Introduction

The students of the 2nd Semester of RNB Global University visited the District Legal Service Authority on 13 May 2023. A court is a tribunal, often a governmental institution, with the authority to adjudicate legal disputes between parties and carry out the administration of justice in civil, criminal, and administrative matters in accordance with the rule of law. District Legal Service Authority of India is presided over by an Additional district judge. These courts are under administrative and judicial control of the High Court of the state to which the district concerned belongs.

Why did the university organize the visit to the Lok Adalat District Legal Service Authority, Bikaner

The Faculty of Law & Arts continuously organizes various extracurricular activities like National level Moot court Competitions, Mock United Sessions, Mock Parliament, Dramatize Moot Court, Webinars, seminars, and conferences on various topics, and visit to various Courts, juvenile courts, etc. These kinds of activities are necessary for the over-development of students. District Court visit is also one of the most essential parts of practical knowledge for Law students.

About the Lok Adalat District Legal Service Authority,

The National Legal Services Authority (NALSA) has been constituted under the Legal Services Authorities Act, 1987 to provide free Legal Services to the weaker sections of the society and to organize Lok Adalats for amicable settlement of disputes. In every State, State Legal Services Authority has been constituted to give effect to the policies and directions of the NALSA and to give free legal services to the people and conduct Lok Adalats in the State. The State Legal Services Authority is headed by Hon'ble the Chief Justice of the respective High Court who is the Patron-in-Chief of the State Legal Services Authority. A Senior most Judge of High Court is nominated as Executive Chairman, NALSA. In every District, District Legal Services Authority has been constituted to implement Legal Services Programmes in the District. The District Legal Services Authority is situated in the District Courts Complex in every District and chaired by the District Judge of the respective district. A Civil Judge Cadre Judicial Officer is appointed as Secretary on a full-time basis.

The district court of the state governments in India for every district or for one or more districts together taking into account the number of cases and population distribution in the district. They administer justice in India at a district level. The district and session judge judges the civil court district court. This is the principal court of Original Civil Jurisdiction besides the high court of the state and derives its

jurisdiction in civil matters primarily from the Code of Civil Procedure. The district court is also a court of sessions when it exercises its jurisdiction on criminal matters under the Code of Criminal Procedure. The district court is presided over by a district judge who is appointed by the state governor on the advice of the chief justice of that high court. In addition to the district judge, there may be a number of additional district judges and assistant district judges depending on the workload. The additional district judge and the court presided have equivalent jurisdiction as the district judge and their district court.

Objectives of the Visit

The visit provides our students the opportunity to interact with the Additional District Judge, District Legal Service Authority, Bar Association members, Advocates, and AIR Library.

The students also got a chance to interact with the members of the Chairman of Permanent Lok Adalat, Mahesh Kumar Sharma, and ADJ of District Legal Service Authority Raina Sharma. Also, students received a blessing from Vivek Kumar Sharma President, of Bikaner District Bar Association. He explained to students about ins-outs of litigation and the relation between bar and bench and advanced wishes to students for their future endeavors.

The visit started with a brief introduction of the Concept of DLSA & Lok Adalat and its procedure by the faculty in charge Ms. Tripti Paliwal. After getting a brief knowledge of Lok Adalat an interactive session was held with Raina Sharma, ADJ, DLSA.

Additional District Judge Cum secretary of District Legal Services Authority Ms. Raina Sharma told the students that NALSA along with other Legal Service Institutions use to conduct Lok Adalat periodically. Lok Adalat is one of the alternative dispute redressal mechanisms, it is a forum where disputes/cases pending in the court of law or at the pre-litigation stage are settled/ compromised amicably.

Learning outcomes of the visit

The experience not only enriched students with working in the district and DLSA but also enlightened them with practical aspects. The visit was full of information for the students of law. Students got live exposure to the judicial process of the court with a bench-bar relationship. It gave practical and theoretical knowledge regarding all those laws written in the law books

About the Session:

The University strongly encourages gender parity and is constantly working towards providing a conducive environment for efficient and effective communications between the employees and students. Men and women need to be sensitized towards gender issues, the boundaries that exist between colleagues and how such boundaries are crossed. The students and faculty of the University also need to be constantly informed about the Sexual Harassment of Women at Workplace Act, 2013 and the manner in which the Internal Complaints Committee is constituted and how it works towards providing protection against sexual harassment of women at workplace and for the redressal of complaints of sexual harassment. In order to address such concerns a one-day event was organized by Internal Complaints Committee, RNB Global University on 14th April 2023. The objective of the session was to sensitize the participants on gender issues, to help them be aware of gender biases, to help them resolve interpersonal conflicts arising from gender issues and to enable them to act assertively and respond to challenges in workplace. The session was held with the intention that departments will also conduct such gender sensitization workshops to create awareness about gender issues and Sexual Harassment at Workplace Act, 2013.

THE FORMAT OF THE SESSION

- Understanding Gender as a social construct
- The Many Forms of Gender Inequalities and Male centric Societies
- The Sexual Harassment of Women in Workplace Act, 2013.

Introduction

The students of all the semester of RNB Global University attended the One Day workshop on "Art of Preparing Moot Memorial" organized by the Faculty of Law and Arts. Mooting is an important part of learning in any law student's life. One should continuously make efforts in order to excel the skills of Memorial Drafting.

Faculty of Law and Arts is continuously organizing various extracurricular activities like national level Moot court Competition, Mock United Session, Mock Parliament, Dramatize Moot Court, Webinars, seminars and conferences on various topics and visit to various Courts. These kinds of activities are necessary for the all over development of students. This workshop was also an essential element in the all-round, holistic development of children.

About the Workshop

The One-day workshop was conducted in two sessions, one session during the first half of day and second session during the second half of day.

The session began with the welcome address given by Dr Anil Kaushik, Dean Faculty of Law and Arts, he shared his experience and journey of moot courts. He applauded the efforts of the students of the SOL who pro-actively and enthusiastically organized the event along with their internships and studies.

The Expert speaker was Mr. Sandip Singh, Director, University of Rajasthan, who spoke on The technique in every art that has to be learnt by its practitioners. The same is true for the Art of Advocacy. Any law student can become a competent advocate by learning the principles of the art of advocacy by practice and patience. The experience of research is profitable the experience told the students how various students act as advocates and argue upon an imaginary or a decided/undecided case, or it could also be on some specific legal issue, civil or criminal (or a petition). They are judged by a person having knowledge of the law, it is not necessary that the person should be a sitting or a retired judge. He further says that first and foremost, a student should go through the moot proposition, thoroughly. It defines the boundary within which one has to argue and lays out the whole case in detail; the more one reads it, the more one finds out.

