Dipali Gupta, Registrar, RNBGU explained the role and importance of the intellectual property protection has been formed in the Trade-Related Intellectual Property Systems (TRIPS) Agreement, with the establishment of the World Trade Organization (WTO). The TRIPS Agreement came into effect on 1st January 1995, is considered till date most complete multilateral agreement on intellectual property. At the end of the Uruguay Round of the General Agreement on Tariffs and Trade (GATT) treaty in 1994, it was negotiated. The TRIPS Agreement incorporates, in principle, every form of intellectual property and targets the complementary and firming standards of protection and providing for operative enforcement at national as well as international level.

Dr. Rakesh Bhargava, Dean, Research, RNBGU spoke that on the basis of type of invention and creation of human mind and their application, the IPRs are classified as follows: 1. Patents - A patent is an exclusive right granted for an invention, which is a product or a process that provides, in general, a new way of doing something, or offers a new technical solution to a problem. Patentability of any invention needs to fulfill certain criteria such as Usefulness, Novelty and Non obviousness. It provides protection for the invention to the owner of the patent for a limited period, i.e 20 years. 2. Trademarks - A trademark is a distinctive sign which identifies certain goods

or services as those produced or provided by a specific person or enterprise.¹ It may be one or a combination of words, letters, and numerals. 3. Copyright and related rights - Copyright is a legal term describing rights given to creators for their literary and artistic works. 4. Geographic indications of source - A Geographical Indication (GI) is a sign used on goods that have a specific geographical origin and possess qualities, reputation or characteristics that are essentially attributable to that place of origin.

The Geographical Indications of Goods (Registration and Protection) Act 1999 (the Act) provide for registration of Handicrafts as Geographical indications (GI). As on 31 July 2016, 1152 GI Authorized user have been registered under the Act for handicraft goods. 5. Industrial designs - Industrial designs refer to creative activity which results in the ornamental or formal appearance of a product and 'design right' refers to a novel or original design that is accorded to the proprietor of a validly registered design. The existing legislation on industrial designs in India is contained in the New Designs Act, 2000 which aims at enacting a more detailed classification of design to conform to the international system and to take care of the proliferation of design-related activities in various fields. 6. Trade Secrets - Broadly speaking, any confidential business information which provides an enterprise a competitive edge may be considered a trade secret. Trade secrets encompass manufacturing or industrial secrets and commercial secrets. The unauthorized use of such information by persons other than the holder is regarded as an unfair practice and a violation of the trade secret. Contrary to patents, trade secrets are protected without registration.

Dr. G. S. Rathore, Dean, Academic Affairs, RNBGU Discussed that Intellectual property rights (IPR) have been defined as ideas, inventions, and creative expressions based on which there is a public willingness to bestow the status of property. IPR provide certain exclusive rights to the inventors or creators of that property, in order to enable them to reap commercial benefits from their creative efforts or reputation. IPR is one of the important determinants of technology

development, transfer and dissemination. The primary objective of an Intellectual Property Rights is to encourage inventions by promoting their protection and utilization so as to contribute to the development of Industries, which in turn contributes to the promotion of technological innovation and to the transfer and dissemination of technology. Intellectual property protection is necessary to encourage continued investment in research and development and is important for bringing new innovations to farmers.

Dr. S. S. Shekhawat, Dean, Faculty of Basic and Applied Sciences told about the EDV-It is derived from initial variety, while retaining the expression of the essential characteristics that result from genotypes or combination of genotypes of such initial variety Requirements of PBR (Plant Breeder's Right): A plant variety must satisfy the following four criteria for protection: Novelty, Distinctiveness, Uniformity and Stability Breeder's exemption: The use of material of a PBR protected variety (the initial variety) for the development of new varieties is permitted and PBR for the new varieties so developed will be of the breeder who developed them, while the holder of PBR-Title of the initial variety will have no claim to their PBR titles. This provision is called breeder's exemption. C. Researchers' Right: • Registered varieties under protection can be used freely for research to develop new varieties • For repeated use as a parent authorization certificate is required D. Farmers' Rights: (as conserver and cultivator) • Right to save, use, sow, re-sow, exchange, share or sell farm produced seed, including the seed of registered variety .

However, the right excludes sale of branded seed of a protected variety

- Right to share benefit when farmers' variety is used for breeding new commercial variety. (Link to National Gene Fund)
- Right to farmers and communities to receive reward and recognition for conserving PGR (India instituted Plant Genome Saviour Award)
- Right to get adequate supply of seed of registered varieties at reasonable prices. (Linked to Compulsory Licensing)
- Right to claim compensation for under performance of registered variety
- Right to register farmer's variety

- Right to give consent for commercializing essentially derived variety (EDV) developed from farmer's variety
- Exemption to farmers from paying all fees related to administrative and judicial proceedings

At the ends of event vote of thanks given by Mr. Ashok Karnani. Mr. Ashok karnani felt thankful to all speakers of the event, students and RNB members who support to make this event grand successful.

INTRODUCTION

RNB Global University has recently launched a cleanliness drive initiative to remove plastic waste from its campus with the help of its students. This report aims to provide an overview of the initiative, its objectives, and its impact on the university community and the environment.

Objectives:

The primary objective of the initiative is to promote cleanliness and sustainability on the university campus by removing plastic waste. Plastic waste is a major environmental concern, and the university seeks to address this issue by creating awareness among its students and encouraging them to take an active part in the initiative. The university aims to create a cleaner and safer environment for its students, staff, and visitors while contributing to a greener and healthier planet.

The University provided gloves, masks, and garbage bags to the students and allocated specific areas of the campus for them to clean. The students were instructed to collect all plastic waste and dispose of it in designated bins.

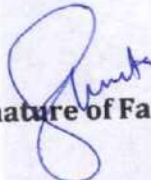

The initiative had a significant impact on the university community and the environment. It helped to create awareness among the students about the harmful effects of plastic waste on the environment and the need to reduce its use. The students also learned about the importance of cleanliness and the role they can play in maintaining a clean and sustainable environment.

The initiative also had a tangible impact on the campus environment. The removal of plastic waste from the campus has made it cleaner and safer, reducing the risk of accidents and creating a more pleasant atmosphere for everyone. The initiative has also helped to reduce the amount of plastic waste that would have otherwise ended up in landfills or oceans, contributing to a greener and healthier planet.

The cleanliness drive initiative launched by RNB Global University is a commendable effort to promote sustainability and cleanliness on its campus. The initiative has demonstrated

the university's commitment to creating a cleaner and safer environment for its students and staff while contributing to a greener and healthier planet. The initiative is a step in the right direction and can serve as a model for other universities and institutions to follow.

INTRODUCTION

Plantation of flora is significant because it is linked to our basic need for good food to eat and clean air to breathe. Aside from these necessities, they preserve biodiversity, conserve water, preserve soil, and control climate, among other things. Plants provide clean air for living beings to breathe and generate energy. Plants are an important component of every community and it takes a lot of effort to keep them that way. Planting may also help people become better versions of themselves since it gives them a sense of accomplishment while also helping to safeguard the environment. Trees have spiritual and religious significance in certain nations since they are regarded as equal to gods and are worshipped on special occasions. As a result, Plants play an important role in forming our environment. The importance of plantations for a healthy life free of suffocation and pollution cannot be overstated, particularly in urban areas. INTRODUCTION

Plantation of flora is significant because it is linked to our basic need for good food to eat and clean air to breathe. Aside from these necessities, they preserve biodiversity, conserve water, preserve soil, and control climate, among other things. Plants provide clean air for living beings to breathe and generate energy. Plants are an important component of every community and it takes a lot of effort to keep them that way. Planting may also help people become better versions of themselves since it gives them a sense of accomplishment while also helping to safeguard the environment. Trees have spiritual and religious significance in certain nations since they are regarded as equal to gods and are worshipped on special occasions. As a result, Plants play an important role in forming our environment. The importance of plantations for a healthy life free of suffocation and pollution cannot be overstated, particularly in urban areas. Holi is a popular and significant Hindu festival celebrated as the Festival of Colours, Love and Spring. It celebrates the eternal and divine love of the god Radha and Krishna

It **celebrates the eternal and divine love of the god Radha and Krishna**. Additionally, the day also signifies the triumph of good over evil, as it commemorates the victory of Vishnu as Narasimha Narayana over Hiranyakashipu.