The Expert Speaker on first half told about the process should take up most of the time for preparation and is the execution of research planning. Considering the moot proposition and facts in issue, one has to find out the appropriate laws to be applied. He further discuss that,

after going through the case many times, you will ultimately isolate the facts which support you and you should counter those which go against you. After collecting all the facts for your case, it is necessary to draw inferences from the primary facts and formulate a hypothesis that will enable. He further discusses about the Bare acts alone may not be able to articulate the law and provide for further information that could be used in the moot court. One should go through a few books, not many, to get a fair idea of the law and also gather certain leading or important cases that can be cited to bolster the case.

The Expert Speaker on second half told the student about the object of a pleading is to facilitate a trial so that the points of the issue might be clarified and also the decision given thereon; it also determines what relief a party is entitled to on the basis of law and fact. Thus, after gathering the required information, it has to be arranged in a certain format, either provided in the rules or the standard that is usually adopted. The memorial is the written submission while arguing orally in the moot court forms the oral submission. It has to be made for both sides by a single team, i.e., for plaintiff/appellant and defendant/respondent. He further said that rules for its making should be strictly followed as it is to be submitted to the moot court judges and to the adverse team. The teams can bring one themselves, for reference. They can also carry hard copies of judgements, bare acts, sections, various laws and other material that is to be brought

The workshop concluded with the doubt solving session, where the resource person entertained the queries of inquisitive law students and answered them to their satisfaction.

Objectives of The Workshop

The purpose of the workshop on preparing moot court memorial is to introduce law students to court proceedings that arise from a (hypothetical) dispute between parties. Such exercises can allow future lawyers, judges and arbitrators to improve their drafting, research and argumentation skills.

INTRODUCTION

Plantation of flora is significant because it is linked to our basic need for good food to eat and clean air to breathe. Aside from these necessities, they preserve biodiversity, conserve water, preserve soil, and control climate, among other things. Plants provide clean air for living beings to breathe and generate energy. Plants are an important component of every community and it takes a lot of effort to keep them that way. Planting may also help people become better versions of themselves since it gives them a sense of accomplishment while also helping to safeguard the environment. Trees have spiritual and religious significance in certain nations since they are regarded as equal to gods and are worshipped on special occasions. As a result, Plants play an important role in forming our environment. The importance of plantations for a healthy life free of suffocation and pollution cannot be overstated, particularly in urban areas. Besides food and nutritional security, the aesthetic value is also equally important for our daily lively hood as well as for environmental purity. The wealth of any nation is linked with the health of its people. Unless we can ensure the healthy development of our citizens, especially for the younger generation, by providing them for open breathing places through bio-aesthetic planning. Ornamental plants utilized in psychiatric hospitals, general hospitals and physical rehabilitation centres, homes for elderly, prisons and schools for better and healthy environment. Now a days ornamental plants are used for treatments.

OBJECTIVES OF EVENT

1. To upgrade and promote, protection, preservation and monitoring of environment in the university campus.
2. To beautify the campus.
3. To maintain to conduit atmosphere inside the campus.
4. To overcome the issue of global warming and other environmental-related problems.

DESCRIPTION OF EVENT

School of Agriculture RNB Global University organised a event for plantation of ornamental plats for beautification, green campus and overcome the effect of pollution. Event was held in university campus on 17.03.2023. Faculty incharge Dr. Ravi Kishan Soni, Lab Assistant Mr. Vikas Nai and students of school of agriculture participated in this event. Plantation was done at University circle and main gate. 150 plants of Periwinkle and Bougainvillea were planted. Each student planted 5-7 plants and also irrigate them. Students done promise for protect plants and also will continues this plantation activity. The idea behind the tree plantation activity was to

propagate the message that planting the trees helps to maintain clear eco-friendly environment reduces pollution and improves the green ambience.

Conclusion

We recognise that one of the most serious issues in the current state is the devaluation of Plants. To make our campus greener and better, we must pay more attention to tree planting in the future. Individual contributions should be made first. We should also put a stop to tree cutting and remember that without trees, there will be no life. Everyone should be aware of the importance of planting and should motivate and encourage others to do the same.

Learning Outcomes:

1. A moot court competition simulates a court hearing (usually an appeal against a final decision), in which participants analyses a problem, research the relevant law, prepare written submissions, and present oral argument.
2. Moot problems are typically set in areas of law that are unsettled or that have been subject to recent developments. They usually involve two grounds of appeal, argued by each side.
3. The procedure imitates that followed in real courts: the judge enters, the mooters and the judge bow to each other, the clerk announces the matter, the mooters give their appearances and are then called on in turn to present their submissions, the judge asks questions of the mooters, the court adjourns, and the judge then returns to deliver a brief judgment and some feedback.
4. Mooting is not the same as public speaking or debating, although it shares some common elements with these activities. It is a specialized application of the art of persuasive advocacy. It has been part of the process of training lawyers for centuries and plays an important role in legal education.
5. Students become aware about the mooting techniques, memorial formation methods and art of argument before court.
6. Student came to know that how to find a case applicable on a given moot problem.
7. Students became aware that how to
 - Choose their competition.
 - Secure faculty coaching
 - Work out internal selection procedures to select the team.
 - Do the research, writing, and practice necessary to prepare professional solutions to the problems posed for the contests.

Day-1

Journey was started from Ambala cant. Railway Station, Ambala. We left the Ambala Cant. Railway Station on 20th December 2022 at 11:45 AM in the morning to visit the Chandigarh. After Freshen up at Hotel students went to visit Capitol Complex, UNESCO World heritage site and Elante Mall.

Capitol Complex UNESCO World Heritage Site

Chandigarh Capitol Complex, located in the sector-1 of Chandigarh city in India, is a government compound designed by the architect Le Corbusier and is a UNESCO World Heritage Site. It is spread over an area of around 100 acres and is a prime manifestation of Chandigarh's architecture. It comprises three buildings: the Palace of Assembly or Legislative Assembly, Secretariat Building and the High Court plus four monuments (Open Hand Monument, Geometric Hill, Tower of Shadows and the Martyrs Monument) and a lake. It was added to the UNESCO World Heritage Site List in 2016 along with sixteen other works by Le Corbusier for its contribution to the development of modernist architecture. These 'monuments' included the Open Hand, Martyr's Memorial, Geometric hill, Tower of Shades, '24 Solar hours' and have reliefs on raw exposed concrete.

The most prominent and visible of these is the 85 feet high Open Hand soaring in the sky, silhouetted against the resplendent backdrop of the timeless Himalayas. The metal wind vane erected over a concrete platform appears like a flying bird, designed to rotate in the wind. The giant Open hand denotes the message, 'Open to give, Open to receive'. Very often, it is perceived by the onlookers as a hand of peace akin to Buddha's open palm, or a gesture of blessings by our ancient sages. It is now the official emblem of Chandigarh.