Language competence is a general area of interest for students of all levels. It was realized that students needed a comprehensive session on this area therefore the event was organized keeping in view its relevance. It was devised in such a way that it remained learner centric and not only aroused the curiosity of the students regarding some complexities involved with the process of difficult structures but also awakened in them the needed confidence level to overcome such difficulties.

The main goal of the seminar was to promote the initiative in **RNB Global University-Bikaner** so that our students could inculcate in them the regular habit of language acquisition by following the step to step methodology for overcoming hesitation and growing needed confidence.

The session was conducted by Dr. Meghraj Khatri who explained in detail several theories in the context of Communicative approach that generated a lot of interest amongst the well-known linguists for the freshness of perception. These theories facilitated ease of learning and kept the process of learning away from monotony that was found to be a common feature with the process of language learning. The conventional method of presenting English grammar in terms of structure had also certain drawbacks in themselves. It is generally noticed that students are primarily interested in making use of language rather than learning about the structures.

Benefits of Communicative Methodology

- Main focus of Communicative method lies on grammar in use.
- Since grammatical structures belong to different styles and varieties they are not felt to be equivalent in many contexts and pose difficulty and confusion to the learner.
- Intonation is clearly important in communicative approach as it provides at least the basic information about intonation.
- Communicative approach defines the type of meaning and then suggests the way to organize meaning.
- When grammatical structures are systematically defined they eliminate the impact of 'grammar fatigue' resulting from conventional ways.
- Practical teaching exercises can be used in conjunction with teaching material available locally. Content can also be adapted to meet local needs matching with different conditions.

Integrating Societal Values through the Process of Language Acquisition

- The aim of education is inclusive in post- independence India as we know that earlier it has been in the impact of elitist bent of mind. This needs to be changed and English must be taught keeping in view the changing scenario. The aim of teaching English must not just remain confined to career making but an overall social transformation leading to equality and opportunities for all. It can be possible when teaching of English gets integrated with teaching of our social and moral values. This kind of harmonious teaching will pave the way to eliminate disparity of every kind. This can happen when education is imparted with a sense of mission and an urge for the dissemination of healthy ideas representing the quintessence of our cultural heritage.

The session was attended by students from various disciplines and a keen interest was noted in them. This was apparent as a number of students appeased their curiosities regarding the potentials that the communicative method of language teaching offered. They were able to arrive at the core of difference between the communicative method and the conventional modes of language learning when explained relatively.

About the Event

RNB Global University- **Training and Placement Cell** conducted the seminar on **"Emergence of Soft Skills to boost Individual Performance"** on 15th Feb 2023.

Earlier soft skills were barely given importance over hard and tangible skills. Soft skills are a set of skills that improves and develops our behaviour and personality. It was categorised under stressbuster and motivational sessions. With the passage of time, most of the corporate houses and educational institutions understood the contribution of these skills in an individual's life and society.

Mr. Prashant Verma-General Manager-Percolate Training started the session by emphasizing that soft skills refer to an employee's workplace behavior, character, and personality traits. Employers and recruiters of every organization seek out candidates who possess both interpersonal skills and communication skills. At its core, soft skills are unique individual attributes that a person requires to accomplish their role in the job. Some examples of soft skills are active listening, time management, networking, good relations with a team, rational thinking, and problem-solving.

Soft skills training help organizations achieve their missions by improving:

- Interpersonal skills
- Emotional intelligence
- Critical thinking
- Communication and presentation skills
- Negotiation abilities
- Business etiquette
- Leadership skills and
- Self-awareness

Because most people lack awareness of which areas they need to work on, self-awareness is one of the best soft skills to train for early on in a training program. Training in the areas above apply to most industries, but the exact soft skills required by each organization understandably varies.

The most important reason why soft skills are introduced in any organisation is that they improve interpersonal skills among employees. Interpersonal skills mean the ability to communicate and interact with other employees in the organisation.

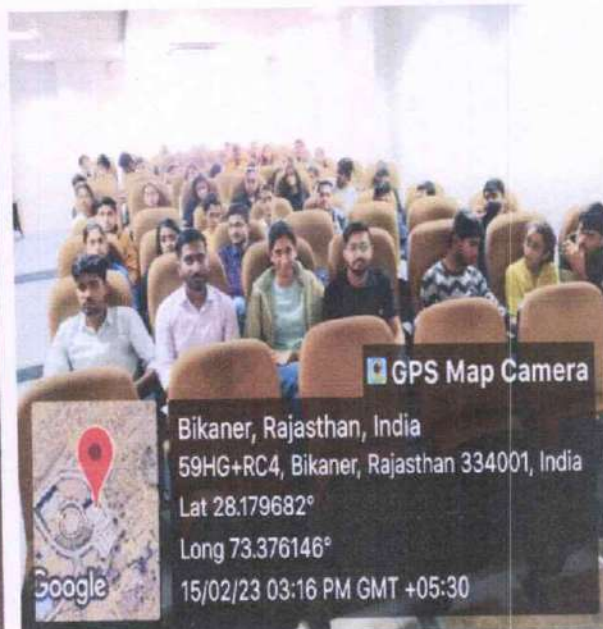

In the session taken by the invited resource person, the students were enthusiastic to ask the relevant questions. Mr. Prashant Verma was very responsive to the queries asked by students.

RNB Global University celebrated the 74th Republic Day of India on January 26, 2023, with a series of events that highlighted the spirit of patriotism and national pride. The university campus was adorned with decorations, and the atmosphere was filled with enthusiasm as faculty members, students, and staff gathered to commemorate this significant day in the nation's history.

The celebration began with the hoisting of the national flag by a senior faculty member, followed by the singing of the national anthem. The flag-hoisting ceremony was a solemn and proud moment for everyone present, symbolizing the unity and integrity of the nation. The unfurling of the tricolor was accompanied by a salute and the echo of patriotic songs, which filled the air with a sense of pride and joy.

Following the flag hoisting, a series of cultural programs were organized to celebrate the diverse heritage of India. Students from various departments participated in dance performances, musical renditions, and skits that depicted the rich cultural tapestry of the country. These performances showcased the creativity and talent of the students, as well as their deep appreciation for India's cultural diversity.

A key feature of the celebration was a speech competition on the theme of national unity and the significance of the Constitution. Students delivered passionate speeches on topics such as the importance of democracy, the role of youth in shaping the future of the nation, and the values enshrined in the Constitution. In addition to the cultural performances and speeches, a quiz competition was held, focusing on the history of India's independence, the Constitution, and notable national leaders. The quiz competition engaged the students, encouraging them to deepen their knowledge of India's democratic journey and its foundational principles.

The event concluded with a vote of thanks, expressing gratitude to all the participants and organisers who contributed to the success of the Republic Day celebration. The day was a meaningful reminder of the values that form the cornerstone of the Indian Republic and an opportunity for the university community to come together in a spirit of unity and respect.

Overall, the 74th Republic Day celebration at RNB Global University was a vibrant and inspiring event. It provided a platform for students to express their patriotism, engage with the ideals of the Constitution, and reflect on their role in contributing to the nation's progress. The celebration reaffirmed the university's commitment to nurturing responsible and informed citizens who are proud of their heritage and dedicated to building a better future for the country.

The Event was started with talking about the importance of self-defense and how it has become mandatory in today's fast-paced, growingly unkind world. She highlighted that self-defense training helps women build not just upon their physical but also their mental and emotional strengths.

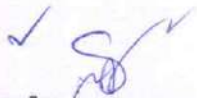

Self-defense is a countermeasure used to protect a person's health and well-being from damage. Self-defense is spelled differently in America. He also shared the need & importance of self-defense that how does it helps to be safe & fit in the physical manner. The trainer taught different tactics for self-defense for the students in simplest form since they were beginners.

Report on Participatory Rural Appraisal (PRA) Approach by NGOs and Other Agencies

Introduction:

Participatory Rural Appraisal (PRA) is a widely used approach that enables local people to share, enhance, and analyse their knowledge of life and conditions in rural areas, thereby planning and implementing development projects. PRA is characterised by its inclusive, participatory nature, which empowers local communities by involving them in decision-making processes. This approach is commonly used by non-governmental organisations (NGOs), government bodies, and other development agencies to understand the needs and priorities of rural communities.

Key Features of PRA:

Participation:

PRA emphasises the active involvement of community members in identifying and analysing problems and developing solutions. It encourages participation from all segments of the community, including marginalised groups such as women, the elderly, and the poor.

Flexibility:

The PRA approach is adaptable and flexible, allowing facilitators to use various tools and methods according to the context and needs of the community. This flexibility ensures that the process is relevant and effective in different cultural and social settings.