Situated close to the Tower of Shades, is another of his sculptural elements called the 'Geometrical Hill' at whose base is an abstract mural masterfully depicting the 24 hours solar movement, charting out its rise and setting every day.

However, the most quizzical of all the Martyrs' Monument, is still incomplete. The monument is designed as a square enclosure formed by sloping concrete walls and a sculptural ensemble depicting the sacrifice and martyrdom of those who lost their lives during the partition. On the walls of the ramp and the concrete enclosure are the symbols of Indian cosmology: a wheel and a Swastika. The wheel denotes 'dharamchakra' and the Swastika represents the revolving sun and the seasons of human life, and their impact on human life.

The building material chosen for the Capitol buildings was concrete that had a raw, brute aesthetic appeal that Corbusier called "molten rock of the 20th century". He embedded on its facades designs ranging from Harappan seals, pastoral animals like bulls, cows and replicas of birds and fish often etched out by village labourers on wet concrete surfaces; that fascinated Corbusier.

Inside the High Court and the Assembly buildings are nine large tapestries. Common to their themes are quizzical symbols of rivers, trees, reptiles, lightning and balance. Corbusier called his tapestries, 'nomadic murals' and was inspired by the durre weaving traditions of Punjab.

Visit to Rock Garden

The Rock Garden of Chandigarh is a sculpture garden for rock enthusiasts in Chandigarh, India. It is also known as Nek Chand Saini's Rock Garden of Nathupur after its founder Nek Chand Saini, a government official who started building the garden secretly in his spare time in 1957. It has spread over an area of 40 acres (16 ha), and is completely built from industrial, home waste, and discarded items. The Rock Garden sits near Sukhna Lake. It consists of man-made interlinked waterfalls and many other sculptures that have been made of scrap and other kinds of waste (bottles, glasses, bangles, tiles, ceramic pots, sinks, electrical waste, broken pipes, etc.) which are placed in walled paths.

In his spare time, Nek Chand started collecting materials from demolition sites around the city. He recycled these materials into his own vision of the divine kingdom of Sukrani, choosing a gorge in a forest near Sukhna Lake for his work. The gorge had been designated as a land conservancy, a forest buffer established in 1902 that nothing could be built on. Chand's work was illegal, but he was able to hide it for 18 years before it was discovered by the authorities in 1976. By this time, it had grown into a 12-acre (4.9 ha) complex of interlinked courtyards, each filled with hundreds of pottery-covered concrete sculptures of dancers, musicians, and animals.

His work was in danger of being demolished, but he was able to get public opinion on his side. In 1976 the park was inaugurated as a public space. Nek Chand was given a salary, a title ("Sub-Divisional Engineer, Rock Garden") and 50 laborers so that he could work full-time. The Rock

Garden appeared on an Indian stamp in 1983. The Rock Garden is still made out of recycled materials. With the government's help, Chand was able to set up collection centers around the city for waste, especially rags and broken ceramics.

When Chand left the country on a lecture tour in 1996, the city withdrew its funding, and vandals attacked the park. The Rock Garden Society took over the administration and upkeep of this unique visionary environment.

The garden is visited by over 5,000 people daily, with more than 12 million visitors since its inception.

Visit to Rose Garden

Zakir Hussain Rose Garden, is a botanical garden in Chandigarh, India and spread over 30 acres (120,000 m²) of land, with 50,000 rose-bushes of 1600 different species. Named after India's former president, Zakir Hussain and created in 1967 under the guidance of Mohinder Singh Randhawa, Chandigarh's first chief commissioner, the garden has the distinction of being Asia's largest. The garden has not only roses, but also trees of medicinal value. Some of the medicinal plants that can be spotted here are bel, bahera, harar, camphor and yellow gulmohar. The rose plants have been planted in carved-out lawns and flower beds.

Apart from serving as a host of other events, the Zakir Rose Garden serves as the venue for hosting an annual rose festival called *Rose Festival*, a major cultural event in Chandigarh during February or March. Celebrated mainly as a tribute to the magnificence of the rose itself, the attractions include food, drinks, joyrides, and contests of varying nature, such as photography, gardening, landscaping, bonsai, and Rose Prince and Princess. The contests are open to the residents or institutions from nearby places.

Visit to Sukhna Lake

At a distance of 5.5 km from Chandigarh Bus Station, Sukhna Lake is a beautiful manmade lake situated at the foothills of Shivalik range in the city of Chandigarh. This is one of the most picturesque man-made lakes in India and also one of the top tourist places in Chandigarh.

Sukhna Lake is created by Le Corbusier in 1958 by damming the Sukhna Choe, a seasonal stream flowing down from the Shivalik hills. It had a depth of 18 feet originally and was spread across 3 sq. km. The name Sukhna means a wish - fulfilled, the lake is a perfect destination for solitude seekers. At the entrance, there is a Corbusier proclamation 'The creator of this beautiful city of Chandigarh has also created this eye-catching man made Sukhna Lake and also a dam that makes this city even more beautiful. The area around this lake is very calm and peaceful'.

The lake is enclosed by a golf course on the south and the famous Rock Garden on its western

end. The Sukhna Lake is also the habitat of a number of fishes and migratory birds like cranes and Siberian ducks. It has also been declared as a reserved national wetland by the Government of India. The promenade on the shores of the lake is often crowded by a stream of joggers and walkers. The scenic beauty of the lake serves as a true delight for the photographers and artists who love to capture the mesmerizing view. It is the best place to view both Sunrise and the Sunset.

Chandigarh Sukhna Lake serves as a great picnic spot and an apt place for pursuing water sport activities like boating, yachting and water skiing etc. The Sukhna Lake has the longest channel for rowing and yachting in Asia. The lake in the evening sees number of visitors who come to spend some enjoyable time with their families and loved ones.