Empowerment:

By involving local people in the assessment and planning processes, PRA empowers communities to take control of their development. This empowerment leads to increased ownership of projects and sustainability of outcomes.

Learning and Sharing:

PRA is a learning process for both the facilitators and the community. It fosters an environment where local knowledge and experiences are valued and shared, leading to a better understanding of the community's realities.

Tools and Techniques of PRA:

PRA utilises a variety of tools and techniques to gather information and engage communities. Some commonly used methods include:

Social Mapping:

This tool helps in understanding the spatial distribution of resources, households, and services within a community. It is used to identify the physical and social layout of a village.

Transect Walks:

Facilitators and community members walk through the village or area to observe and discuss various aspects such as land use, resources, and problems. This helps in gaining firsthand insights into the community's environment.

Seasonal Calendars:

These are used to identify and analyse seasonal patterns related to agriculture, labor, festivals, and diseases. Seasonal calendars help in understanding the timing of activities and the impacts of seasonal changes on livelihoods.

Venn Diagrams:

Venn diagrams are used to identify and analyse the relationships and influences of various institutions and groups within a community. They help in understanding the power dynamics and roles of different stakeholders.

Matrix Ranking and Scoring:

This method is used to prioritise problems, preferences, or options based on various criteria. Community members score and rank issues to identify the most critical ones that need attention.

Applications of PRA:

Needs Assessment and Problem Identification:

NGOs and development agencies use PRA to conduct needs assessments and identify problems faced by rural communities. This ensures that development interventions are aligned with the actual needs of the people.

Project Planning and Implementation:

PRA helps in designing projects that are context-specific and culturally appropriate. By involving community members in the planning process, PRA ensures that projects are realistic, feasible, and sustainable.

Monitoring and Evaluation:

PRA techniques are used to monitor and evaluate the progress and impact of development projects. This participatory approach allows communities to provide feedback and suggest improvements, leading to better project outcomes.

Capacity Building and Awareness Raising:

PRA activities build the capacity of local communities by enhancing their skills in problem-solving, planning, and decision-making. It also raises awareness about various issues such as health, education, and environmental conservation.

Challenges in PRA:

Power Dynamics:

PRA can sometimes be influenced by local power dynamics, where dominant groups may overshadow marginalised voices. Facilitators need to be aware of these dynamics and ensure inclusive participation.

Facilitator Bias:

The success of PRA depends on the skills and attitudes of facilitators. Bias or lack of sensitivity by facilitators can affect the quality and authenticity of the information gathered.

Time-Consuming Process:

PRA is a time-intensive process that requires careful planning and implementation. It may not be suitable for situations where quick results are needed.

Sustainability of Outcomes:

Ensuring the sustainability of PRA outcomes can be challenging. Continuous engagement and support from development agencies are required to maintain the momentum of community-led initiatives.

Conclusion:

Participatory Rural Appraisal (PRA) is a valuable approach that promotes inclusive and participatory development. By involving local communities in the assessment, planning, and implementation of projects, PRA ensures that development interventions are relevant, effective, and sustainable. However, careful consideration of challenges such as power dynamics, facilitator bias, and sustainability is essential for the successful application of PRA. NGOs, government bodies, and other development agencies can continue to use PRA as a powerful tool to empower rural communities and achieve meaningful development outcomes.

On 8th November 2022, A group of 18 students of BBA V semester along with 2 faculty members boarded Janmbhumi Express, Train No. 19107 from Lalgarh Railway Station, Bikaner for an eventful journey to Ahmedabad and Vadodara (Gujarat) at 1:35 PM.

Day-1

Journey was started from Gandhinagar Railway Station, Gujarat. We left the Gandhinagar Railway Station on 9th November 2022 at 3:30 AM in the morning to visit the ISKCON Temple.

About ISKCON Temple

While there are several Krishna temples in the city, ISKCON temple is a definite visit for people travelling to Ahmedabad. Situated near the Gujarat Samachar Press, the ISKCON temple is frequented by followers of Hinduism throughout the year. An enduring religious landmark, the temple reflects a perfect mix of Gujarati, Rajasthani and Sompura architectural styles. This captivating temple draws hordes of believers throughout the country. Devotees can hear constant recitation of holy name of Hare Krishna. There are 108 square platforms set inside the temple where devotees step upon chanting Hare Krishna Hare Krishna Krishna Krishna Hare Hare, Hare Ram Hare Ram Ram Ram Hare Hare.