Wagah (Shahmukhi Punjabi) is a village and union council (UC 181) located in the Wahga Zone near Lahore City District, Pakistan. The town is famous for the Wagah border ceremony and also serves as a goods transit terminal and a railway station between Pakistan and India. Wahga is situated 600 metres (2,000 ft) west of the border and lies on the historic GranTrunk Road between Lahore and Amritsar in India. The border is located 24 kilometres (15 mi) from Lahore and 32 kilometres (20 mi) from Amritsar. It is also 3 kilometres (1.9 mi) from the bordering village of Attari, India. The Wagah ceremony takes place every evening. The border crossing draws its name from Wahga village, near which the Radcliffe Line, the boundary demarcation line dividing India and Pakistan upon the Partition of British India, was drawn.^[3] At the time of the independence in 1947, migrants from India entered Pakistan through this border crossing and vice versa. The Wagah railway station is 400 metres (1,300 ft) to the south and 100 metres (330 ft) from the border. The Wagah-Attari border ceremony happens at the border gate, two hours before sunset each day.^[3] The flag ceremony is conducted by the Pakistan Rangers and Indian Border Security Force (BSF), similar to the retreat ceremonies at Ganda Singh Wala/Hussainiwala border crossing and Mahavir/Sadqi International Parade Ground border crossing. A marching ceremony, known as the "Silly Walk ceremony", is conducted each evening along with the flag ceremony. The ceremony started in 1986 as an agreement of peace, although there was not a conflict at that time. Other Middle Eastern nations have adopted similar ceremonies in recent years.

Visit to Golden Temple

The Golden temple is located in the holy city of the Sikhs, Amritsar. The Golden temple is famous for its full golden dome, it is one of the most sacred pilgrim spots for Sikhs. The Mandir is built on a 67-ft square of marble and is a two storied structure. Maharaja Ranjit Singh had the upper half of the building built with approximately 400 kg of gold leaf. The Golden Temple is surrounded by a number of other famous temples like the Durgiana Temple. The fourth Guru of Sikhs, Guru Ram Das, who had initially constructed a pool here, founded Amritsar, which houses the Golden Temple or Harmandir Sahib. It is here that Sage Valmiki wrote the epic, Ramayana. Rama and Sita are believed to have spent their fourteen-year exile in Amritsar, the epicenter of Sikhism. To the south of the temple is a garden, and the tower of Baba Atal. The Central Sikh Museum is atop the Clock Tower. The 'Guru Ka Langar' offers free food to around 20,000 people everyday. The number shoots up to 100,000 on special occasions. A visitor must cover his / her head before entering the temple premises. Guru Hargobind established it. The rugged old Jubi Tree in the north west corner of the compound is believed to possess special powers. It was planted 450 years ago, by the Golden Temple's first high priest, Baba Buddha. Guru-ka-Langar or the communal canteen is towards the eastern entrance of the temple complex, and it provides free food to all visitors, regardless of colour, creed, caste or gender. About F.R.I. Visit at Dehradun

Dehradun is truly wonderful place to be associated with. It has friendly and helpful people, an abundance of recreational opportunities and places to see and visit. The open countryside, hills and mountains of Dehradun has a reputation being the educational capital of the country. Dehradun has a sub-tropical climate with cool winters, warm and crisp springs, hot summers and a strong monsoon. With over 200 years of history, Dehradun's proudest moment came in November 2000, when the town became the capital of Uttarakhand, understandably termed as Dev Bhoomi (abode of the Gods).

Forest Research Institute (FRI), Dehra Dun made a humble beginning as Forest School established in 1878. Initially named as Imperial Forest Research Institute, FRI came into being in 1906. Later renamed as Forest Research Institute and Colleges, with a number of centres located at different places all over the country administering research as well as training of Forest Officers and Forest Rangers. After reorganization of Forestry Research in the country and creation of Indian Council of Forestry Research and Education (ICFRE) in 1988, the training and research centres were given an independent status of institutes. Forest Research Institute, now one of the institutes under ICFRE, was conferred the status of Deemed University in December 1991 on the recommendations of the UGC, Ministry of Human Resource Development, Government of India. To impart education in such branches of forestry and environment as it may deem fit.

To provide for research and for the advancement of and dissemination of knowledge in the forestry and environment. The disciplines pursued in the Institute are Silviculture, Resource Survey and Management, Social forestry, Minor forest produce, Ecology and conservation, Genetics and tree propagation, Forest protection, Forest Botany, Forest products and Forest Operations. The thrust areas are bio-diversity, tree improvement & quality seed production, non-wood forest products, social forestry & wasteland afforestation, design development of modern forestry tools, etc.

To create consciousness about forest and environment among the people through extension programs. To do all such other acts and things as may be necessary or desirable to further the safeguarding of environment and protection of forest & wildlife.

We got permission to visit five museum in FRI. First of all we visited the forest pathology museum. After that we visited Silviculture museum and Timber museum. Then we visited NTFP museum. End in the last we visited Forest Entomology museum.

Students also saw Indira Gandhi National Forest Academy (IGNFA) just in front of FRI where IFS training take place.

About near by places Nainital & Dehradun

Apart from all this we visited Nayna devi temple and gurudwara sindh sabha & Statue of Govind ballabh pant in Nainital and Visited whole Campus of FRI.

Personal Observation

There is a general saying "I hear and I forget, I see and I remember, I do and I understand," it describes the theory of retaining more information when visually experiencing the activities in a chosen environment. Students gain a better perspective of the world around them by going on

educational tours as they are brought in direct contact with new situations which prepare them for facing challenges in their upcoming professional lives. The importance of taking the students out of the classroom to absorb, interact and be immersed in history and educational tours have several learning benefits for students to obtain practical information within the brain.

Learning Outcome of the Visit

Below are some of the Learning outcome and key benefits of educational tours and reasons why getting students on these trips are good for them.

Interactive Learning: Field trips help students to interact with what they are learning. The experience goes beyond reading about a concept; students are able to see it, manipulate it or participate in it physically. Students are able to see elements with their eyes rather than reading about it and believing what they are told in books or by educators. These tours provide the students with the opportunity of learning through travel, especially to places that they may not otherwise get to visit. Educational trips provide valuable educational opportunities away from the classroom, without using textbooks and other tools which are used in a normal school setting. Students on educational trips can often learn while having fun in a more informal environment. If the educational trip destination has a professional guide who do hands-on teaching to visiting students such as at a science centre or historical museum, the learners will be excited to learn from someone new.

Entertainment: The learning trips also provide entertainment for students. They often act as a powerful motivator for students. Breaking away from the routine provides students refreshment that might make them more focused back in the studies. Learning and fun always make a great combination. Field trips are considered as a fun, but the students learn as well, whether they realize it or not. No matter how much students learn during an educational trip, their favourite memories may be based on their enjoyment of the day. Getting away from the Institute for a day or even half a day is always exciting for students and educational trips are always highly anticipated. Students will have fun with their friends or classmates and they also may return to the classroom with a renewed focus.

Social Interaction: Getting away from the routine atmosphere of the university gives students an opportunity to spend time with each other in a new environment. They may be able to connect on more of a personal level without the structure of the normal school day. Students may be able to spend much of the educational trip day in small groups, observing, chatting and learning about each other. Having a trip in the early part of the term or semester is wise since it will allow the students to make a bond with whom they may not know very well. Also, leaving the classroom for an educational tour places the students in a different social environment. They encounter a new set of folks during the course of the average field trip. These interactions teach them how to behave in different environments. They learn more self-control and communication etiquettes. It creates a sense of teamwork and community among the students as they experience a field trip together. Furthermore, students can interact with other people from all sections of society. It gives them a chance to gain new perspectives, and learn from complete strangers with unbiased opinions.

New Experiences: Many students do not get to experience the typical trip locations with their families. Because of money constraints or lack of resources, not all parents are able to take their kids to courts, tribunals, museums and other field trip destinations. An educational trip gives the opportunity for students to experience new venues or places. While field trips take a great deal of work and energy, broadening the horizons of the students is worth it. Moreover, when students and teachers are together going on a trip, new educational environments and

experiences are possible. Students may have the opportunity to observe many things that are not available at school or college, including exotic wildlife, rare plants, mechanism of industries etc. Discussing the educational trip beforehand is wise because it allows students to know what they will experience during their time away from school.

Better Exposure: Better exposure is yet another benefit of educational tours in a student's life. Students get to visit new places and this is a great opportunity for students who do not get many opportunities to go on trips. Especially for curious students who have the constant urge for learning new things, these educational tours are a great way of putting their knowledge as well as experiences to test. They can learn new things and this practical knowledge will help them in going a long way in their careers.

Passion for Travel: An educational tour can be a safe way to experience the world outside of one's home. On the tour, students are surrounded by other people they know and they are guided throughout the experience by their teacher and other guides. Further, they often pay much less than they would if they went by themselves. When students realize how much they enjoy travelling, it can open new doors for them. They might decide to study abroad to more thoroughly immerse themselves in different cultures. They may also be more likely to travel independently in the future, continuing to broaden their understanding of the world. Some students might even realize their passion for learning about other cultures and turn it into a career.

Cultural Observation: On a good educational tour, students experience a different culture through their eyes. Nowadays, many travel agencies organize the tours which are offering volunteering opportunities and other chances to see how people of varying socioeconomic levels in a variety of local people live. Such experiences can help students develop more compassion for people from different styles of life. It can also help them to reflect on how these issues affect people near their home, inspiring them to work toward change.

Independent: While away from home and the ease of a regular support system, students have opportunities to see what they are capable of accomplishing by themselves. Travelling allows students to develop themselves in ways that cannot be achieved without stepping outside of their comfort zone, becoming more mature, independent and self-aware.

Better Academic Performance: On an educational tour, students get to experience different styles of teaching and see a new side to their subject of study. When able to see, touch and smell the very things they have learned about in books, students return to the classroom with a deeper connection and greater motivation for their studies.

Our coordinator also allowed us to ask any questions regarding the functioning and jurisdiction of the high court students asked their doubts. Then we went to Parliament library. At Parliament, we had a session with Rajkumar (Director of Lok Sabha Secretariat) and Pulin B. Bhutia (Joint Secretary) about Parliament and its working. We also visited to the Parliament library and then watched two small documentaries related to making of Constitution of India and New Parliament Building. Then we went to visit India Gate.

Introduction

The students of RNB Global University organised a Legal Aid Camp in the Government Upper Primary School of Husansar, Bikaner on the Legal Service Day. The day is celebrated to make people aware of the various provisions under the Legal Services Authorities Act and the right of the litigants. On National Legal Services Day, legal awareness camps are held by State Legal Services Authorities across the country to apprise people about the availability of free legal aid. Further, nationwide programmes are organised every year to make people aware of the various services provided by Legal Services Authorities.

Why did the university organize the Legal Aid Camp?

School of Law is continuously organizing various extracurricular activities like national level Moot court Competition, Mock United Session, Mock Parliament, Dramatize Moot Court, Webinars, seminars, and conferences on various topics and visit to various Courts. These kinds of activities are necessary for the all over development of students. This camp was organised with the twin objective of developing these essential elements in the all-round, holistic development of students, as well as to give basic knowledge of law to the children in upper primary sections, and to develop their interest in the pursuit of law.

About the Legal Aid Camp

“The concept of seeking justice cannot be equated with the value of dollars.

Money plays no role in seeking justice.”- Justice Blackmun

The legal aid camp seeks to provide basic knowledge of law to the students of the upper primary sections. The team started the camp by meeting the principle and teachers of the school, and asking them for the permission to begin the Camp. The students from classes 2nd to 8th attended the camp. A small poem and group activity were started by Mr Aman Sharma to increase the interest and engagement of the students. The moral of the poem was to instil the values of 'Unity is Strength' in the students. After this, the volunteers introduced themselves to the students, and one by one presented their small demonstrations to the students.

First, Mr Aman Sharma gave a demonstration on “Good Touch and Bad Touch”. Ms Nancy Tanwar provided information on Manu Darpan, a mental wellness program started by the Govt of India focusing on the mental health of students started in the Covid-19 period. Ms Aditi Surana shared her wisdom on health laws of students. Ms Monika Berar told the children about child marriage laws using anecdotes from the various popular serials. Ms Poonam Mor and Surya Beniwal gave information on environmental protection and sustainability. Mr Aniket Anand presented to them their rights on Mid-Day Meal. Mr Vikash Kumar and Mr Shubham Raj presented their views on fundamental rights. Mr Rewati Raman talked about child marriage reforms. Ms Palak Jain went last and presented to them a way to resolve their problems through the CHILDLINE 1098. Lastly, a Vote of Thanks was presented by Ms Shelu Sharma.

The overall experience was extremely positive and joyous. The volunteers were able to interact with the school kids, and learn about their problems. We observed the school infrastructure, and facilities available to students of govt schools.

Objectives of the Legal Aid Camp

Legal Aid, as explained by Justice P.N. Bhagwati, is an arrangement to have easy access to the justice delivery system for the poor and illiterate people, so that ignorance and poverty does not stop them from seeking justice. The only objective of this service is to provide equal justice to the poor and downtrodden people. This not only includes the free access to the representation of an advocate in court proceedings but also Legal Awareness, Legal Advice, Public Interest Litigation, Legal Mobilizations, Lok Adalats, law reforms, and many such services that could prevent the injustice. The legal awareness should start at an early stage, and providing information to the younger students gives them an inquisitive edge over other students.

On National Legal Services Day, legal awareness camps are held by State Legal Services Authorities across the country to apprise people about the availability of free legal aid. Further, nationwide programmes are organised every year to make people aware of the various services provided by Legal Services Authorities. He told the students about the importance of PIL (Public Interest Litigation). Public interest litigation (PIL) refers to litigation undertaken to secure public interest and demonstrates the availability of justice to socially-disadvantaged parties and was introduced by Justice P. Introduction

The students of all the semester of RNB Global University attended the Two-Days workshop on "Art of Preparing Moot Memorial" organized by the Faculty of Law and Art Mooting is important part of learning in any law student's life. One should continuously make efforts in order to excel the skills of Memorial Drafting.