In 1972 A.C. Bhaktivedanta Swami Prabhupada established the Bhaktivedanta Book Trust for publishing Vaishnava texts and works on philosophy and culture of Bhakti-yoga. Books are published in different languages for maximum reach. Spread over an area of 1.3 hectares of land it houses the images of Radha and Govinda, Rama, Sita, Lakshmana and Hanuman, Jagannath Baladev, Shrinathji and Subhadraji. Witness the golden idol of Lord Narasimha and Goddess Lakshmi placed before the images of Radha and Govinda. It has a massive hall extending upto 12000 sq feet that can accommodate around 4000 devotees. Also known as Sri Radha Govinda Dham, it is topped with majestic stone domes with beautiful carvings from Krishna's life. There are three domes which extend upto 50 feet in diameter. This marble floored sacred complex has intricately carved windows built in Khamira and Rajasthani Mewas style. The ceilings are beautifully ornamented with several images of Radha and Krishna. Ceilings and the walls of the temple are decorated with murals illustrating stories from Krishna's life. Devotees can also pay their obeisance to the idols of Srila Prabhupada and Srila Bhaktisiddhanta Saraswati. A noteworthy feature of the glorious temple is the harmonic chandeliers. The peaceful ambiance and the rhythmic chanting of Hare Krishna invoke a sense of happiness and peace of mind.

About Thol Lake

Thol Lake, owns a famous Thol wildlife sanctuary and welcomes dozens of birds from different species. The sanctuary has an in-built shallow water body for the birds. Many migratory birds visit this sanctuary, nest and breed in the water body. Some prominently noticed bird species are Flamingoes and Sarus Crane, which are pretty rare to be found elsewhere. Apart from birds, mammals such as bluebull, striped hyena, wolves, golden jackal and blackbuck also reside in this particular sanctuary. One of the main attractions of this particular lake is that it is surrounded by marshy plants. Other than that, many different kinds of flowers and thorny plants are also to be found here. One travelling here can expect to see lots of birds of various different species. Different species usually found here are like different varieties of flamingos, purple collared swamp hen, spoonbill, bulbuls, sandpipers, ibis, little ringed plover, snipe, common species of snipe, green collared shrunk, heron, sun bird, peacock and many more other species. Other than the flying fauna, various earth crawling mammals such as zebras, jackals, etc can be observed during a safari session. It is preferable to carry enough required food items and water as the availability of these is an issue. The locals here are humble and act as a tourist guide showcasing various special features of the bird sanctuary, and also offer to show around the beautiful village of Thol.

Industry Visit to Nandan Denim Ltd Ahmedabad

Nandan Denim Ltd, India's second largest and the world's fifth largest denim fabric company completes its Rs 621-crore capacity expansion programme. At present, Nandan's capacity is 99 million meter per annum (MMPA), putting it at the second spot behind Arvind Ltd, whose capacity is 108 MMPA. In four months, the Gujarat-based Nandan claims, its capacity will rise to 110 MMPA, making it India's and indeed Asia's largest denim maker. We ultimately visited the warehousing section and went through every section of warehousing & manufacturing departments including sections such as merchandising, sampling section, laying table, cutting and panel checking areas along with various units like pattern, cutting, sewing dealing with domestic as well as foreign brands.

We got enlightened with the behemoth work of this industry which has an envisage effect on us.

The visit created a very good umbra of practicality along with the theoretical adaptation of knowledge as well. The takeaway of this industrial visit was that we became the apprentice as we closely observed and learnt about the various processes and systems. It was such an overwhelming experience.

About Kankariya Lake

Kankaria lake can be found in the south-eastern section of Ahmedabad near the Maninagar area, in Gujrat. It is said to be the second largest lake in the city. Multiple tourist spots like the zoo, kids city, toy-train, hot-air balloon ride, water-based rides and other such entertainment attractions are in abundance in the lakefront that has been developed around Kankaria lake. However, it wasn't like this since the beginning. The construction of the lake was done by some of the finest Mughal architects of the time as evident from the different cuttings and designs in the stones that have been employed to construct the polygonal shaped reservoir that resides right in the middle of this lake. Kankaria lake consists of an island that encompasses Nagina Wadi, which is a garden, right in the middle of it. This place in itself is a beautiful tourist spot here. Nagina means jewel here. The garden further consists of a summer palace which goes by the name of Ghattamandal. A bridge connects with the bank that was originally 48 arches long. Many have mentioned this kind of architecture as a magnificent piece of the Mughal era, and just like a centre piece in jewellery, it is also known as the centre jewel of the lake.