Introduction

Faculty of Law and Arts is continuously organizing various extracurricular activities like national level Moot court Competition, Mock United Session, Mock Parliament, Dramatize Moot Court, Webinars, seminars and conferences on various topics and visit to various Courts. These kinds of activities are necessary for the all over development of students. This workshop was also an essential element in the all-round, holistic development of children.

About the Workshop

The two-day workshop was conducted in three sessions, one session on the first day and two sessions on the second day.

The session began with the welcome address given by Dr Anil Kaushik, Dean Faculty of Law and Arts and Dr Ashok Prem, Head of the Department Faculty of Law and Arts shared his experience and journey of moot courts. He applauded the efforts of the students of the final year who pro-actively and enthusiastically organized the event along with their internships and studies. They also said that the pandemic didn't restrain their zest and process of learning and working on it.

The Expert speaker for the First day Mr Rahul Yadav, Assistant professor Maharaja Ganga Singh University spoke on There is a technique in every art that has to be learnt by its practitioners. The same is true for the Art of Advocacy Any law student can become a competent advocate by learning the principles of the art of advocacy by practice and patience. The experience of research is profitable the experience told the students how various students act as advocates and argue

upon an imaginary or a decided/undecided case, or it could also be on some specific legal issue, civil or criminal (or a petition). They are judged by a person having knowledge of the law, it is not necessary that the person should be a sitting or a retired judge. He Further says that first and foremost, a student should go through the moot proposition, thoroughly. It defines the boundary within which one has to argue and lays out the whole case in detail; the more one reads it, the more one finds out.

The Expert Speaker on first half was Mr Atul Jain Associate Professor Amity University, Gurgaon he told about the process should take up most of the time for preparation and is the execution of research planning. Considering the moot proposition and facts in issue, one has to find out the appropriate laws to be applied. He Further discuss that, after going through the case many times, you will ultimately isolate the facts which support you and you should counter those which go against you. After collecting all the facts for your case, it is necessary to draw inferences from the primary facts and formulate a hypothesis that will enable. He further discusses about the Bare acts alone may not be able to articulate the law and provide for further information that could be used in the moot court. One should go through a few books, not many, to get a fair idea of the law and also gather certain leading or important cases that can be cited to bolster the case.

The Expert Speaker on second half Mr. Rahul Yadav, Assistant professor Maharaja Ganga Singh University he told the student about the object of a pleading is to facilitate a trial so that the points of the issue might be clarified and also the decision given thereon; it also determines what relief a party is entitled to on the basis of law and fact. Thus, after gathering the required information, it has to be arranged in a certain format, either provided in the rules or the standard that is usually adopted. The memorial is the written submission while arguing orally in the moot court forms the oral submission. It has to be made for both sides by a single team, i.e., for plaintiff/appellant and defendant/respondent. He further said that rules for its making should be strictly followed as it is to be submitted to the moot court judges and to the adverse team. The teams can bring one themselves, for reference. They can also carry hard copies of judgements, bare acts, sections, various laws and other material that is to be brought

On the second day the resource person asked the students to form 5 groups and gave each group a case on which they were asked to form their own issues and argue. This practical learning made students understand the entire procedure of memorial drafting in a better way.

The workshop concluded with the doubt solving session, where the resource person entertained the queries of inquisitive law students and answered them to their satisfaction.

Objectives of The Workshop

The purpose of the workshop on preparing moot court memorial is to introduce law students to court proceedings that arise from a (hypothetical) dispute between parties. Such exercises can allow future lawyers, judges and arbitrators to improve their drafting, research and argumentation skills.

About the Event-

National Unity Day (Rashtriya Ekta Diwas) is celebrated on 31st October every year to celebrate the birth anniversary of Sardar Vallabhbhai Patel. Sardar Patel was India's first Home Minister & Deputy Prime Minister, Post Independence.

His contribution in political integration of India has been phenomenal.

In an effort to remember the life and contributions of Sardar Vallabhbhai Patel, an exhibition titled "Sardar Patel - The Architect of Unification" was organized at RNB Global University.

This exhibition had been curated jointly by the Indira Gandhi National Centre for the Arts (IGNCA) and Indian Council of Historical Research (ICHR).

This exhibition consisted of a pictorial presentation of life of Sardar Patel. Which included his early life, education and how he joined the Indian freedom struggle.

The program started with the welcome address given by Mr. Shailendra Singh. He briefed about the purpose of conducting this event. He also informed the house that this event also reflects the Panch Pran (Five Vows) given by our Prime Minister.

Mr. Ashok Karnani, gave a detailed speech on the life & Contribution of Sardar Patel in the political integration of our country. He threw light on how enormous task it was to unite more than 500 Princely States in one country.

He discussed, how Patel used wisdom in integrating Junagarh state. The use of military action for integrating Hyderabad was also discussed by him.

Mr. Karnani, further recited a patriotic poem. This poem filled the hearts of audiences with a feeling of patriotism.

The event ended up with the singing of National Anthem.

The exhibition was inaugurated by the Registrar RNBGU (Dr. Dipali Gupta) The Deans of respective Faculties were also present .

Introduction

The students of 5th Semesters of RNB Global University visited District Court on 13 October, 2022. A court is a tribunal, often a governmental institution, with the authority to adjudicate legal dispute between parties and carry out the administration of justice in civil, criminal, and administrative matters in accordance with the rule of law. District courts of India are presided over by a district judge. These courts are under administrative and judicial control of the High court of the state to which the district concerned belongs.

Why did the university organize the visit to District Court, Bikaner

Faculty of Law & Arts continuously organizes various extracurricular activities like National level Moot court Competition, Mock United Session, Mock Parliament, Dramatize Moot Court, Webinars, seminars and conferences on various topics and visit to various Courts, juvenile courts etc. These kinds of activities are necessary for the all over development of students. District Court visit is also one of the most essential parts for practical knowledge of the Law students.

About the District & Session courts

The district courts of India are the district court of the state governments in India for every district or for one or more districts together taking into account of the number of cases, population distribution in the district. They administer justice in India at a district level. The civil court district court is judged by the district and sessions judge. This is the principal court of Original Civil Jurisdiction besides the high court of the state and which derives its jurisdiction in civil matters primarily from the Code of Civil Procedure. The district court is also a court of sessions when it exercises its jurisdiction on criminal matters under the Code of Criminal Procedure. The district court is presided over by a district judge who is appointed by the state governor on the advice of chief justice of that high court. In addition to the district judge there may be a number of additional district judges and assistant district judges depending on the workload. The additional district judge and the court presided have equivalent jurisdiction as the district judge and their district court.

Objectives of the Visit

The visit provides our students the opportunity to interact with the judges, District Legal Service Authority, Bar Association members, Advocates, AIR Library.

The students also got a chance to interact with the members of Bar Association Mr. Kuldedeep Sharma, Chairman of Permanent Lok Adalat, Mahesh Kumar Sharma, ADJ of District Legal Service Authority Manoj Kumar Goyal, Jitendra Riya ADJ civil court and Sushil Kumar Jain, ADJ Family court judge.

Also students received blessing from Vivek Kumar Sharma President, Bikaner District Bar Association. He explained students about ins-outs of litigation and relation between bar and bench and advanced wishes to students for their future endeavours.

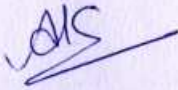

The visit started with a brief introduction of Concept of DLSA & Lok Adalat and its procedure by the faculty in charge Mr. Ashok Karnani. After getting a brief knowledge of Lok Adalat an interactive session was held with Manoj Kumar Goyal, ADJ, DLSA.

Additional District Judge Cum secretary of District Legal Services Authority Mr. Manoj Kumar Goyal told the students that NALSA along with other Legal Service Institutions use to conduct Lok Adalat periodically. Lok Adalat is one of the alternative dispute redressal mechanisms, it is a forum where disputes/cases pending in the court of law or at pre-litigation stage are settled/ compromised amicably.

Learning outcomes of visit

The experience not only enriched students with working of district and DLSA, but also enlightened them with practical aspects. The visit was full of information for the students of law. Students got the live exposure to the judicial process of the court with a bench-bar relationship. It gave a practical and theoretical knowledge regarding all those laws written in the law books

परिचय

आर एन बी ग्लोबल विश्वविद्यालय के सभी छात्रों ने १४ सितम्बर २०२२ को "हिंदी दिवस" के अवसर पर विश्वविद्यालय द्वारा आयोजित कार्यक्रम में भाग लिया। यह दिन संविधान समिति द्वारा हिंदी (देवनागरी लिपि में लिखित) के आधिकारिक भाषा के रूप में अनुकूलन का प्रतीक है।

विश्वविद्यालय ने इस कार्यक्रम का आयोजन क्यों किया?

आर एन बी ग्लोबल विश्वविद्यालय ने हिंदी भाषा के महत्व को प्रदर्शित करने के लिए इस कार्यक्रम का आयोजन किया था। वह दिन उस घटना को याद करता है जब हिंदी को भारत की आधिकारिक भाषाओं में से एक के रूप में अपनाया गया था। आज, अंग्रेजी भारत में सबसे लोकप्रिय विदेशी भाषा बन गई है, जबकि हिंदी अपना महत्व खो रही है। छात्रों को अपनी मातृभाषा "हिंदी" का महत्व याद दिलाने और सभी को इस भाषा को और अधिक बोलने हेतु प्रोत्साहित करने के लिए विश्वविद्यालय द्वारा इस कार्यक्रम का आयोजन किया गया था।

कार्यक्रम के बारे में

कार्यक्रम की शुरुआत आर एन बी ग्लोबल विश्वविद्यालय के अध्यक्ष डॉ. जी. एस. करकरा के एक संबोधन के साथ हुई जिसमें उन्होंने सही कहा कि इतनी विविध आबादी वाले देश में यह वास्तव में गर्व की बात है कि "हिंदी" को आधिकारिक भाषा के रूप में अपनाया गया है। श्री कुशाग्र शर्मा, ने "हिंदी" के महत्व पर प्रकाश डाला और छात्रों को उसी के बारे में कुछ रोचक तथ्यों से अवगत कराया।

आर एन बी ग्लोबल विश्वविद्यालय की कुलसचिव श्रीमती दीपाली गुप्ता , विधि एवं कला संकाय के अधिष्ठाता, श्री अनिल कौशिक और कृषि-विज्ञान संकाय के अधिष्ठाता, श्री सुरेंद्र सिंह शेखावत ने छात्रों को संबोधित किया और विद्यार्थियों के साथ अपना बहुमूल्य ज्ञान साझा किया और हमारी आधिकारिक भाषा, "हिंदी" के संरक्षण और अभ्यास के महत्व पर भी जोर दिया।

विद्यार्थियों ने उत्साहपूर्वक इस कार्यक्रम में भाग लिया और आगे आकर कविता, भाषण और गीतों के माध्यम से अपने विचार व्यक्त किए। सुश्री लावण्या लकोटिया और मोनिका बरार द्वारा एक प्रश्नोत्तरी भी आयोजित की गई थी।

कार्यक्रम का उद्देश्य

हिंदी भारत में उपयोग की जाने वाली प्रमुख भाषाओं में से एक है क्योंकि देश की आबादी का एक बड़ा हिस्सा इस भाषा को जानता और उपयोग करता है। भाषा के सम्मान के लिए हर साल १४ सितंबर को हिंदी दिवस मनाया जाता है। इस कार्यक्रम को आयोजित करने का उद्देश्य छात्रों के बीच हिंदी भाषा के महत्व को उजागर करना और इस खूबसूरत भाषा के मूल्य को फैलाना था।

Why Did The University A Webinar on "New Wage Code 2022"?

The Training and Placement Cell is continuously working in holistic development of RNBians. The Cell works at ensuring that the students of RNB Global University are ready for the corporate world even before majoring in their subjects. One such aspect at which the Cell works at is ensuring that the students are updated with the changes happening across India which impacts the corporate world. To make the students aware of the New Wage Code 2022, this webinar was organized by the Training and Placement Cell.

About The Webinar

The session began with a brief introduction of the speaker of the event, which was then followed by a welcome address by Dr. Anil Kaushik Sir, Dean, Faculty of Law and Arts. The speaker began the session soon after this welcome address and began the session by giving an introduction to the New Wage Code and talking of the four newly introduced codes, namely, he Industrial Relations Code, Code On Occupational Safety, Health and Working Conditions Code, and the New Wage Code. These new labour laws came into effect on July 1st 2022. The speaker explained the current scenario and the scenario that which will be applicable after implementing the code. Currently, the basic salary is in the range of 30-40% of the gross. The allowances make up the balance. But the new code specifies that the basic salary should be a minimum of 50% of the gross salary. Furthermore, companies must pay overtime to the employees and any time over 15 minutes of working is the subject of employee overtime payments after the shift of 8 hours is completed. The speaker also shared insight on the number of leaves in the new wage code, i.e., the employees now get an hour of leave for every 20 days of working instead of 45 and the new employees will now be eligible to take leave after the first 180 days of employment contract. It won't be 240 working days like the current system.