Introduction

Navratri celebration and Dandiya night was organized by the Committee of Student coordinators for Hostel Events of RNB Global University on 01st October 2022 for the students of hostel.

Why Did The University Organize This Event?

RNB Global University is not merely gauged by the quality of education that it provides; it is also determined on the infrastructure standards that it is conferring onto the students. The university understands importance of an environment in which students thrive and provides them exactly what you need. To make the fresher and the old students more accommodated and at home, the university organized this event.

About The Event

As per the Indian tradition, Navotsavam (navratri celebration) was celebrated from 26th September 2022- 5th October 2022 at the hostel by the students. The celebration started with the *murti sthapana* and offering prayers to Goddess Navdurga. The timing of Pooja was 7:30am in the morning and 7:00 pm in the evening. The decoration and arrangements were done by the students themselves. A great enthusiasm was shown by students in this festival by participating in the Pooja.

Following the sixth day, the committee of Hostel at RNB global University, Bikaner; organized "Dandiya Night" on 1st October 2022 to celebrate the sixth day of Navratri. The dandiya night started with Pooja and aarti of goddess Durga by the students. It started at 8:00 pm with a dandiya dance. The Navratri event became an excellent example of celebration of tradition with joy and fervor at its fullest along with the discipline of students. The function ended at 11:30 pm.

On the last day of the Navratri, Prasad was distributed to the students and prayed for blessings of all.

परिचय

आर एन बी ग्लोबल विश्वविद्यालय के सभी छात्रों ने १४ सितम्बर २०२२ को "हिंदी दिवस" के अवसर पर विश्वविद्यालय द्वारा आयोजित कार्यक्रम में भाग लिया। यह दिन संविधान समिति द्वारा हिंदी (देवनागरी लिपि में लिखित) के आधिकारिक भाषा के रूप में अनुकूलन का प्रतीक है।

विश्वविद्यालय ने इस कार्यक्रम का आयोजन क्यों किया?

आर एन बी ग्लोबल विश्वविद्यालय ने हिंदी भाषा के महत्व को प्रदर्शित करने के लिए इस कार्यक्रम का आयोजन किया था। वह दिन उस घटना को याद करता है जब हिंदी को भारत की आधिकारिक भाषाओं में से एक के रूप में अपनाया गया था। आज, अंग्रेजी भारत में सबसे लोकप्रिय विदेशी भाषा बन गई है, जबकि हिंदी अपना महत्व खो रही है। छात्रों को अपनी मातृभाषा "हिंदी" का महत्व याद दिलाने और सभी को इस भाषा को और अधिक बोलने हेतु प्रोत्साहित करने के लिए विश्वविद्यालय द्वारा इस कार्यक्रम का आयोजन किया गया था।

कार्यक्रम के बारे में

कार्यक्रम की शुरुआत आर एन बी ग्लोबल विश्वविद्यालय के अध्यक्ष डॉ. जी. एस. करकरा के एक संबोधन के साथ हुई जिसमें उन्होंने सही कहा कि इतनी विविध आबादी वाले देश में यह वास्तव में गर्व की बात है कि "हिंदी" को आधिकारिक भाषा के रूप में अपनाया गया है। श्री कुशाग्र शर्मा, ने "हिंदी" के महत्व पर प्रकाश डाला और छात्रों को उसी के बारे में कुछ रोचक तथ्यों से अवगत कराया।

आर एन बी ग्लोबल विश्वविद्यालय की कुलसचिव श्रीमती दीपाली गुप्ता, विधि एवं कला संकाय के अधिष्ठाता, श्री अनिल कौशिक और कृषि-विज्ञान संकाय के अधिष्ठाता, श्री सुरेंद्र सिंह शेखावत ने छात्रों को संबोधित किया और विद्यार्थियों के साथ अपना बहुमूल्य ज्ञान साझा किया और हमारी आधिकारिक भाषा, "हिंदी" के संरक्षण और अभ्यास के महत्व पर भी जोर दिया।