At the end of the session, the house was open for questions and the lecturer solved all the queries of the students.

Objectives of The Webinar

The purpose of the lecture is to spread knowledge about the New Wage Code in India. The New Wage Code aims to regulate the wages and bonus payments in all types of employment and replaces four major laws, i.e., the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965, and the Equal Remuneration Act, 1976. In order to make the students understand the lacunas in the previously existing laws and the issues that were resolved by the new code, this webinar was organized by the Training and Placement Cell.

About Guest Lecture

The purpose of the lecture was to undertake an intellectual engagement with the students and spread knowledge giving our students an opportunity to understand the contemporary political scenario and political turmoil in which South Asia is embroiled today.

Dr Verma spoke enlightened the students on the constitution of South Asia as a region explicating its history of violence and political turmoil ranging from colonialism to partition, demarcation of territorial boundaries of national states and varied insurgencies challenging the territorial sovereignty of states constituting the South Asian region.

Dr Verma argued that the Political Turmoil in South Asia, can be broadly understood in four categories, namely (i) those imposed and escalated by the global political, strategic and developmental dynamics, including the role of great powers; (ii) those inherited and Strategically induced in inter-state engagements; (iii) those precipitated and nurtured by the internal political turbulence, overloaded population, socio-cultural fault-lines and developmental distortions; and (iv) those that are caused and covered by the non-state actors. He also focused on the South Asian countries confronting the problem of the bureaucracy turmoil and Political instability and the absence of strong and stable political parties.

He also discussed the case of Sri Lanka which is a demonstration of how the economic crisis in the state has culminated in political instability in the island state due to mismanagement of the economic realm and misuse of political power for narrow personal interests. He also underlined how Sri Lanka is facing a clear 'Arab Spring' moment triggered to overthrow the autocratic rule, highlighting the rampant corruption and rising poverty. He also highlighted the eventful spring for South Asia: a change in government in Pakistan, protests demanding regime change in Sri Lanka, and a slow-moving economic disaster unfolding in Taliban-ruled Afghanistan.

He culminated his lecture explicating that presently, South Asia lacks Charismatic Leadership with the prime thrust on vote bank politics and electoral victories. This has reduced popular leadership to vote managers in a practical trend of Electioneering.

Dr Verma also highlighted the disastrous political consequences of Freebie culture gaining popularity in India and also the harmful outcomes of familial and dynastic rule in a democratic country like Sri Lanka. Nepal, he emphasised is also reeling under a mounting debt crisis along with Bangladesh shifting towards Islamic democracy instead of secular democracy.

President of the RNB Global University Professor Dr. G.S. Karkara, highlighting the various aspects of the political and social Development of the nation states constituting South Asian region enriched the understanding of the students. It enabled them to articulate and comprehend the contemporary issues facing South Asian countries in a more holistic manner while correlating the same with their respective disciplines as well.

Minutes of the program

The Debate Competition has been started with the welcome address and a brief introduction of the topic i.e., "of late the Governor is becoming important in Coalition Government of States", by Ms. Ashok Karnani described the rules of the debate competition.

At first Ms. Tisha presented his views in favour of the motion. He discussed the Political systems are classified into federal and unitary forms of governance based on the distribution or concentration of powers between the centre and the state or in the centre respectively

Then Shubham came with his strong points and spoke in against the motion. He countered the points of other opponent and discussed some loopholes of Coalition Government.

Mr. Yuvraj began her discussion with a quotation, she discussed Combination of a number of bodies or parts into one body or whole.

Then Mr. GM Qureshi came to counter the points of his opponents and he discussed some phenomenon where more than two political parties come together to form a government, sinking their basic ideological differences in the event of the inability of any single party to command a workable majority in the lower House of the legislature.

Another student Ms Surya began with the words of Kofi Annan, Former Secretary General of UN and presented his strong points in favour of the motion.

Ms. Bharat brought some light on the distribution of powers between centre and state in the Indian Federation and the respective areas of competence of each is earmarked, the constitution of India provides for a larger concentration of powers on the central government.

Ms. Sakshi began her discussion by putting some light on the multi-party system and regionalism changed the centre-state relations to a certain extent. And also tell about many regional parties in the coalition government at the centre particularly indicates the significant shift from centralised governance towards shared rule and federal governance.

Then Ms. Harshita spoke about how the appointment of the governor has gone through a rough phase due to coalition form of government.

After this another student named Poonam presented his views against the motion and he countered the points of other students who spoke in favour of the motion.

Ms. Pratham gave a broad overview about the loopholes in **coalition** government in which political parties cooperate to form a government. The usual reason for such an arrangement is that no single party has achieved an absolute majority after an election, an atypical outcome in nations with majoritarian electoral systems, but common under proportional representation.

2 minutes were given to the first speaker Ms Tisha for rebuttal.

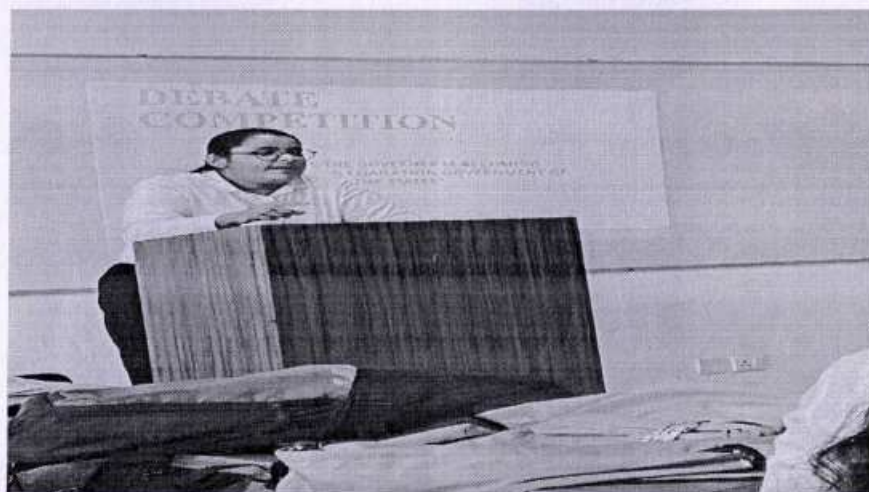

Dr. Afroz Ahmad expressed his gratitude to all faculty members and all participants students.

To conclude, the time has been come for use to realize the importance of plants in our lives. The season of Monsoon (June- Aug.) is most suitable for plantation. It is high time for us to plant trees to save our environment. So, we should plant more and more trees in order to maintain a balance in nature. By our contribution the pace of the tree plantation can be increased.