विद्यार्थियों ने उत्साहपूर्वक इस कार्यक्रम में भाग लिया और आगे आकर कविता, भाषण और गीतों के माध्यम से अपने विचार व्यक्त किए। सुश्री लावण्या लकोटिया और मोनिका बरार द्वारा एक प्रश्नोत्तरी भी आयोजित की गई थी।

कार्यक्रम का उद्देश्य

हिंदी भारत में उपयोग की जाने वाली प्रमुख भाषाओं में से एक है क्योंकि देश की आबादी का एक बड़ा हिस्सा इस भाषा को जानता और उपयोग करता है। भाषा के सम्मान के लिए हर साल १४ सितंबर को हिंदी दिवस मनाया जाता है। इस कार्यक्रम को आयोजित करने का उद्देश्य छात्रों के बीच हिंदी भाषा के महत्व को उजागर करना और इस खूबसूरत भाषा के मूल्य को फैलाना था।

Introduction

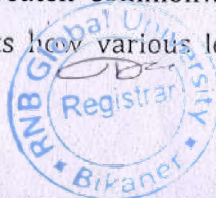

The students of all the semester of RNB Global University attended the webinar organized by the School of Law on "Origin and Development of Human Rights in India." The moral claims which are inalienable and inherent in all individuals by virtue of their humanity alone, irrespective of caste, colour, creed, and place of birth, sex, cultural difference or any other consideration are known as human rights.

Why did the university organize the webinar on "Origin and Development of Human Rights in India?"

School of Law is continuously organizing various extracurricular activities like national level Moot court Competition, Mock United Session, Mock Parliament, Dramatize Moot Court, Webinars, seminars and conferences on various topics and visit to various Courts. These kinds of activities are necessary for the all over development of students. This webinar was also an essential element in the all-round, holistic development of children.

About The Webinar

The speaker for the day, Adv. I Dresher Sharma spoke on the origin and development of Human Rights in India. He briefed the students on all the three periods of development of Human Rights, i.e., the Historical, Medieval and the Modern period. Sir rightly quoted on how the teachings of Ashoka and Buddha reflected the values of Human Rights in India. For the Medieval Period, he told the students about the Pre-Mughal Period where the concept of human rights slowly started losing its value and in the Modern Era he told on how Human rights again gained its significance during the British Rule, when the people of India started realizing of how they are being exploited. The Constitution of India Bill of 1895 was the first explicit demand of Human Rights after a prolonged period of exploitation and Mrs. Beaten commonwealth bill of 1925 contained 7 fundamental rights. He also told the students how various legislation passed by the Indian

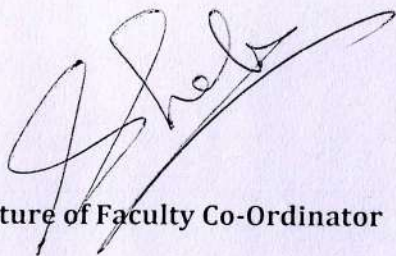

Parliament have helped in the uplifting of the minorities including women and labourers. At the end of the session the house was open for questions and the lecturer solved all the queries of the students.

Objectives of The Webinar

The purpose of the lecture is to spread knowledge about the origin of Human rights in India. To know about the importance of Human Rights, the students must first know the problems which made the law-makers and the citizens realize why human rights are important. This session organized by the School of Law and Arts focused on giving our students a brief on Human Rights, their Origin and Importance.

Prologue

Quite often it is observed that the teachers do not have required and sufficient teaching experience when they join academic institutions to teach. Nevertheless, they do not undergo any type of formal training about teaching, learning process or classroom management as such. Even the present education system does not have any such kind of training criteria which is essential to become eligible for the appointment of a teacher. Therefore, in order to ensure qualitative growth of education and to enhance the professional development of a teacher it becomes prerequisite to provide proper formal training to all newly appointed teachers to make them familiar with the process of teaching and learning responsibilities along with classroom teaching discipline norms. Owing to this aforementioned perennial problem the authorities responsible to uphold the teaching standards at the national level make it mandatory for every higher educational institutions to conduct "Induction Programmes" for the specific period as specified in the statutory guidelines for the newly
